University Sponsors Migration

The University will sponsor a train migration to Evansville, Ind., next Monday for the play-off game between the Bearcats and Bradley. $2.26 will be the student price for a package which will include the game ticket, train ticket, bus transportation from the University to Union terminal, and from the Union terminal, to a hotel, a hotel room, and a box lunch on the train.

These tickets are on sale in Room 216 of the Student Union on Wednesday and Thursday from 8:30 to 5:30. These students who wish to buy tickets for the game but not for the migration itself will not be able to get game tickets until Friday if any are left.

Spirit Club is sponsoring the migration. They will sell the tickets with the cooperation of Student Council.

Buses will leave the University for Union Terminal at 12:30 p.m. Monday and will arrive back at approximately 6:30 a.m. Tuesday.

A train was decided upon for transportation because it will keep the group together and will make it easier to build spirit. The advantages of the migration as opposed to individual cars are that everyone will be in one group, there are no driving problems, migration tickets will be sold before individual tickets, it is University sponsored, and spirit can be more easily built.

Booster will also be able to take advantage of the package deal. Due to the increase in game ticket price, their package will cost $12.50. This includes the same things as the student tickets with the exception of bus fare from U. C. to Union Terminal.

Alumni interested in buying tickets can get them at the Alumni Office or at Pogue's Travel Bureau.

Student regulations for this trip will be the same as those at any other University function. Students will be expected to follow the rules of good taste and sportsmanship. They are also asked that no liquor be brought. The University assumes no liability for injury incurred while a student is on the migration.

6 Engineering Students
On Man-In-Space Test
by Smed Rock

Somewhere in Cincinnati, U. C.'s part in the work on the man-in-space project is taking place. On the 27th of February, six engineering students from the University of Cincinnati started a 28-day isolation test. There are two teams of three men who are taking part in the experiments being conducted by the UC psychology department, under the sponsorship of the United States Air Force.

The test subjects, whose names will remain undisclosed, were picked from over four hundred applicants. The six students are the first of a total of 24 who will take part in the project. Most of the screening of applicants has been done by Dr. Norman Paris of the University's Center for Human Research. The Center. Subjects were picked partly on the probability of their being able to put up with one another for a month in close, constant contact.

Dr. Alfred B. Kristofferson and Dr. J. Joel Seierer, from the UC psychology department, are co-investigators on the project. Dr. Seierer described the test site as consisting of two rooms, about ten feet square. The rooms contain: three men, a triple deck bunk arrangement, a simulated flight control panel, chairs, a radio, and food preparation.

The experimenters are able to observe the test subjects through one-way glass.

There is no visual contact with the outside, although the experimenters may observe the subjects through one-way glass.

The advantages of the man-in-space experiments being done by Dr. Norman Paris and his six students is that, wasn't already supplied to them, the only thing that they asked for was a clock and a clock and a clock. That was supplied them before they went in. They get their daily mail, a daily record, and ten minutes telephone time per week.

The test subjects are paid $700, for their 28-day tour of duty. The figures cut out 1,041 dollars per hour, 24 hours a day.

Four Students Caught Stealing From Bookstore

Last week there were four people caught attempting to steal from the bookstore. Though the names of these people aren't being disclosed they now have a permanent mark on their college record, a mark that could work its way into any of their future employers who might want to know.

The policy of the administration regarding persons caught in the act of shoplifting. After Captain Martin, director of the bookstore, sends their names to the University, the student may be suspended with the right to return. If it is repeated the student may be suspended permanently.

Detectives are employed from time to time to be on duty to shoplifters. This policy was established last year for the first time, and costs the university a considerable amount of money which could be used in more constructive channels, according to Captain Martin.

What type of student does these detectives apprehend? All types. Some of the thieves are married, some single, some fraternity, some independents, some scholastically poor, others high ranking in their class. Everyone who is apprehended, predominantly males, say that this is the first time they ever stole anything. If they convince the detectives that they intended to put for the article they over being put on disciplinary probation. The average person doesn't stop to think about it, he will have to explain this probation if he goes to another school or seeks employment where his past will be checked.

Martin explained the strict enforcement of the rule that all books and personal articles must be kept out of the bookstore proper.

Mortar Board Taps Tuesday

UC's Mystic Thirteen chapter of Mortar Board will hold their annual tapping on Tuesday, March 13, at 12:15 p.m. in the Union's Great Hall. Prior to tapping the black hooded and robed Mortar Boarders will weave their way across campus, chanting their mystic sung.

Kampus King Dance
This Saturday, March 9

"A World Cruise" is the theme of the Kampus King Dance. The dance will take place from 9 p.m. to 1 a.m. Friday at the Topper Club.

Dress will be semi-formal; however, due to the fact that it is a formal ball, the girls were those on the dates of their dates with corsages. Senior's Band will provide the music.

Tickets are available only to girls only by the Grill only on Thursday from noon to 2 p.m. Friday from 11 a.m. until 1 p.m. and Saturday at the dance.

The Kampus King Dance is the biggest money-making project on campus. Proceeds are divided equally among WUS, the Campus Scholarship Fund, and various charities.

