Cincinnati City Council is expected to act favorably on a reso- lution Thursday calling upon the Board of Directors requesting submission of the UC amendment to the charter of the city of Cincinnati.

"After preliminary discus- sions between City Council and the University Board of Directors in agreement that the voters should be asked at the primary election in May as to whether or not they wish to submit the amend- ment which failed to carry by a slim margin at the November 1961 election," Bonten K.

Freshman Conference Held At St. Edmunds
by Penny Fitzpatrick

The program for the Freshman Conference weekend of March 2, 3, and 4 is especially aimed at helping first year students themselves. The first lecture given Friday evening by Mr. Hunt is entitled "How To Become An Individual and Also Function in A Group." Here the freshmen will take a look at their first semester in college and see how they have developed educationally, socially, and spiritually.

Saturday morning the topic will be "To Work Out a Code of Ethics." Freshmen can ask themselves how they can use this code during college and after graduation, and explore every possible situation to which the code may apply.

The third and last lecture Saturday afternoon will ask "What Can We Do in College To Prepare for Our Future?" A discussion led by various freshmen and faculty members, each lecture a different topic each lecture is open to discussion.

On Tuesday at 11 a.m., Charle- ten Wallace, Mr. Francis Tyler and other nationally known bridge experts will hold a bridge exhibition in the Main Lounge. This should be of special interest to those who are Grill bridge regulars.

The judging for the Union Art Competition will be Wednesday at 11 a.m. The exhibits will be shown all week in the Main Lobby of the Union. This promises to be a stimulating group of art exhibits. All students interested in displaying their artistic works should present them to the Union poster board not later than March 2. There are six cash prizes; two first prizes of $25 each, two sec- ond prizes of $15 each, and two third prizes of $5 each. This is open competition exhibition.

On Thursday at 3:30 and again at 7:30 the movie "Hamlet," starring Lawrence Olivier, will be shown in the Faculty Dining Room. Friday, the end of the Second Union Silver Anniversary Campus.

UC Union Celebrates Again

A wealth of fun and services will be offered at the annual auction March 2. Groups To Sell Services

A wealth of fun and services will go on the auction block in Wilson Auditorium Friday, March 2. The event is sponsored by the Student Senate for the benefit of World University Service.

The annual WUS Auction is charging $3.20 for admission this year. The cost includes hors d’oeuvres served by The Tradewinds and The Shirley Venus at the opening and seven singing waitresses from Kappa Kappa Gamma, and a twist from the Men’s Bathroom. Candidates for Kampus King and Queen will also be among the guests.

Auctioneers for the event will include: Alex Helle, also holder of Wilson of Effron Corporation.

Offered for sale will be Friday-night party, Wilson of Effron; Sparking Brandy 1st floor, Delta Delta Delta; Logan Hall laundry (100 shirts), Logan Hall; wine party, Pi Kappa Alpha; $5 worth of food, Union Blackboard; "brown bag" series, Kappa Alpha Theta; the largest of any type, Alpha Tau Omega; 25 shoe shines, Lambda Low Hall; Friday-night party, Lambda Chi; and a 20-car washes. The University will hold a second running open house. The new well-known "Shades of WUS" will again provide the music for free hamburgers and beer, and another overhead crown is expected.

The Cincy Union opens its sec- ond week of Silver Anniversary Celebration on Monday, March 5. There will be a second running open house. The new well-known "Shades of WUS" will again provide the music for free hamburgers and beer, and another overhead crown is expected.

The judging for the Union Art Competition will be Wednesday at 11 a.m. The exhibits will be shown all week in the Main Lobby of the Union. This promises to be a stimulating group of art exhibits. APTa Acquires New Mascot

The Alpha Epsilon Pi has acquired a new mascot, a ring-tailed monkey named Alphy. Only nine months old, Alphy eats everything from apples to grapes but, strangely enough, refuses bananas. While the picture was being taken Alphy climbed out of his cage, screaming defiance. He finally went back in on his own accord, and order was restored.
Student Court

Larry Hyer

Larry Hyer, Engineering, '62, was found guilty in part of parking in a faculty zone. The defendant was ticketed for improper parking in lot No. 10. Two weeks later, he received a ticket marked "second offense," for a different violation. Regulations provide that a ticket for each offense after the first shall be for a fine of not less than $2.

The defendant testified that he did not receive the first ticket and that he had no knowledge or notice of it until he received the second ticket for the increased amount. The court stated that the more failure to receive the ticket is no excuse for the violation. The defendant made a compromise—a $4 fine.

Jim Sachs

Jim Sachs, University College, '62, had charges dismissed against him for having no parking permit and no registration. The defendant testified that he has a parking permit and registration sticker on his own car, as well as a health permit. On the day in question, his car was broken into, and nothing of his car was taken except the small parking ticket. The defendant testified that he attempted to park in the Administration Drive, but that the ticket was invalid. He contends that he made a valid attempt to properly display his health permit and should, therefore, not be held for the violation in question unless he was authorized to park his car. However, he had no reasonable justification for failing to register the violation tag within three school days of its receipt.

Oscar Britton

Oscar Britton, Teacher's College, '62, was found guilty of parking in the athletic area and no registration. The defendant joined the band sometime after the semester started. Members of the band have special permission to park for games and practices. The defendant was found to be in an area open to band members. The defendant made a reasonable assumption to that effect, and the court found that he did not park his car due to the lack of information available to him, so the charge was dropped.

Student Council

Studies Calendar

Student Council, in its first meeting during Section II, approved Spirit Club's constitution, discussed elections and the possibility of an Autumn quarter, and planned sessions for stimulating literary reading at the University. The meeting was held in the office of Mr. Press.

Twenty council members will count and tabulate election returns from this campus voting in the Union, Room 297, from 9:30 a.m.-4:30 p.m. on March 27. Mr. Press is elected Student Council president.

The quarter program for the 1962-63 academic year, featuring an Illustrated lecture by Mr. Birry Bishop, is now open to admission. Monday evening, March 25, 8:30 p.m. in the Common Council Committee will be held on Wednesday, March 27. 8:30 p.m., in the Student Council room, beginning in the Administration Drive.

In order to give students an idea of what the different candidates for Student Council plan to do if elected, the News Record sent out a questionnaire. The answers of those candidates for the Section I and semester election, other than ones printed before, are printed here. The following questions were asked:

(1) If elected, will you attend every meeting of Student Council?

(2) Do you believe that Student Council is an effective governing and policy-making body? If not, what specifically do you believe its weaknesses to be?

(3) Will you do to strengthen its position on campus and bring about more action and coordination for its activities?

We urge students to read the various opinions before voting.

COLLEGE OF ARTS GOVERNING AND SCIENCE

Stephen Graham

(1) Definitely.

(2) Student Council is definitely not an effective governing and policy-making body. During the four years I have been a student at the University, I can remember hearing or reading of the activities of the council only a few times. This is significant in many ways. In one of the other ways: the council is accomplishing relatively nothing and has lost all contact with the student body which it is to represent. In either case, the council has lost any influence it may have once enjoyed.

Since the council has not effectively served the Student Body, it is extremely difficult for it to serve the Student Body. To be effective, it is imperative that the council recognizes what it is supposed to be doing, that is, serve the student body.

George McGeorge

(1) I plan on attending the meetings that are within the range of my possibility.