The Kampus King Dance festivities began last Thursday with a send-off of the Peppermint Lounge for all the candidates. The big men are competing: Bill Freeman, Alpha Tau Omega; George McPeak, Arcacia; Larry Shingleton, Beta Theta Pi; Larry Goodridge, Delta Tau Delta; Phil Davis, Men's Dormitory; Tony Thompson, Phi Delta Theta; Tom Devaney, Phi Kappa Tau; Jerry Martin, Phi Kappa Theta; Elliott Sharpe, Pi Lambda Phi; Jim Siler, Sigma Alpha Epil- silon; Paul Cholak, Sigma Alpha Mu; Pat McCarty, Sigma Phi Epsilon; and John Deaconseh, Theta Chi.

Devotee Of Bullwinkle Proposes Fatherhood

Dear Bullwinkle:

I've never missed one of your shows or failed to read out your columns. It seems as though every thing I would have loved to happen in a son of my own. So consider me your father and ask to be anything you want.

Dad

Dear Dad:

An orphan.

Bullwinkle

Dear Bullwinkle:

Through my service at the Veteran's Administration, I have been going to school on the GI Bill for over 16 years now. My mom says I should write to them about it, but I just can't. What do you think?

Dear Vet

I think that in 16 years you should have learned to write.

Bullwinkle

Dear Bullwinkle:

Every drop over a gallon of muscatel wine. It's destroying me and I can't stop. Help me! Please! What should I try in order to stop drinking that gallon of muscatel wine?

Desperate

Bullwinkle

Dear Bullwinkle:

I have a 6 foot python snake as a pet, capable of eating a full grown man! My six friends now insist that I get rid of it immediately. What do you think?

Pet Lover

Dear Pet Lover:

To give you a just answer, I would have killed those friends you had before you got the snake.

Bullwinkle

T. J. Anderson, Birch Councilman To Speak At Taft

Thomas J. Anderson, Publisher of Farm and Ranch Magazine and a member of the Council of the John Birch Society, will be the featured speaker at a program sponsored by the Greater Cincinnati area chapters of the John Birch Society, at Taft Theatre today.

The program, open to the public, will begin at 8 p.m. Admission will be limited to those who contribute $1 to the Society, or in whose behalf $1 is contributed. The program will deal with an evaluation of the United Nations and other current problems.

Tickets can be obtained now from members of the Society, or from William Flix, 606 Walnut St., Cincinnati 2, Ohio, or at the door.

A rapidly-spreading idea to raise "dollars for scholars" is offering American communities a new approach to the problem of providing scholarships for deserving students. In an article in the March Reader's Digest, Dr. Irving A. Fradkin, a Fall River, Mass., optometrist, concerned because lack of finances was keeping many bright youngsters out of college, Dr. Fradkin in 1954 conceived a simple Fall River leaders to launch a community scholarship drive.

Contributions came from sales of such dollars as "memorial" gifts, from religion, civic and business groups and from working men and students. $5000 was collected and awarded to 24 outstanding high school seniors.

Typical Citizens' Scholarship Foundation grants are small, but they are designed to help a student get established rather than to pay his full expenses. The success of the Fall River program has led to other communities. Dr. Fradkin estimates that by next June there will be more than 100 CSF chapters in 30 states, awarding more than $750,000. All CSF scholarships are need-based gifts, although recipients are encouraged to repay the funds if and when they can.

United We Stand

The entire academic world is agog over the success of the Associated Colleges Plan—ACP, for short. I mean, you go to any campus in the country these days and you will see students and faculty dancing on the green, blowing party whistles, grabbing each other by the elbows and yelling, "About that ACP, Chuxley—how's it going?"

And who can blame them? The ACP is a plan not only simply brilliant, but also brilliantly simple. All it is, is a loose regional federation of small colleges. Let's say, for example, that a good man named Bill is a student at Dartmouth. He is happy with his own academic specialty. Small College No. 1, let's say, has a fine language department; Small College No. 2, let's say, has a fine social science department; Small College No. 3, let's say, has a fine math department.

Well sir, under the ACP these various college federates. A student in any one of the colleges can take courses in the specialty of any of the other colleges. Or—here's the beauty part—he will receive credit for the course at his home college. Thus he enjoys all the advantages of a big university without losing the cozy smallness of a small college!

Will sir, you can see what a good idea the ACP is. I respectfully submit, however, that just because a thing is good is no reason not to try to make it better. Like, for instance, Marlboro Cigarettes. Marlboro were good from the very beginning, and people found them cut quickly and saleable. But did the makers of Marlboro say, "Oyoy! we've got it made. Let's relax?" Well sir, if that's what you think, you don't know the makers! They did not relax. They took their good Marlboro and kept improving it. They improved the filter, improved the blend, improved the pack. They researched and developed endlessly, until today Marlboro is the most advertised cigarette in America. People can put a match to. There are, in fact, some people who find Marlboros so admirable they can't even put a match to them. They just sit and admire the cigarettes. But did the makers of Marlboro figure it for ten, twelve years on end. The makers of Marlboro are of course deeply touched by this—except for E. fringe Sigfield, the sales chief. But I digress. The ACP, T, is good but it can be better. Why should the plan be confined to small colleges? Why should it be limited to a loose federation? Why should it not be federate. A

I admit there are still a few bugs in BACTERIA. How, for instance, could Hunrath, son, of the Marlboro sales manager). Hunrath, lad, is currently majoring in burley at the University of Kentucky. The program open to the public, will begin at 8 p.m. Admission will be limited to those who contribute $1 to the Society, or in whose behalf $1 is contributed. The program will deal with an evaluation of the United Nations and other current problems. Tickets can be obtained now from members of the Society, or from William Flix, 606 Walnut St., Cincinnati 2, Ohio, or at the door.