(2) I do not believe Council is an effective governing and policy-making body. I believe, however, it reaches some of its goals that extend from its lack of communication with the people they are representing. I believe if the council had the natural ability to come up with truthful council without doing nothing or failing to do what it is supposed to, then it would have done its job known by a very few, for they to fail to informing the student body.

(3) It is my belief that what has to done is to evaluate Council as they have been in the past, and then to solve the problems they are presenting a minority group of voter, their power will be almost be the same. There is no place for any policy to make or any support to carry them through. Now in order to have an effective voice, structure is not aids. The area of interest in the student body will be truly representing the majority, but the major body of individuals which will mean any students have power to attain the wishes of the students. If our methods fail we will then have to evaluate the problem, and consequently also the Council must do the same. If policy cannot fail in its efforts but the people, they represent will not have, indicate that there must be a new system of representation. We will not have the exact position of major areas such as not to use the University of Cincinnati.

Bob Gilbert

(1) I will do my best to attend Student Council meetings. However with present system of ticket distribution, it would impossible for me to promise to attend every meeting.

(2) It could be Council serves as the liaison between student body and the University. I have not been aware of the activities of the council for years, with the student body, to develop rapport and enthusiasm with the students. It has failed to complete much of the business it should have handled because of lack of attendance and general lack of interest of people on the Council.

(3) I feel the best way to develop a better communication between the student body and the Council is to solve the problem of initiation of business from the floor; and adequate committee functions;

(Continued on Page 5)

Keith Eastin

(1) If elected, I shall fulfill my obligation to my constituents by attending to Council meetings.

(2) No. Student Council is characterized by a gross neglect of responsibility. It has had the chance to make itself known by a very few, and I don't think they should be in a position to say anything about it.

(3) It would be an effective governing and capable of effective action and coordination for its activities. It will be, I believe, if it will be supported by the Student Body. The main problem of the student body is to support the Student Council in the manner of an honorary society, doing little and applauding itself feel that this holds true for Council.

Judith Gallagher

(Nov. 25, 1962)

DICK HOLT

Elena Rhodes

(1) Yes, George. Afterwards.

(2) There is a saying of "United we stand; divided we fall." I believe that the Student Council is the main action of a group, whether it be a prize rather than a cause or not. Secondly, I will promote better policy-making body. During the development of enthusiasm in the student body, I will make every effort to attend meetings and if elected, I can promise to work hard to keep the student body in attendance at meetings. If any other problems arise, I will take it upon myself to see that the problems are handled. I will be well informed of Council's activities and take an active part in all Council business. A person who carries out his duties as a good and efficient member of the council will have to worry about "dismal action" and "co-ordination of action," because we will have to worry about the natural action of a good Council member.

College of Music

C. R. Everson

(1) If there is any, I wonder if there is a possibility of being elected in the present position.

(2) No. The student body has done nothing and what it has done has been his fault and left to its own action.

(3) It is my belief that the fault of the student body is the repeat-tive.

(1) Yes, if that is possible. No. The outstanding fault of the Council is the ever-present weakness of its members.
The Hard Sell In Grill

Tobacco companies have known for quite a while that one of the more fertile fields of endeavor is the college campus. Last week one of these companies set up a table directly in front of the vending machine in the grill, and sold cigarettes at three packs for fifty cents. Although this particular company had received permission from the Student Contributions Committee to do this, they did not obtain permission from Dr. Brewer, Director of the Union, to do this in the Union. His permission for this sort of thing is required.

However, the fact that certain rules were being violated was not disturbing to the tactics that this company used in advertising their cigarettes. Upon approaching the cigarette machine one was greeted with—"Smoking more now but enjoying it less?" or "Twenty-one wonderful tobaccos make twenty one wonderful moments!" Without anyone who did not care to smoke one of their brands it was practically impossible to elbow your way in to buy your cigarettes. Obviously, this kind of advertising alienates more students than not.

In the future, we should advise cigarette companies to make a more mature approach towards advertising on campus and to be sure and obtain permission before staging these gimmicks.

Dress Standards

The appropriate dress and personal grooming of coeds in many phases of campus and community activities has prompted the Standards Committee of the Associated Women Students to survey faculty and organization opinions.

"Long and lanky" is the left-overs from the past. Unfortunately, many of the professors surveyed are unaware that the University has specific standards for their classes and for themselves to dress neatly and to care for their classes and for themselves to dress neatly and appropriately for all occasions. This is something that should not have to be repeated for any college student—neither men nor women.

In observing appropriate dress and grooming on campus, however, it must be remembered that "appropriateness" is governed in part by weather and type of work. It seems reasonable that a coed be given a certain amount of slack for the attires associated with the discussion of organization and professors referred to AWS.

In observing appropriate dress and grooming on campus, however, it must be remembered that "appropriateness" is governed in part by weather and type of work. It seems reasonable that a coed be given a certain amount of slack for the attires associated with the discussion of organization and professors referred to AWS.

The Political Whirl

City Has Illegal Tax

by Doug McDadden

The City of Cincinnati has usurped its power to tax as have numerous other governmental bodies. While the outcry against the City Council is constant, voiced, there exists no organized opposition.

The city levys a 1% income tax on both resident and non-resident within the city limits. The taxation of the non-resident is represented in any body having the power to dispose of this revenue. As trite as it seems, this is taxation without representation. The taxation of the non-resident is just, but that of the non-resident is not. If a city sales tax were employed the income tax, it might be more justifiable.

I challenge the City to justify its present taxing program. Undoubtedly they can not or will not, but it would be interesting to hear their attempt.

Many individuals pay taxes for the support of more than one state or city. For instance, a resident of Covington, Kentucky employed in Cincinnati will pay local property tax, Kentucky income tax, Kentucky sales tax, Ohio sales tax, Cincinnati income tax, and federal income tax. This plight is similar to that faced by many throughout the United States. There is an extremely large amount of overlapping.

2 More Films Announced In Geol. Series

The second film program in the Geology Film Series consists of two films prepared by the Atomic Energy Commission. One is dedicated to the story of the discovery of uranium in the colorful southwestern deserts including a brief resume of the geologic history of the region as related to those important deposits. The mining of uranium is also briefly described in "Production of Uranium".

"Production of Uranium is a technical film of the refining of the ore and the concentration processes associated with the upgrading of these southwestern ores.

These two films will be shown under the sponsorship of the Department of Geology and the Alpha Delta Chapter of Sigma Gamma Epsilon in Room 39, Old Tech at 12 noon, Wednesday, March 7. Box lunches can be eaten during the film—coffee will be provided at a nominal fee.

The Maelstrom

Reds Now Want Talk

by Pat Reeves

Now that the U.S. has shown some space prowess, Houg Khrushchev wants to play footloose under a discussion table.

Russia's flight proved to be something that we are up to par in our space know-how. For about ten years America has been nothing but a copycat. Now we've gotten our own back. It's just that Russia didn't expect us to do anything as wondrous as putting a man in a pow wow in which space knowledge is shared. Now that the world has been put on notice that the U.S. is capable of putting man on the moon, they've decided to let us in the game.