The contribution will be expressed at the March faculty meeting.

Dave Graham, Interfraternity Council president and speaking spokesman for the group, said that they were about the only school in the nation that has to meet the all campus average. Graham contends that other groups such as the YMCA should be required to make the all campus standing if fraternities must.

If the faculty reverses its decision and decides to revert to the three hour maximum, at least one of the greek organizations will be off probation.

Jones Contest
Ends March 23

All students interested in entering the Jones Senior Oratory Contest should have the speech prepared by March 23. The Jones Prize Oratory Contest for Seniors, founded by Frank M. Jones in 1892 and 1901, is open to all seniors regularly enrolled in one of the schools or colleges of the University. The first prize winner will receive $100.00 in cash and the second prize winner will receive $50.00 in cash.

The entrants are asked to submit a written oration no later than Friday, March 23, to the Speech Office, 241 McMicken Hall. This oration should be an elaborate and dignified persuasive speech not exceeding ten minutes when read. From the submitted manuscripts, the best four or five orations will be selected and will be presented orally. The entrant may select an aspect of any general topic listed below. Other subjects may be added to the list with the approval of Mr. Verderber, Mr. Bryan, Mr. Jisha, or Mrs. Caldwell. The subjects are: Nationalism in the Near East, Emerging Africa, Satellites and the Space Age, Foreign Aid, National Defense, Consumer Market, Inflation, TV Advertising, The People's Republic of China, Nuremberg, Automation, Juvenile Delinquency, Labor Relations, Agriculture, Extremist Political Organizations, Education, Science, and Economics.

Prize winners will be chosen from those orations presented orally. To insure objectivity of judging, each manuscript must be typewritten, signed with a pen name, and include a sealed envelope containing the pen name and the real name of the writer. The entrant may select an aspect of any general topic listed below. Other subjects may be added to the list with the approval of Mr. Verderber, Mr. Bryan, Mr. Jisha, or Mrs. Caldwell. The subjects are: Nationalism in the Near East, Emerging Africa, Satellites and the Space Age, Foreign Aid, National Defense, Consumer Market, Inflation, TV Advertising, The People's Republic of China, Nuremberg, Automation, Juvenile Delinquency, Labor Relations, Agriculture, Extremist Political Organizations, Education, Science, and Economics. The entrant may select an aspect of any general topic listed below. Other subjects may be added to the list with the approval of Mr. Verderber, Mr. Bryan, Mr. Jisha, or Mrs. Caldwell. Making molecules run races isn't just a stunt for Dr. Joseph Todd, assistant professor of chemistry in the UC's McMicken College of Arts and Sciences. It is a bona fide basic research operation carried out with the aid of a new Time of Flight Mass Spectrometer. Dr. Todd can identify each molecule in a substance by timing its speed through the evacuated tube shown on top of the apparatus. The $47,000 spectrometer, custom-built for the UC by Bendix Corp. under a special equipment grant from the government's Advance Research Projects Agency, will be used in Dr. Todd's studies of isotopes and the bonds which hold molecules and atoms.

Jet Jenny Discussions
Upcoming This Mon.

On March 12, Hap Arnold Angel Flight will begin a series of three Air Force educational programs, termed as its Jet Jenny operation. Providing such informative sessions about the Air Force for the women of UC is one of Angel Flight's main purposes.

Representatives from UC Angel Flight and Hap Arnold Air Society were present at their area conclave the weekend of March 8-9, at Lockbourne Air Force Base, Columbus. Meetings and discussions were held at the Officers Club. It was decided that the new Angel Flight area headquarters for the forthcoming two years will be held here at UC. Arnold Air Society area headquarters will remain at Ohio State University. The evening's activities included a cocktail party, formal banquet, and dance.

Among the people attending the conclave were Commanders Shirley Rothaus and William Starr, Sue Amsworth, Carole Brown, Shirley Comerick, Edna Mens, Lynn Piersiek, Claudette Raybould, Maureen Sullivan, Bill Bledsoe, and John Norton. Col. George W. Gregg, Professor of Air Science, and other AFROTC detachment officers were also present.

Several weeks ago the News Record ran a questionnaire concerning Homecoming and requested that students fill out a coupon indicating their view and drop it in a box at the Union Desk. The idea of the questionnaire was to give the Homecoming Committee some idea of what you, the student, wanted.

Less than two dozen replies were received, (not counting the block that Acacia fraternity handed in urging everybody to support the Acacia dance). This is a pretty fair indication that at least for the head of the Oregon John Birch Society.

Although we are not necessarily defending Gus Hall, we do feel that this is a perfect example of an effective and mature speaking program. It illustrates the point that college speeches are considered, at least in Oregon, to be mature enough to digest opposing points of view, without becoming, so to speak, corrupted. It defies those people who unjustly discriminate against people who are not in agreement with others.

It is a part of the educational process to be exposed to different points of view and what better way is there than getting these points of view straight from the horse's mouth? Certainly what we learn in college is of no value unless we can use it to critically analyze what we hear and distinguish what we feel is right from what we feel is wrong. I think the criticism of controversy for controversy's sake are invalid because it is only through controversy that we gain enlightenment.

In spite of this, UC has no organized speaking program. Some of the organizations do bring outstanding speakers to the University but their presence is usually unknown to the majority of the campus. About the only eminents that have addressed large audiences in the last year or so have been Senator Goldwater and the President for us, President election are only held every four years.

Some of the organizations do bring outstanding speakers to have addressed large audiences in the last year or so have been Margaret Mead, whose books about Samoa have brought her international fame as an anthropologist; Justice tansey, will head the conference, Emilie Bidlingmeyer, and JOHNSON.

The University “Y” will sponsor its second annual Student-Faculty Conference this year on April 18-19, at 1:00. The purpose of this conference is to foster better communications between the student body and faculty members through discussion of matters of concern to both. This year’s panel, consisting of Dr. Campbell Crockett, Dean of the Graduate School; Gene Lewis, professor of history, Enid M. B. Lash, professor of English; and E. M. Toney, will head the conference, which is based on the work of the conference. HENRY W. "Ethics in a Free Society." The conference will begin at 10 a.m. on both days with plenary addresses. Following the plenary addresses, participants will break into smaller groups for discussion on the same topics. The exhibit will be open week days from 11 a.m. to 5 p.m., Saturdays from 9 a.m. to 12 noon. It will be closed Sundays.

The University of Cincinnati will sponsor its annual Student-Faculty Conference this year on April 18-19, at 1:00. The purpose of this conference is to foster better communications between the student body and faculty members through discussion of matters of concern to both. Student-Faculty Conference At YMCA

The exhibit will be open week days from 11 a.m. to 5 p.m., Saturdays from 9 a.m. to 12 noon. It will be closed Sundays. March 23-25, the conference concludes. The University “Y” is open during the Christmas season.

U.S. Spending Exceeds Total Soviet Output

Government spending in the United States has grown so vast that in certain periods, it would be sufficient to buy up everything that Soviet Russia produces in one year. The United States currently finances the Russian armed forces and equipment according to the Chamber of Commerce of the U.S.A.

In 1960, federal, state, and local governments in this country spent $100 billion, which is the federal government alone accounted for.

The $190 billion total equalled 90 per cent of the value of all the $200 billion Western Europe produced in all of Russia last year (the Russian Gross National Product). The large size of government spending in this country is not generally natural.

The children drift into a maze of TV, comic books and other such hankers, which is based on the work of the conference. HENRY W. "Ethics in a Free Society." The conference will begin at 10 a.m. on both days with plenary addresses. Following the plenary addresses, participants will break into smaller groups for discussion on the same topics. The exhibit will be open week days from 11 a.m. to 5 p.m., Saturdays from 9 a.m. to 12 noon. It will be closed Sundays.

New UC Study To Begin

Intensive studies of man's illnesses will be conducted with patient volunteers in a small patient-centered research unit opening in a few months at the UC Medical Center.

Dr. Clement F. St. John, UC vice president and Medical Center director, and Dr. Stanley E. Duret, dean of UC's College of Medicine, announced that the National Institutes of Health have awarded the college a seven-year grant to establish a General Clinical Research Center here.

An initial payment of $110,000 to defray part of the costs of the first year has already been awarded UC.

The ultimate amount of the award has not been determined, though it will probably be between one and two million dollars.

The UC center will start with a four-bed unit in Building N at Cincinnati General Hospital (teaching hospital in UC's Medical Center). It will expand eventually to a 20-bed unit, a small research hospital complete in itself.

This will be located in General's new hospital, now in the planning stage. Cincinnati General Hospital was transferred this year from City to University administration. Its current $7 million building program was approved by Cincinnati voters in 1960.

Dr. Harvey C. Knowles Jr., UC professor of medicine and director of the University's Metabolism Laboratory at General Hospital since its establishment in 1953, will be principal investigator with administrative responsibility for the center.

One of the greatest advantages in such a center, Dr. Knowles pointed out, will be the opportunity for many departments of the medical college to participate in the co-ordinated research program.

This is the second large NIH research center established at UC's College of Medicine and Cincinnati General Hospital recently, both directly administered by faculty members in the department of medicine. Dr. Richard W. Vilter is department director. Dr. Noble O. Fowler, UC associate professor of medicine, was named principal investigator for a seven-year grant totaling $1,264,300 for heart research.

Both grants support research expenses but cannot be used specifically for teaching expenses, Dr. St. John emphasized. However, graduate and undergraduate research fellows will work in the unit, interns, residents, nurses, and dietitians will have contact with it, and its impact on health, science, education, and patient care will be most beneficial, he feels.

Dr. Knowles already has a long list of studies planned by various departments of the College of Medicine for the new unit.

These include work in mineral metabolism, particularly on effects of endocrine gland disorders on mineral metabolism; diabetes and carbohydrate metabolism; lipid (fat) chemistry and its relationship to hardening of the arteries; nutrition and nutritional aspects of blood disorders; effects of body metabolism of X-ray radiation; connective tissue diseases; thyroid physiology; emotional effects of certain disorders; and actions of drugs potentially helpful in treating cardiac illnesses.

"The four-bed unit opening in a few months will have its own special dietary section, nursing staff, and probably one central support laboratory," Dr. Knowles explained. Other research laboratories will be developed later.

"This is only the first step in the development of a research unit which we hope to have in the hospital building when it is built; it will really be a small research hospital complete within itself, where patients will be admitted on a voluntary basis by different departments for study and treatment," he said.