In a recent statement, JFK said we should definitely have some talks before space became a commercial proposition. America is ready to lead the way. We're not in a rush to build a project, we're just talking about it for the present. We've got the man in the moon already. If we get him to another planet, we'll build the things to claim it for our own country. What if Columbus hadn't come to this usurpation is consistent with the other programs which this country has been putting into the sphere. The question is, are we going to be a power to dispose of this revenue?..."
New Group Travel Plans
To Be Effective in March

This is the first of a series of articles about the travel opportunities available to students.

One of the best deals available this year for visiting abroad is the new Group Travel Discount which goes into effect later this month.

This plan allows a group to travel to Europe, Africa, or the Middle East at substantial savings on one of the major air carriers' regularly scheduled jet flights.

Two types of groups qualify for the Group Travel Plan: They are (1) the affinity group (such as sororities, fraternities, church organizations, professional societies, etc.) and (2) spontaneous groups (such as the girls who play bridge together in the grill or the guys that always pool their Fridays, or the car pool that travels with the group). In either case, the group must be organized and have decided where it is going to travel to, and it must have at least twenty-five members of the group (such as the girls who are to travel to Europe, Africa, or the Middle East at substantial savings).

Travel to Europe, Africa, or the Middle East is arranged for a period up to six months before departure time.

Some of the carriers even allow this group rate to apply to groups who are planning to travel on the Pre-Seller Plan (10% down and 24 months to pay.)

Special rates are available for any children and infants that may be travelling with the group. Immediates of group members' families are also eligible to travel with reduced rates.

This group plan is not restrictive as a tour would be, and it is permissible to use a travel agency to obtain the authorization for the group to receive the discount and to allow them to make additional travel plans in connection with the trip.

The point of destination abroad and the point of origin on the return trip may be different, according to the desires of the group. The group is at liberty to make any arrangements individually or as a group that it chooses, when abroad.

The Group Travel Plan, though not actually in effect as of this date, can be a real boon to Joe College. For the first time, by getting together twenty-five members of his "buddies" (or other friends or folks from the same fraternity or sorority, team mates, cousins, their friends, professors, etc.), he can travel to Europe by jet at considerable savings and not be bothered with "buddies," unless he so chooses, until the group is ready to return home to the United States.

To Be Effective
the new Group Travel Discount
'Sororities, fraternities, church together twenty-five members' of group are eligible if they can get groups (such as the girls who travel to Europe). Legal entity whose principal purpose is not that of gaining something for itself or be organized by an individual whose purpose is not that of gaining something for his transportation company or travel agency.

Once the group has been organized and has decided where it wants to go, one of the members or the organizers must inform the air carrier in writing that the group exists and intends to take advantage of the discount. It is permissible to use a travel agency to obtain the authorization for the group to receive the discount and to allow them to make additional travel plans in connection with the trip.

Typical round trip fare from New York are: In 1962, Shannon $274; London $200; Lisbon $300.

Council Replied... (Continued from Page 2)

lack of power. Secondly, too many meetings are missed by the people elected. Third, the general student body isn't interested enough to pressure their representatives into providing a better, governing body.

(3) As far as strengthening its position on campus, I have only two things I’d like to see come about. First, I'd like to see the gap between the members of Council and the general student body closed. Second, have more publicity given to the business of the Council.

Pharmacy
Ronald Blankenbuehler
(1) I do not feel that the Council is quite as effective as it could be. Since I am presently a member of Council, I realize many of the existing problems, but I am not writing this in defense of the Council.

(2) To the extent of its purpose, I think the Council is not quite as effective as it could be. Since I am presently a member of Council, I realize many of the existing problems, but I am not writing this in defense of the Council.

As I have said before, I do know many of Council’s shortcomings, and I am writing these to show that the group as a whole is aware of it and is doing something about it. The main reason for the lack of action by the Council is the lack of interest among the many of its members. In this questionnaire, as in many other election campaign speeches and statements, the voters will probably see a lot of enthusiasm which is often ephemeral or temporary and is often lost in the everyday actions of the office. The effectiveness of any organization, especially a governing body, is dictated by the interest of the members in participation and in desire to work.

(3) To strengthen Council’s position on campus, I will make known to students the purpose, methods, actions, and uses of the Council as much as possible; attempt to obtain appropriate publicity to make the students, as well as members of Council, interested in its actions; be as active as possible in the activities of the Council; and make a good representative for the students in the fields of Pharmacy and for the whole campus.

Home Economics
Marty Wesol
(1) Yes.

(2) Council is mainly a policy-making body; it has the potential to be a very effective organization. The main hindrances are first, that candidates have very seldom ever attended a Council meeting in the past, and second, the lack of interest or feeling of obligation that the representatives have shown a constructive interest in its activities.

I have yet to see one student come to observe a meeting. No one has ever approached me to express the opinion on an issue on the floor of Council or to discuss the details of an issue. As far as I can say, not too many people know of their Council representatives are.

Nursing and Health
Mimi Kreyhill
(1) Yes.

(2) At present, I do not feel that the Council is effectively carrying out its objectives, for many reasons. Two of the outstanding reasons are the general apathy of the student body toward the Council and all other non-sorority, fraternity organizations, and the apparent lack of interest or feeling of obligation that the representatives have shown. The apathy of the student body may be due to the fact that they are so poorly informed about its workings. The Council, combined with the feeling that the Council is completely removed from that of their experiences, may also feel that the Council exists only as a useless organization. I think the lack of interest of the members is explained.

(3) Effective communication between I shall see that if the member of Council would be my first goal. I would try to help students to learn what Council can be very effective and a real benefit if they were interested in being informed and informed myself, will try to make my organization and interest in the Council contagious.

\textbf{Union Movie With W.U.S. Action}

"Operation Petticoat" has been one of the most popular comedies motion pictures have seen in recent years. Gary Grant, a World War II skipper of a wounded submarine, enlists the services of Tony Curtis to obtain spare supplies and parts, without regard for procedure, hoping to get his ship under its own power before the Japanese return to do it for him. A promotor in his own right, Curtis brings five stranded Army nurses aboard in the face of an impending attack.

The film will be shown on Friday, March 2 at Wilson in conjunction with the WUS auction.

\textbf{Phi Kaps To Select Sweetheart}

This week culminates the selection of a Sweetheart, for Phi Kappa Theta. The events started Monday, Feb. 11, with a tea at the house introducing the six candidates. Monday, Feb. 26 there was a dinner at the house honoring the six candidates. Friday, March 2, the new queen will be announced by the present Sweetheart, Miss Julia Byrnes of Theta Phi Alpha.

The crowning will be in conjunction with the Alumni Dance which will be held at the Lookout House this year.

\textbf{Ye Old Fey-thful}

by 

In past years we always thought cheerleaders became cheerleaders because they had special dedication to organizing enthusiasm, or because they wanted to promote the spirit of the school. We found out the real reason last Saturday night during the Wichita game. It's room. You know, the stuff you use to place your posterior in, or to stand in, or to put your coat in. We don't know who designed the field-house seating arrangement but we do wonder what group of middle aged people get to sit in the rear. How the trend starts we do wonder what group of middle aged people get to sit in. We do know Who)

The six candidates are: Mary Kay Burge, Nancy Hein, Mount Saint Joseph, Terry Kamphake, Mount Saint Joseph, Mary Manahan, Theta Phi Alpha. The six candidates are: Mary Kay Burge, Nancy Hein, Mount Saint Joseph, Terry Kamphake, Mount Saint Joseph, Mary Manahan, Theta Phi Alpha, Carol Prior, KKG; Keith Easton, Beta. Emily Riddingmeyer, KKG; John Graffon, Lambda Chi. Linda Millard; Terry Murr, ATO.