Cincinnati General Hospital will be reimbursed by funds from the grant for expenses in hospitalizing the patients who volunteer for the research unit, according to Henry N. Hooper, hospital superintendent.

Delta Sigma Pi Has New Queen

On March 3 Delta Sigma Pi held its annual "Queen of Delta Sigma Pi" Dance at the Greenhills Country Club. The special event was-attended by members and guests from around the state. The evening included music, dancing, and a crowning ceremony to select the new queen.

Campus Coverage

Sigma Delta Tau

The 1963-64 slate of officers for the coming term was installed at the annual meeting of the chapter. The slate includes: Ellen Herbert, president; Nancy Coplan, first vice president; Amy Munch, second vice president; Roslyn Good, corresponding secretary; Cary Wise, treasurer; and Susan Lebeheberg, house manager.

Delta Tau Delta

The new officers for the next year were installed at the annual meeting of the chapter. The slate includes: Howard Krugger, vice-president; Rich Holmes, recording secretary; John Norton, Corresponding secretary; John Anderson, Treasurer; Bruce Oliver, Assistant Treasurer; Clyde Wade, Guide; and Carl Pasgarela, Sergeant-at-Arms.

Miss Linda Lipscomb

Light for the evening was the crowning of Miss Linda Lipscomb as Queen. Miss Lipscomb was chosen from twelve candidates put up by various sororities and dorms. She is a member of Chi Omega.

Ye Old Fey-thul

AW's wants dress regulations, the News Record wants dress regulations, but the campus doesn't. Students want to look good and be comfortable. The solution is to let the people who compose AWS and the regulated dress, to let the people who compose the staff of the News Record wear the regulated dress, to let the people who compose the staff of the News Record wear what they want. The best solution is to let the people who compose the staff of the News Record wear what they want. The News Record wants dress regulations, the News Record wants dress regulations, but the campus doesn't. Students want to look good and be comfortable.

Sweetheart Of Phi Kaps

Miss Carol Oliver of Delta Delta was selected as Phi Kappa Theta "Sweetheart" last March 10. The annual Kampus King Dance held on March 10 this year, will feature the presentation of the 1963-64 Kampus King.

The annual Kampus King Dance held on March 10 this year, will feature the presentation of the 1963-64 Kampus King. The following men are in the running for this honor: Bill Freeman, Alpha Tau Omega; George McPeck, Acacia; Larry Sharp, Delta Tau Delta; Larry Goodridge, Delta Tau Delta; Phil Davis, Men's Dormitory; Tony Thompson, Phi Delta Theta; Tom Devaney, Phi Kappa Tau; Jerry Martin, Phi Lambda Theta; Elliott Sharp, Pi Lambda Phi; Jim Siler, Sigma Alpha Epsilon; Paul Cholak, Sigma Alpha Mu; Pat McCleary, Sigma Phi Epsilon; and John Dekenshefts, Theta Chi.

Sweetheart Of Phi Kaps

Miss Carol Oliver of Delta Delta was selected as Phi Kappa Theta "Sweetheart" last March 10. The annual Kampus King Dance held on March 10 this year, will feature the presentation of the 1963-64 Kampus King.

The annual Kampus King Dance held on March 10 this year, will feature the presentation of the 1963-64 Kampus King. The following men are in the running for this honor: Bill Freeman, Alpha Tau Omega; George McPeck, Acacia; Larry Sharp, Delta Tau Delta; Larry Goodridge, Delta Tau Delta; Phil Davis, Men's Dormitory; Tony Thompson, Phi Delta Theta; Tom Devaney, Phi Kappa Tau; Jerry Martin, Phi Lambda Theta; Elliott Sharp, Pi Lambda Phi; Jim Siler, Sigma Alpha Epsilon; Paul Cholak, Sigma Alpha Mu; Pat McCleary, Sigma Phi Epsilon; and John Dekenshefts, Theta Chi.

Lambda Chi To Honor Judge Rich

Former Judge Carl W. Rich will have another honor bestowed upon him when the University of Cincinnati Chapter of Lambda Chi Alpha Fraternity dedicates its newly-completed chapter house in his name. The dedication of Carl W. Rich Hall will take place Sunday afternoon, March 11, at the fraternity house, 333 Prosbasco. A plaque bearing Judge Rich's name will be unveiled at that time. He is a former president of Kappa Delta Chi Chapter of the UC fraternity.

Charles Yarbrough is chairman of the event, which will be held in conjunction with the Founders' Day celebration of the chapter. Judge Rich will be master of ceremonies at the banquet.
Senior Class President Undecided

The election returns from the last two sections are as follows.
All ties will be decided with constitutionally.
The tie for Senior Class President, however, will be decided by a special election, details will be announced later.

*Mimi Hill

Treasurer: Jim Sayler
Secretary: Bonnie Bizzarri
Vice President: Mary Ellen

The tie for Senior Class President, however, will be decided by a special election.

Thursday, March 8, 1962

Evan'sville Sight Of Play-off: Brand's Gains MVC Co-Title

by Steve Weber

Aided by a 25 percent shooting percentage by St. Louis, Bradley's aggressive style of the Missouri Valley Conference championship with a come-from-behind 58-47 victory over the Billikens at St. Louis' Kiel Auditorium.

Prior to this contest Bradley and Evansville were tied for first place in the MVC.

Bradley will now meet the winner of the Michigan State-Indiana game in the title game of the Midwest Regional of the NCAA tourney. Evansville, on the other hand, was defeated by Northern Illinois in the semifinals of the National Invitation Tournament in New York.

The three Bradley players are sure to start against UC: Walker Tart, and Rich Williams.

The Bears are favored by 2-1 to win the title, but their forward-guard-forward alignment is the key to victory. Their shooting percentage is .475, and they have scored an average of 62 points per game.

Bradley, on the other hand, is favored by 2-1 to win the title, and they have scored an average of 62 points per game. They are led by center-forward-forward alignment, which is the key to victory. Their shooting percentage is .475, and they have scored an average of 62 points per game.

Evansville is favored by 2-1 to win the title, and they have scored an average of 62 points per game. They are led by center-forward-forward alignment, which is the key to victory. Their shooting percentage is .475, and they have scored an average of 62 points per game.

The three Bradley players are sure to start against UC: Walker Tart, and Rich Williams.

Records To Fall As Mermen Host MVC Swimming Meet

by Bud McCarthy

Cincinnati's talented swimming Bearcats will try to add a Missouri Valley Conference championship to their impressive 6-1 dual record next week.

The MVC Swimming and Diving Championships are scheduled for UC's new Lawrence Hall pool on Thursday, Friday and Saturday, March 8, 9 and 10.

"The 'Cats will be after their fourth consecutive conference swimming title after a lapse of a year. No Valley meet was held in 1961, but Cincinnati earned MVC records for a total of three championships.

Bearcats Gary Heinrich, Jim Marchetti and Keith Dimond head the 13-man Bearcat roster entered. Heinrich, a 1961 All-American, will swim the distance freestyle and butterfly events. Marchetti, Cincinnati's captain, will go in the freestyle sprints and 100-yard butterfly.

Dimond, the only senior on the squad, is also the only Bearcat ever to have participated previously in the conference meet. He will defend his MVC 200-yard backstroke title and also swim the 100-back. This will be Dimond's last home appearance.

The UC squad is loaded with sophomores and among the standouts are Jim Norman, Joe Alkire and Bill Edwards. Norman is entered in the 50-yard freestyle and the 200-yard individual medley. He holds the school record of 21.3 seconds for the 50-free, a clocking only four-tenths of a second off the NCAA record.

Alkire, who was fifth in the 100-yard freestyle at the 1961 NCAA Indoor, will swim that event and the 220-yard freestyle. Edwards is the choice in the 100- and 200-yard freestyle and in the 100- and 200- in the 100- and 200-yard breaststroke races.

The Bearcat swimmers have been ranked nationally from fourth to seventh all year. They are Ohio AAU champs, Grove City Relay champs and are 8-1 on the season in dual meet competition.

The Bearcat swimmers head for their fourth consecutive Missouri Valley Conference crown this weekend. Pictured first row kneeling from left to right are: Daryl Wiesenhahn, Bill Edwards, Phil Meng, Fred Terauds, Gerry Sapadin and Bill Donehoo. Standing left to right are: coach Paul Hartlaub, Pete Cardullias, Ed Bock, Jim Norman, Joe Alkire, Gary Heinrich, Jim Marchetti and Keith Dimond.

MVC And UC Team Swim Records

Listed below are the present MVC records for a 25-yard pool followed by the University of Cincinnati team records.

25-Yard Freestyle: 2:22.9 UC (1960); 2:07.3 Heinrich (1961).
100-Yard Freestyle: 54.1 St. Louis (1959); 50.8 Nor man (1962).
220-Yard Freestyle: 2:18.1 St. Louis (1959) and Detroit (1960).

50-Yard Backstroke: 27.2 St. Louis (1959); 25.1 Marchetti (1960).
100-Yard Backstroke: 1:02.7 St. Louis (1960); 1:02.7 Don Rau (1960).
100-Yard Breaststroke: 1:20.7 St. Louis (1959); 1:20.7 St. Louis (1959).
200-Yard Breaststroke: 2:24.0 UC (1960); 2:17.4 Alkire (1962).
50-Yard Individual Medley: 1:02.7 St. Louis (1959); 1:02.7 Alkire (1962).
100-Yard Individual Medley: 2:02.0 UC (1960); 2:07.3 Heinrich (1961).

Sample Takes Two to Four-I; Shaut To NCAA Tourney

Regular wrestling season schedules are over for most teams, but from all over the country coaches are preparing their top men for both the Four-I tournament in Cleveland, Ohio, March 9, 10, and for the NCAA wrestling championships at Stillwater, Okla., March 22, 23, and 24.

Coach Glenn Sample wisely chose Jim Mahan, 147-pounder, and undeniably Frank Shaut 177-pounder to represent UC in these tourneys. Shaut and Mahan will both compete in the Four-I at Case Institute, but Shaut alone will represent Cincinnati for the NCAA matches.

Perennial titans of these post-season tournaments are the Cowboys of Oklahoma State. While a few NCAA wrestling championships come from this west coast, the which won national honors last year. Coach of this fine squad is Myron Roderick, who says, "Because of tradition and tremendous publicity our wrestlers have a great desire to win and uphold the tradition." A total of 34 consecutive "dual victories have been compiled by Coach Roderick's boys since the 1960-61 season.