It seems that Kampus ming begins twenty-eight days, may be purchased at the "Tuxedo Junction" between March 23 at Castle Farms. As the theme "Tuxedo Junction" suggests, music will be provided by the Glenn Miller Orchestra.

This dance was conceived from a desire to promote inter-dorm unity and will be the culmination of planning by the presidents and social chairman of the respective dorms under the leadership of Mike Zipen, president of the men's residence halls. Women's residence halls included in the planning are Logan, Memorial, Lowdow and Huber. Advisor to the group has been Miss Suzanne Weaver from the Office of the Dean of Women.

"Tuxedo Junction" will be open to the entire campus, and tickets may be purchased at $3.50 per couple from members of the residence halls. They will go on sale in front of the Grill at noon beginning March 1st.

\textbf{Choral Auditions}

Auditions for membership in UC Choral Groups will take place between March 1 and 9. Students who enjoy singing are cordially invited to audition between 2 and 4 p.m. in Wilson 102.

**Boys Will Be Boys**

Thursday, March 1, 1962

The conference is arranged by the home economics education branch of the United States Department of Health, Education, and Welfare.

**Dr. TING YI LI**

Dr. Ting Yi Li noted hypersonic expert and research consultant for aerospace industries, has been appointed UC professor of aerospace engineering. Dr. Howard K. Justice, Dean of Engineering, announced the appointment.

Dr. R. Paul Harrington is head of this department.

Since 1956 Dr. Li has been director of hypersonic research and professor of aeronautical engineering and astronautics at Remserch Polytechnic Institute, Troy, N.Y.

Renowned for his compressible flow, hypersonic flow, and super-aerodynamic theories, Dr. Li is advisor to many of the major aircraft companies.

Dr. Li received a Bachelor of Science degree in aeronautical engineering in 1940 from the National Central University, Changhai, China. He received both a similar degree and the Doctor of Philosophy with honors from the California Institute of Technology in 1946.

**Dr. GEORGE C. SCHOOLFIELD**

The book long considered the authoritative work on the life of Hans Christian Andersen has been translated from Swedish by UC's Dr. George Schoolfield.

"Hans Christian Andersen: A Biography," by Swedish literary critic and author Mrs. Anna Bertram, has just been published in translation by the University of Oklahoma Press.

Dr. Schoolfield, who joined UC as head of the department and professor of Germanic languages last winter, translated the Swedish author at the University of Lund, Sweden, Book, who wrote the work on Andersen in the 1930's and revised it in the 1960's, died in September 1961.

**MRS. RUTH DE JARNETTE**

Mrs. Ruth De Jarnette specialist in costume design, has been named assistant professor of design in the University of Cincinnati's College of Design, Architecture, and Art. Her appointment was announced by Dean Ernest Pickering.

Prof. DeJarnette holds a science degree in design degree from UC and has worked as a designer for Mack Shirt Co. of Cincinnati.

**Dr. CARL R. TRAHMAN**

Dr. Carl R. Trahman, associate professor of classics in the UC's McMicken College of Arts and Sciences, will teach and research in China for several months of one year's sabbatical leave of absence, looking for work on a book at the American Academy in Rome.

His book will concern the penetration of Roman culture, language, and literature into the Greek-speaking East during the Roman Imperial and Byzantine periods.

Dr. Trahman, who joined the UC faculty in 1948, has been the university's representative on the Advisory Council of the American Academy's School of Classical Studies since 1956. His leave of absence extends from Sept. 1, 1962 to June 30, 1963.

**Dr. ALFRED M. KEIRLE**

Dr. Alfred M. Keirle, a surgeon whose special field is in cardiovascular and thoracic surgery, has been appointed a full-time member of the faculty of UC Medical College.

He has been a part-time UC medical faculty member since 1960, serving as chief of the surgical staff at the Veterans' Administration Hospital.

Certified by the American Board of Surgery and Thoracic Surgery, Dr. Keirle holds membership in Alpha Omega Alpha, Central Surgical Association, American College of Surgeons, and the Mont Reid, Cincinnati, and Ohio State Surgical Societies.

Dr. LOUIS A. GOTTSCALK

Dr. Louis A. Gottschalk, research professor of psychiatry at UC's Medical College is the editor of a new book, "Comparative Psychopharmacology: Analysis of the Psychotherapeutic Interview," published by the International Universities Press, New York.

Other UC contributors to the volume are Dr. Goldstein, associate professor of psychology, and Dr. Kayle J. Springer, instructor in psychology, both of the psychiatry department.

**ELECTION ADDITION**

Though not listed last week, Shirley Myers is a candidate for Vice President of the Sophomore class.

**Now Showing At Your Favorite Art Theatres**

HYDE PARK ART, 3324 Madison, 274-1711

**Dr. RAYMOND E. DESSY**

Dr. Raymond E. Dessy, brilliant young UC assistant professor of chemistry, has been awarded the first Alfred F. Sloan Foundation research fellowship ever given to a UC faculty member. Foundation officials have announced.

One of 83 young university scientists in 30 states to receive two-year, unrestricted grants for basic research in the areas of chemistry, mathematics and physics.

Dr. Dessy is the only recipient at an Ohio institution of higher learning.

Unique in the field of gifts to research workers, the Sloan grants enable scientists to follow pure research of their own choice.

Dr. Dessy's plans for two years of unencumbered research include one year of work at UC exploring several debatable concepts of the structure and stability of various chemical compounds.

Planning to follow up the results of those experiments at UC in the second year, Dr. Dessy will also visit research laboratories here and in England in order to broaden his knowledge of current development in chemistry.

**DR. EMMA B. WHITEFORD**

Dr. Emma B. Whiteford, director of UC's School of Home Economics, is attending two conferences on home economics education and administration this week in Chicago.

Dr. Whiteford is representing UC at the biennial central regional conference of the American Home Economists through March 2.

Cincinnati Four In

Two Categories

The Bearcats remained fourth in both team defense and rebounding through games of March 2, which comes according to the latest NCAA statistics.

Four Cincinnati opponents (a total of 10 games) are among the top twenty defensive teams in the nation. They are Indiana, Seton Hall, John's, Houston, and Dayton. Three UC teams are high in team rebounding, Seton Hall, Houston, and Dayton.

Bill McGill continues his relentless scoring pace at 37.5 points per game, while Jerry Lucas tops his field goal shooting percentage to an astronomical 65 per cent. George Wilson stands 17th in the nation at 36.8.

The Bearcats also stand fifth in the nation in scoring, lagging 18 points behind No. 1 Michigan, which averages 98.3 points per contest.

Cincinnati coach Larry Wetzel, who guided the Bearcats to the NCAA title in 1958, is credited as one of the nation's top coaches.

Although erratic all season, they have shown ability to swing the big upset as witnessed by their three-point victory over Providence (then ranked fourth) and Villanova (then ranked sixth).

The Muskies, disappointing against all season, are currently 13-0 and have been the victims of road jinx minus much of the season. They have, however, conquered all in their gym and have shown some ability to win on the Cincinnati Garden's floor recently.

Cincinnati guard Tom Thacker flies in for a lay-up in last Saturday night's game with Wichita. Wichita defenders are Jerry Kiltie (25), Dave Stallworth (21), and Sam Smith (55). Cincy won 84-62 to gain at least a tie for the MVC crown. (Photo by Ethel Mende)

Cincinnati Faces Erratic Xavier At Gardens

by Stan Shulman

The Cincinnati Bearcats are favored to down the Xavier Musketeers tonight at 8:30 at Cincinnati Gardens in the only regular-season game of the season.

The Muskies, disappointing against all season, are currently 13-0 and have been the victims of road jinx minus much of the season. They have, however, conquered all in their gym and have shown some ability to win on the Cincinnati Garden's floor recently.

Although erratic all season, they have shown ability to swing the big upset as witnessed by their three-point victory over Providence (then ranked fourth) and Villanova (then ranked sixth).

By Hank Gradem, Sports Editor

Congratulations are in order for three television stations namely WCPO-TV, WLW-TV and WKRC-TV for their excellent coverage of the Bearcat basketball games over the season. This is a tremendous advancement in sports coverage in the Cincinnati area.

Next Saturday, March 2, WKRC-TV will televise the Bradley vs St. Louis game originating in St. Louis. This game may be the deciding factor in the Missouri Valley Conference crown race if the Billikens beat the Bradley Braves. The game will also be on WKRC radio starting at 9:30 p.m.

Southern Illinois University is trying very hard to get into the Missouri Valley Conference is the word coming out of Carbondale, Ill. Early in May, Southern Illinois will drop from the Illinois Inter-collegiate Athletic Conference and will remain independent until they decide if they will or won't be part of any conference. Their mediocre football and basketball program they must build up before they can be a threat in the Missouri Valley Conference.

Bearcat All-American baseball pitcher Bill Faust's picture is featured on the cover of this year's NCAA Baseball Guide.

Riflers Win, Prepare For Spring Tour

By winning the rifle match held at the University of Dayton last Saturday, the UC Rifle Team moved into first place in the league.

Since UC is in first place by some forty points, and the next and final match will be held in Cincinnati on March 17, the team confidently expects to win the league title again this year.

The team scores for last Saturday were Cincinnati 1356, Dayton, 1290; Ohio University, 1307, and Kentucky, 1248. The scoring for UC was led by Graeve, Gene Somerville, Brown, Neubauer, and Tom Auble. Twelve members of the University Rifle Team will go on the spring road trip, March 24.

The first stop on the trip will be in Chicago on Friday afternoon, where the team will fire against Loyola and DePaul.

The team then goes to South Bend, Ind., on Saturday morning, where Notre Dame and the Naval Academy teams will fire against UC.

Following the Notre Dame match, the team will board the bus and go to Ann Arbor, Mich., for the University of Michigan and Eastern Michigan.

Bearkittens Close Out Year Against Little Musketeers

by Joe Lyhik

With a three-game winning streak at stake the Bearkittens take on the Xavier Frosh at the Cincinnati Gardens tonight. The Frosh extended their record to 9-5 with wins over the Eastern Kentucky Frosh and Wright Patterson Air Force Base last week.

Coach John Powlow is looking for a real fine battle in tonight's game. "Xavier has a well-balanced attack, they hustle and scrap all the way. Also this is a close rivalry and records don't mean a thing whenever the Bearkittens play against the Junior Musketeers," said Powlow.

Ken Cunningham led the Fresh attack against Eastern Kentucky with 28 points. It was the best effort this year for the former East Liverpool, Ohio, guard. Gene Smith led the rebounders with 21, while Fritz Meyer collected 9 assists. Coach Powlow praised his team saying, "They did a real good job under tough playing conditions and it was a concentrated team effort that produced the win."

Wayne Morris led Eastern with 21 points. UC freshman Smith had 12, Konicky, and Meyer 30 points to pull four Bearkittens in double figures. Final score was 74-62, UC on top.

Last Saturday against a substitute squad from the Wright Patterson Air Force Base, the 'Kittens added their third win with a 79-57 defeat of the Airmen. Bliss College, scheduled opponent, could not appear.

The Bearkittens led all the way in the game and had leads of 14, 12, 10 and 5 during the length of the game. Their biggest burst did not come until the final period when the Airmen just ran out of gas. Coach Powlow played the entire team at almost equal time but put his starters back in when the Airmen got too close.

Bob Welch, Jack rabbit jumping forward, collected 14 points for his best night but placed second to Smith who had 15 tallies and 15 rebounds to load the attack. Meyer once again played his superb game with 12 points and 8 assists. Cunningham had 11 points to round out the double figure foursome.

The 'Kittens hit a blistering 49 per cent of their field goals while the Airmen could muster only 30 per cent in their effort. Hall and Scott had 11 and 9 rebounds respectively in the Airmen attack.

If the Kittens should win tonight they will finish the season with a 10-5 mark.

Lucky girl!

Next time one of her dates bring up the Schlegel-Holstein question, she'll really be ready for him.

Ready for that test tomorrow, too ... if that bottle of Coke keeps her as alert tonight as it does other people.

A man with Alopecia Universalis* doesn't need this deodorant

He could use a woman's roll-on with impunity. Mennen Spray was the man who won a deodorant he knows will get through to the skin ... where perspiration starts.

Mennen Spray Deodorant does just that. It gets through to the skin. And it works. All day. More men use Mennen Spray than any other deodorant. Have you tried it yet? 64¢ and 84¢ plus tax.

Wrestlers End Season On Winning Note; Shaut, Mahan Entered In Four-Tourney

by Jack Pierozzi

UC's wrestling team invaded South Bend, Ind., last Saturday, and defeated a strong Notre Dame squad by a close 14-13 margin.

The afternoon's events started off as Cincy forfeited the 123-pound class. Jerry Montopoli wrestled to a 5-0 exhibition victory in this class; however, five team points were still awarded to the Irish squad. Next in the 130-pound class, Paul Fleming drew with Dick Martin 3-2. Lou Thomas in the 137-pound class was the 'Cats first winner deciding Fred Morelli 6-4. Jim Gobertin in the 147-pound class beat John Barry on a decision 3-1.

At this point UC was behind in the team score 185-173, Jim Mahan, the first of three consecutive winners, defeated John Gibbons 5-4 in the 153-pound class. In the 167-pound class, Jeff scored two points in the final twenty seconds of the match, and defeated Ron Cabral 4-3. Next, Frank Shaut made twenty-four consecutive wins by defeating Leinhart 6-2. Gus Schmidt in the heavy-weight class lost a rough 6-3 decision to Ron Ruzkowski.

On March 9 and 10 Coach Glenn Sample plans to send 147-pounder Mahan and undefeated 177-pounder Shaut to the Four I wrestling tournament at Case Institute in Cleveland, March 22, 23, and 24. Coach Sample plans to send Shaut to the NCAA wrestling tournament at Stillwater, Okla.

Steve Weber of the Peace Corps goes high into the air in an attempt to block a shot by SAE's Dale Norris, Tom Morgan, Tod Ettol and Tom Kenney look on for the "Corps." (without shorts) while Dick Stanforth watches for SAE. SAE nipped the "Corps" 70-68.