According to the Amateur Wrestling News, the Cowboys are Jim Mahan (147) and Frank Shaut (177), both compete in the Four-I at these meets. Over 40 were won by powers as state Hurdie Phillips (167) of Oklahoma, Lehigh, Iowa State, Penn State, Army, and Big Ten teams, Michigan, Mich. State, and Iowa. All of these teams will field men in these tournaments, possibly new champions will reign for these schools.

UC's own wrestling squad compiled a respectable 5-2 record in dual meets for the 1961-62 season. Altogether this season, there were a total of 194 matches in all these meets, and 61 were won by UC, 38 resulted in losses, and 5 were draws. Astounding was the fact that Coach Sample's boys more than doubled the opponents amount of pins in these matches by a 29-9 margin.

Cincinnati 63 Indiana Central 48... Wabash 37-24... UC 27-Wabash 35... Illinois-DePauw 17-17... UC 20-Marshall 10... UC 14-Ball State 10... Kest State 10-9... UC 13-Michigan 12... Michigan State 9... Byers, Simko Vie For Posts With NFL's Giants, Packers

Ken Byers and Rudy Simko, a couple of bruising UC grid tackles, will be among those college football draftees who will bid for positions on two of next year's National Football League teams.

Both Byers and Simko are All-MVC first team selection for his junior and senior years, and will be going with the New York Giants, Philadelphia Eagles, and other mid-western clubs, will try out for defending NFL Champion Green Bay Packers. Byers was the seventh round draft choice of the Giants and a third-round pick in the American Football League's Boston Patriots. Simko will join former UC tackle Ron Kostelnik at Green Bay.

Gaining the title of "Most Efficient and Consistent Lineman," for this year Byers averaged 48 minutes per game, and played the full 60 minutes against Miami. Twice last year he was voted Missouri Valley Lineman of the Week.

Simko (6-4, 245 pounds) is also very agile for a big man and is hard to move.

IM Bowling Underway; Badminton Begins Soon

The Intramural bowling program launched its season Saturday as all four leagues, comprising twenty-four teams, rolled into action.

SAE, the Delts, Pikes, and the Newman Club all swept three games in the early going while SAE garnered high team total with 264.

Erroll Ross, SAE, had the top series at 577, followed by SAE's Dave Lange at 555 and Phi Delt's Bob Massinger with 526. Initial single game highs were recorded by the Pike's

Varsity Riflers Defeat Four Top Teams In Tour

Last weekend the Varsity Rifle team took annual spring tour, during which they fired against teams representing four large universities. The teams challenged by the Bearcat team were DePaul and Loyola University, both of Chicago, Notre Dame University of South Bend, Ind., and the University of Michigan at Ann Arbor.

The rifle team had a very successful tour, as the defeated six of the seven teams against which they fired. The team consistently fired in the 1980's, beating all of the three matches in which UC fired by only seven points. This is the rifle team's first loss on tour.

On March 30 the team will participate in the National Championships when they will travel to Grove City, Pennsylvania. The meeting is a sectional match being held there.

Learning never stops for engineers at Western Electric

There's no place at Western Electric for engineers who feel that college diplomas signify the end of their education. However, if a man can meet our quality standards and feel that he is really just beginning to learn ... and if he is ready to launch his career where learning is an important part of the job and where graduate-level training on and off the job is encouraged ... we want and need him.

At Western Electric, in addition to the normal learning-while-doing, engineers are encouraged to move ahead in their fields by several types of educational programs. Western maintains its own full-time graduate engineering training program, seven formal management courses, and a tuition refund plan for out-of-hours college study.

This learning atmosphere is just one reason why a career at Western Electric is so stimulating. For equal importance, however, is the nature of the work we do. Our new engineers are taking part in projects that implement the world's latest electronic telephone offices telephones, and communication communications systems.

Challenging opportunities exist now at Western Electric for those with electrical, mechanical, industrial, and chemical engineering degrees, as well as in physics, materials science, and business. All qualified applicants will receive equal consideration for employment without regard to race, color, religion, national origin, sex, age, or disability.

To arrange for an Western Electric interview when our college representatives visit your campus.

Bill Shirley and SAE's Dick Stanforth each with 231. Bob Hall, RTC, was close behind with 224. Results of the recent Union billiards and table tennis tournaments are as follows:

DOING IT THE HARD WAY by hoff (GETTING RID OF DANDRUFF, THAT IS!)

GET RID of embarrassing dandruff easily as 1-2-3 with FITCH

Over 3-minute wrist massage with FITCH

Feet, rid of embarrassing dandruff, 1-2-3 with FITCH

In just 3 minutes (one rubbing, one lathering, one rinse), every trace of dandruff, grime, oily hair goes right down the drain! Your hair looks healthier, shinier, healthier. Your scalp is left feeling cool, soothed, refreshed. Use FITCH Dandruff Remover Shampoo every week for positive dandruff control. Keep your hair and scalp healthy, beautiful! now you, will be coming to Western Electric at one of the best times in the company's history. In the management area alone, several thousand supervisory jobs are expected to be open to W.E. people within the next 10 years. And our work of building communications equipment and systems becomes increasingly important and important as the communications needs of our nation and the world continue to increase.