SAE Grabs IM Cage Title; Squeaks By Peace Corps

SAE claimed its second consecutive IM basketball title Saturday, but had to stave off a fast half surge by a gallant Peace Corps quintet to salvage a narrow 76-68 verdict.

After jumping to an early advantage in the opening minutes SAE managed to maintain a safe cushion throughout the half and left at intermission with a 42-35 edge. The Peace Corps then staged its drive in the second half, closing the gap to a few points several times but could never quite catch up.

Facing the winner's attack was Dale Norris with 20 markers supported by Pete Dzikowsky's 18, the losses were spearheaded by Jerry Morgan with 18.

Interest now swings to bowling as keepers roll into action this Saturday at Frisco Lanes.

SAE claimed its second consecutive IM basketball title Saturday, but had to stave off a fast half surge by a gallant Peace Corps quintet to salvage a narrow 76-68 verdict.

4 MORE SPRITES TO GO!

If you didn't win in the Fall Sweepstakes, try again! And lots of luck. If you didn't even enter during the first half, start now! And lots of luck to you, too.

The rules are the same, but we'll give them to you again, fast!

1. Pick up an Official Registration Envelope. You'll find them all around campus and in your local smoke shop. Our Liggett & Myers campus reps have a supply.

2. Take the Sportscar Quiz printed on the Registration Envelope (it's easy). Sign, your name and address and mail it in — along with 5 bottom panels from 6 packs of Chesterfield, L&M or Oasis cigarettes (or send substitutes—see official rules on Registration Envelope).

3. If you pass the quiz, you'll receive a Grand Prix License Plate in the mail. Hang on to it, it may bear the winning serial number!

4. Enter as often as you like between now, and April 15th. — that's when the Sweepstakes officially closes. Winners get their new Sprites before school's out!

So enter often—and keep smoking Chesterfield, L&M's and Oasis cigarettes—they're in a class of their own!
Mermen Splash To 11-1 Mark; Drop Southern Illinois, Irish

by Bud McCarthy

Completing the regular season over the weekend, the Cincinnati swimming Bearcats raced to their tenth and eleventh wins against only one defeat with victories over Southern Illinois and Notre Dame.

"It was the greatest meet that we have ever swam," said coach Paul Hartlaub in referring to the 54-40 victory over Southern Illinois. Seven UC school records were set in avenging a defeat at the hands of Illinois last year.

Jim Norman and Joe Alkire each set two records and shared in another. Norman's records were in the 50- and 100-yard freestyles and Alkire's in the 200-yard freestyle and 200-yard backstroke.

Gerry Sapadin and captain Jim Marchetti teamed with Norman and Alkire for a new record in the 400-yard freestyle relay. Gary Heinrich and Bill Edwards were the other record breakers, taking the 200-yard individual medley and 200-yard breaststroke respectively.

Keith Dimond was only a tenth of a second behind Alkire in the backstroke and Bill Donohoo placed second in both the 220 and 440-yard freestyles. Marchetti was third in the 50 and 100-yard freestyles.

Heinrich was first in the 440-yard freestyle and second in the 220-yard butterfly with Pete Cardullias third. Ed Reck came in second in the 200-yard individual medley.

In beating Notre Dame 53-39, UC again established a new record. The 'Cats eased the pressure. The scoring was pretty even for Cincinnati, Heinrich and Alkire were first and second in the 220-yard freestyle. Cardullias and Sapadin were one, two in the 50-yard freestyle and Norman and Beck were one, two in the 100-yard individual medley.

Marchetti and Sapadin were one, two in the 100-yard freestyle and Bill Donohoo and Fred Teraux were second and third in the 440-yard freestyle.

Senior Keith Dimond appearing in his last dual, "We expect to rewrite the record book," relates coach Hartlaub.

Keith Dimond, senior, completed his varsity swimming career against Notre Dame Saturday. Dimond, who specializes in the backstroke and breaststroke, took first in both these 200-yard events against the Irish.

"He's done a great job, not only academically, but on the swimming team, also." This was the opinion expressed by swimming coach Paul Hartlaub of his senior swimmer, Keith Dimond.

Keith, a pre-med chemistry major, had a four-point last semester. Last year he was co-captain of the team. This year he inspires the younger members of the team by his all-around work, desire, experience and maturity.

Keith hails from Cincinnati and prepped at Woodward High where he started swimming. "I got started in Jr. High," he relates. "I just went out for the team and from then on channelled all my time into swimming." He has been swimming at UC for four years.

The high point of Dimond's swimming career came in his sophomore year at Cincy. UC topped the season that year by winning the Missouri Valley Conference swimming meet. During the meet, which was held in St. Louis, Keith set conference records in three events: his specialty, the 200-yard backstroke; the 100-yard butterfly and the 200-yard individual medley.

Commenting on Keith's progress as a swimmer, Hartlaub remarked, "When he came here, he started out with a 2:53 in the backstroke. The other day he did a 2:50.5." Looking back over it all, Keith expresses himself in the following way: "One of the biggest things I am going to miss when I graduate is working with the fellows. You are close to the guys on the team."
Quartetto Di Roma Appears
Sunday In Public Concert

Now on its third American tour, the internationally-famous Quartetto Di Roma will be presented by the University in a public subscription concert at 7:30 p.m., Sunday, March 4, in Wilson Auditorium.

The Quartetto di Roma is known for its exciting performance of the great literature written for chamber ensembles.

The program, representing French, Italian, and German chamber music, will include Debussy's "Piano Quartet in B-flat Major," opus 16; Giorgio Ghedini's "Quartet No. 1," and Gabriel Fauré's "Piano Quartet No. 1 in C minor," opus 75. Ghedini, the only contemporary composer among the group, was born in 1902 and wrote this quartet in 1918.

With tickets priced at 50 cents for students and 95 cents for non-students, orders are being filled through the Union desk.

With the exception of the violinist, the Rome quartet has the same personnel as the group which appeared at the University in 1950.

Ofelia Santodiligtu is considered today's leading Italian woman cellist and is a member of the faculty of the St. Cecilia Conservatory in Rome and has appeared in solos with the most famous conductors in Europe and North and South America.

Arrigo Poliellina, violonist, received his diploma at the conservatory in Bologna, studied in Rome and Berlin, and played in the first European performance of Schoenberg's violin concerto in 1940. In Venice,

Franco Antonini, who has been the principal of the Conservatorio Piccinni in Bari, and Massimo Ambrosio, has won acclaim as a solo cellist with the famous Virtuosi di Roma. His tours with Mme. Santodiligtu are the Duò di Roma.

Better Dress For UC Women Urged

Recently the standards committee of the Association of Women Students circulated a questionnaire among students regarding 100 dress standards for women students on the campus. Twenty faculty members chosen at random were polled; 15 returned their comments. From Arts and Sciences: "Skirts for girls, slacks, not shorts.

Black for men and women."

From the department of Education concerning ways to improve the standards of dress: "1. Set a good example. 2. Say what is expected but don't make a fuss about it. 3. Let students know appearance is important."

When asked about appropriate dress, in the classroom, the Nursing and Health Tribunal replied: "Slacks and t-shirts—no slacks or bermudas."

When asked about appropriate dress in the American business, the⟦Paragraph break⟧

Mummers To Give Annual Kids Show

Each year in February the Mummers Guild ventures into a project which is the most gratifying and satisfying of the entire year's work. Next week they will perform eight times for the children of Cincinnati.

Each year the Children's Theatre organization puts on three plays. One of these is done by the Mummers Guild. This year's show will be "Yankee Doodle Andy." The story is about a boy Tom O'Neill, who uses his father's time machine to go back to the time of George Washington and Paul Revere's Ride. With the use of his Boy Scout knowledge he saves the day by making Paul's ride possible as he foil the arch-villain Benjamin Blackworth, who will be played by Dick Vondrahe. The other villainous characters are played by Ray Greumering and Fred Reinhart, kings men.

The most humorous character of the show will be the Indian ally of Andy and Paul, Warwatah, portrayed by Marcia Lewis. Margaret Page Tydings will play Paul Revere. Lee Roy Reams will play other allied force, the nephew of Samuel Adams. Paul Revere will be played by Joe Zims.

The show will take place at EMery Auditorium March 6 through March 25. It is made up of six plays of music which will give us practically the whole work of a major NBC program. The director, Paul Rutledge, will make a brief appearance in the play as Andy's scientific father.

Jazz Festival

Eleven programs will make up the First International Jazz Festival, Washington, D. C., to be held in the Nation's capital May 31 through June 3 under the sponsorship of the President's Music Committee.

This will include eight concerts exploring various facets of jazz; a specially planned exhibit and a Jazz-Art film documentation of an illustrated lecture on the history of jazz.

In announcing the schedule, Mrs. Joseph Shure, Chairman of the President's Music Committee, added that all revenues from the Festival will be used to further the Committee's contacts with people in 101 foreign countries.

Many types of percussion instruments will be created and supervised by Lee Recker, outstanding balle dancer and choreographer who has just returned to New York from the Scala Opera in Milan. Mrs. Recker will create a new work for this performance with music commissioned by BMI.

We are currently negotiating for the appearance of the best-known groups who have won acclaim in our country; these include the Shure band, said in announcing the schedule. "Among these are Louis Armstrong, Duke Ellington, Count Basie, Lionel Hampton, Chris Barber and his English Sextet, and Max Roach's group. Members of our Embassy staff in Paris and London are financing the appearance of the outstanding Polish Quartet. Jazz greats have been invited also from France, Germany, Sweden and Belgium.

President John F. Kennedy is Honorary Chairman of the People-to-People Program, former President Dwight D. Eisenhower is Chairman of the Board of Trustees, and Mr. John C. Hall is Chairman of the Executive Committee.

On the Festival Planning Committee which has worked with Mrs. Shure is Mrs. Arthur Avakian, John Hammond, Russell Sorkin, Neshui Atkinson, Allan Merton and Gunther Schuller. Mrs. Richard E. Bell, the Library Director, is Washington Arrangements Committee.

Inquiries may be addressed to International Jazz Festival, 1966 Festival Street, N. W., Washington 6, D. C.

Chamber Music Presented At Taft Museum

Miss Katherine Hanna, director of Taft Museum, invites UC students to another unusual program of chamber music scheduled for 3 p.m. Sunday, March 4, as the sixth in this season's Taft Museum Chamber Music Series. Edward B. Wuebker, Jr. has assembled the Cincinnati Percussion Ensemble with six members of the percussion department at the University of Cincinnati. The ensemble will play pieces by such as the most famous composers.

The concert at Taft Museum is sponsored by the museum and the Cincinnati Musicians' Association with grants from the Recording Industries Trust Funds.

Members of the ensemble are: Glenn Atkinson, coach of the SGA, Martin McT intrusion, Philip Binkley, Steve Strider, all College students. William Platt, of Milford high school; and Edwin Vollmer, teacher in the Carlisle junior high school, Covington.

All contemporary pieces, the program follows: Prelude for Percussion, Malloy Miller; Night Rain, Karen Foster; Rock Star, Robert Starer; Percussion Music, Michael Collgraff; October Mountain for Percussion Sextet, Alan Hovhaness; Toecats for Percussion Sextet, Robert Starer; With A Feeling by Carlos Chavez, Mexico's foremost composer and music educator.

Many types of percussion instruments are used to show the wide variety of sounds that can be achieved without the usual melodic instruments. Loudness is not necessarily a factor; the music can be loud, soft, refined, coarse, or colorless.

African Expert Presents Series On Television

African expert Dr. James H. Vanderslice, professor of sociology in UC's McMicken College of Arts and Sciences, will present a series of programs on television under the title "Understanding Africa." The series scheduled to begin on March 15, 1966, at 7 p.m., features Dr. Vanderslice who will present information on various aspects of Africa and its cultures.

African Expert Presents Series On Television

University of Cincinnati students invited by the UC President's Club to lend a hand to the club's annual scholarship card party. The event was designed to bring the students together to help support the college. The card party is to be held Saturday at 5 p.m., March 17 from 1 to 5 p.m. Mrs. Brengelman, special prices chairman, located at the Union, 3343 Calhoun Street.

Preceding the UC President's Club's annual scholarship card party, petitions are being solicited through the college and are donated to UC scholarship funds.

A variety of cards will be sold, and games will also be among the attractions.

Debaters Win Tournament; Post First '62 Victory

The University of Cincinnati Debate Team won its first tournament of the year last Saturday at Berea, Kentucky. After finishing second twice and third once in previous tournaments, the team put together a 5-1 record to beat out Kentucky and Bellarmine, two of the best teams in the Midwest.

Linda Schaffer and Mark Greenberger, debating on the negative, won the elimination. These two, who will represent UC in the West Point Regional in three weeks, have now won five out of their last six. Marjorie Lominski and Ron Hanberg, debating on the affirmative, lost their first debate to Eastern Kentucky, but were back to their last two. Although Lominski and Hanberg were not so fresh, they have now won fourteen of their last seventeen debates against both novice and varsity competition. Ron Hanberg was acclaimed the outstanding debater in the tournament.

According to Mr. Rudolph Ver- derber, director of forensics, even though only six teams were entered into the division, the victory was especially satisfying because of the way in which it was done. The pre-tournament favorite was Kentucky, a team that placed second overall at the National Regional at Alabama held at UC in November, as well as numerous other tournaments throughout the year. The problem of meeting Kentucky on both rounds made it extremely difficult. Both teams were entered into the tournament as well as all of the other teams from the entire Mid- west in this very important tournament at Ohio State. Since it will be a two-man tournament, the Lominski - Schaffer-Mark Greenberger units will enter as separate teams and will debate both sides of the question. According to the team's foremen, the labor organization for the question of antitrust legislation. There is a grammar Schools League elimination debate, after which the top eight teams will compete in a three round elimination series.

Air Force Technicians Keep Missiles Flying

It's the trouble shooting, problem solving technicians who keep the United States Air Force planes and missiles in shape. Now just to train top-flight technicians for that important job has been the object of a three year research project at the University of Cincinnati.

The Air Force department of psychology has been conducting the studies.

Dr. Alfred Kristofferson, UC associate professor of psychology and project director, reports that the initial round of experiments is complete and the data obtained from them are being analyzed and interpreted.

"At this point we know that in certain kinds of trouble-shooting, practice over a long period of time makes a big difference. Some people are clearly superior and others are not good at all. General intellectual ability is important," Dr. Kristofferson noted.

Since most boys who enter the Air Force lack technical training, students who have no technical background were chosen to participate in the carefully worked out experiments.

Three machines made at the University with the help of the departments of civil engineering and mechanical engineering are used to find out how students learn technical operations and how good they are at discovering the trouble when something goes wrong.

First the student learns how the machine works when everything is operating properly. Each machine is rigged so that the turn of a screw, the move of a lever or other device will cause it to malfunction in much the same way dirty spark plugs or an improperly adjusted carburetor cause your car to run poorly.

The problem for the student under test is to find out what's wrong. By recording the false starts which are made, the correct steps taken by the student, and the speed with which he finds the trouble, the basic data are obtained.

The three machines are completely different in appearance. One set-up is electronic, one mechanical, and the third hydraulic.

Besides the practical work of trouble-shooting the machines, abstract problems requiring logical solution are given the student. This rounds out the whole experiment by supplementing the practical work.

"Out of this method is coming more than just information that will enable us to find the best method of teaching technicians," emphasized Dr. Kristofferson.

"We now have much valuable data about the way people think and the way they solve problems and we can apply this to a very wide variety of situations. In other words, we have learned much about general human thought processes."

"This is not the end of the study by any means. We are continuing our studies in this general area through ten different experiments, exploring phenomena such as memory and problem solving. This work is being done under a new Air Force contract with the same group."

This research has been initiated and supported by the Training Research Branch, Behavioral Sciences Laboratory, Aerospace Medical Research Laboratories, at Wright-Patterson Air Force Base, Ohio.

The annual funding for this research is approximately $50,000. The new contract has been written recently for a similar amount.

What would YOU do as an engineer at Pratt & Whitney Aircraft?

Regardless of your specialty, you would work in a favorable engineering atmosphere.

Back in 1925, when Pratt & Whitney Aircraft was designing and developing the first of its family of history-making propellers, an attitude was born—a recognition that engineering excellence was the key to success.

That attitude, that recognition of the prime importance of technical superiority is still predominant at P&W今天.

The field, of course, is broader now, the challenge greater. No longer are the company's requirements confined to graduates with degrees in mechanical and aeronautical engineering. Pratt & Whitney Aircraft today is concerned with the development of all forms of flight propulsion systems for the supersonic medium—air breathing, rocket, nuclear and other advanced types. Some are entirely new in concept. To carry out analytical, design, experimental or materials engineering assignments, men with degrees in mechanico-aeonautical, electrical, chemical and rocket engineering are needed, along with those holding degrees in physics, chemistry and metallurgy.

Specifically, what would you do?—not even engineering talent provides the atmosphere in which that talent can flourish.

Dear Bullwinkle:

Enclosed is $1,000 to show my appreciation for your fine column. I hope that every reader will do likewise and open their hearts to such a wonderful contribution to American culture. What do you plan to do with the money?

Generous Reader,

Bullwinkle

Dear Generous Reader:

I believe in investing in American business. Obviously, hardware is a good business in your city or you wouldn't have been able to send the money. I am opening up across the street.

Bullwinkle

Dear Bullwinkle:

We dress our little Rodney in a little Uncle Sam uniform every day for school. He's 11 now and just as cute as a bug as he leaves each morning in those little stripes. What kind of an adult will this make him?

Adoring Mom

Dear Bullwinkle:

Just as cute, and in big stripes! His stripe is good business in your city or you wouldn't have been.

Bullwinkle

Dear Bullwinkle:

I am a matador that turned chicken. I'm afraid of bulls, but I hope the most dangerous fight of my life this Sunday. What do you suppose has gotten into me?

Pedro Gonzalez Matosa

Dear Pedro:

Nothing yet, but wait till Sunday.

Bullwinkle

Bullwinkle Receives $1,000

Dear Bullwinkle:

Last night, I forgot myself and stripped on the runway at our PTX meeting when I heard some music. Do you think this will embarrass my child when he hears about it from the other children?

Mom With A Past

Dear Bullwinkle:

Possibly, but he can make a new life for himself in Tibet. Consider it just one of those little things that happen.

Bullwinkle

Dear Bullwinkle:

We think Lawrence Welk is the sex symbol of our times. Our whole family adores him. What do you think?

Welk Crazy

Dear Welk Crazy:

I think some biphonate of soda might help his bubble problem.

Bullwinkle

Dear Bullwinkle:

I am a matador that has turned chicken. I'm afraid of bulls, but I hope the most dangerous fight of my life this Sunday. What do you suppose has gotten into me?

Pedro Gonzalez Matosa

Dear Pedro:

Nothing yet, but wait till Sunday.

English Club Hosts Press, Elliston Poet

The English Club will present an informal evening with John Press, the 1962 Elliston Poet, on Sunday evening, March 31.

This will be the only opportunity for students to meet John Press and discuss topics that might be of interest. The meeting will be at 7:30 p.m. at the Beta Theta Pi Fraternity House.

The meeting is not limited to English majors. However, students must inform the English Club of their desire to attend.

There will be a small fee of $5.00 to cover the cost of refreshments. The fee plus reservations should be turned into the English department office in 218 McGilvrae by Thursday, March 28. All reservations should be addressed to the treasurer of the English Club, Paul Meyer.
UCCEP Announces Marriage Seminars

The Reverend Donald McCarthy, director of the Newman Club, announced that UCCEP, University of Cincinnati Catholic Education Program, will sponsor a series of conferences during the next seven week period.

The first is a five week Pre-Conference, or pre-marriage seminar, four of which will be led by Dr. and Mrs. Jack Willke. The fifth of which will be led by Dr. and Mrs. Jack Willke, a Doctor of Medicine from the University of Cincinnati Medical school and has been sponsored by Dr. and Mrs. Jack Willke. The seminar, four of which will be held by Dr. and Mrs. Jack Willke, a Doctor of Medicine from the University of Cincinnati Medical school and has been sponsored by Dr. and Mrs. Jack Willke.

The conferences will meet on Thursday at 1:10 in room 305 of the Union: Dr. Willke's four topics are: March 15, "Choosing Your Partner"; March 22, "How to be Happy Though Married"; March 29, "Birth Control"; and April 5, "Parenthood."

During the semester period, a second series of lectures will be given by Frs. James Kluewiter, Gile Pater, and Donald McCarthy at 4 on Monday, March 5 and Tuesday, March 6. The topics of these programs will be: "Issues from American Morality," "Pro-destination and Free Will," and "Socialism and Catholic Social Thought." A complete schedule of New- man Club events can be received on request by calling the Newman Club at UN 1-1224.

Saturday, Feb. 17, 1962, from 9:30 a.m. to 11:30 p.m. at St. Edmonds Camp, was the site of Angel Flight's Retreat and Initiation. The morning was spent in drill practice under the direction of Cadet Second Lt. David Marshall in preparation for the Drill Meet that Angel Flight is sponsoring here at UC on May 5.

During the afternoon, the Angels discussed their forthcoming Angel Flight Program which is an endeavor to educate college men and women about life in the Air Force. The first Jet Jenny Program, the evening of March 12, has as its theme, "Occupations in the Air Force (for men)." The second Jet Jenny Program, April 5, concerns "Air Force Wives."

The climax of the day's activities come with the initiation banquet. Visiting dignitaries were Col. George W. Gregg, who spoke on a future officer training program, the AFROTC Detachment, officers, their wives, and the University Cadet Col. Julie Shinkle.