Challenging opportunities exist now at Western Electric for those with electrical, mechanical, industrial, and chemical engineering degrees, as well as in physics, materials science, and business. All qualified applicants will receive equal consideration for employment without regard to race, color, religion, national origin, sex, age, or disability.

specific needs of Avco's re- search and development program are supplemented through the re- search projects so that there is a direct benefit of knowledge fre- quently applicable to future ac-

7. Additional direct benefits to both ourselves and the Universi-
sity acruse through the choice of high caliber candidates who have proven themselves in industrial assignments.

8. Continued success of the Uni-

versity program should be guar- anteed by maintaining continuous revaluation and allowing flexibili-
ty to insure a maximum return for all—students, company, and university.

John F. Jordan

The need for technical gradu- ates before World War II is con- trasted with that existing today. The rapid pace of technological change during and since World War II has had a profound ef- fect, not only on the number of technical graduates required, but upon their training as well.

To remain competitive, more repackaging of yesterday's de- vices is not sufficient, not only in the case of Government con- tractors, but for those making consumer products as well. It is already apparent that engineers engaged in product research and development need graduate train-
ing.

The supply of engineers and sci- entists with advanced degrees in this geographical area has been limited for some time and the situation is expected to become more acute during the remainder of this decade.

Dr. E. Goldman

Engineers should have more basic scientific training whether or not they go into research and development, according to Dr. J. E. Goldman, associate director of Ford Motor Co.'s scientific laborator-

He emphasized the compression of time between basic research and the development of products from that research as an impor-
tant factor in more basic science.

"Nearly a century passed be- fore the celebrated equations of Maxwell evolved into the com- munications network that we call radio." Dr. Goldman continued. "And even Einstein's E = mc2 took almost half a century to give us nuclear power and weaponry."

In contrast are the rapid de-

velopment of practical weapons, processes and devices from recent scientific discoveries. The billion-dollar transistor industry and the use of the maser in the radio telescope were two exam-

ples of this development.

Dr. Arthur H. Peck

Using beryllium, as a primary example, it is demonstrated that much additional sound fundament-

al research and development must be applied now, not only to the application of metals but also to all phases of working, recognizing, molding, shaping and modifying.

Only in this way can we ensure an adequate supply of strategic metals for the United States not only in the event of only emergency international disturbances, but also for the world, as we are success-

ful in raising the standard of living of its present backward areas. It is demonstrated that the suc-
cessful accomplishment of results in this area cannot be accom-

lished by a single professional group working alone.

The highly specialized language in each field is presently a major barrier to the mutual respect and understanding so necessary for the successful accomplishment of the objective.

Providing individuals with ad-

vancement in their working under-

standing to break these language barriers is one of the primary jus-
tifications of science education that qual-
fied engineers and physicists be provided with graduate level training.

**Award Winning Film Premieres in Cincinnati At Wilson Sunday**

by Stuart Fox

An excellent film, "Father Panchall," will receive its premiere in Cincinnati on Friday, March 9, at 8 p.m. in Wilson Hall.

"Father Panchall," the first part of the new French film trilogy, was made by Satyajit Ray, the Indian film director, in his native Bengal.

The Indian government believed that they were receiving a travelog for their investment. Instead they got a film that has brought the highest honors at the Venice, Edinburgh, Strafford, Ontario, and Vancouver Film Festivals. In addition to the festival prizes, there will be two grand prizes at the San Francisco Film Festival.

The film is arranged by the UC Committee on Convocations and Special Program.

**Octet To Give Free Program**

Franz Schubert's famous "Octet in F Major," opus 166, will be performed by the Cincinnati Octet in a free public program at 8:15 p.m., Friday, March 9, in the main lounge of the Union.

In addition to the festival prizes, there will be two grand prizes at the San Francisco Film Festival.

**One Actor = Five Actors**

"The Sheep Has Five Legs," featuring five of France's funniest comedians, will be shown this Friday evening, at 8 p.m. at the First Unitarian Church Film Forum.

The film, directed by Henri Verneuil, has been hailed by Bosley Crowther one of the best French comedies since World War II. It stars Fernandel, Fernandez, Fernandez, Fernandez, and Fernandel. This versatility has been shown in its appeal to any other film actor.

The film, to be shown at the First Unitarian Church on Reading Road and Linton across from Sears, has an admission charge of $1. But one can buy a series ticket which will allow six admissions to any of the films in the Film Forum Series for $6.

Other films to be shown this series include "Ordet" by Dreyer, "The Little Fugitive," "The Seven Samurai" or "The Magnificent Seven" by Kurosawa, and "No More Fleeing," a recent German experimental film.

**Mummers Present 'Guys and Dolls'**

When the curtain rises on the annual Mummer's musical, a newcomer to the UC stage will warn hearts as the mission maid who wins the heart of New York's debonair gambler, Sky Masterson. Kathy Stoeke, a freshman in Teachers College, will play the part of Sarah Brown in "Guys and Dolls.,"

April 5, 6, and 7.

Supporting Miss McKee will be another newcomer, Tom Neumann, well known for his many campus activities, is a junior in Arts and Sciences and is making his first appearance in a UC production. He will play the part of "good ol' reliable Nathan" opposite Judson Jerome, who will play Adelaide.

Sky Masterson, a part made famous in the movies by Mar- lene Brande, will be played by Joe Zima.

Completing Nathan's gang of happy go lucky gamblers will be Bill Butler as Nicely-Nicely, Dick Van Home as Benny Southstreet, and Harry the Horse by Roy Bahich.

The mission band will consist of Maribeth Matre and Ray Greenecker.

**General Carwright will be played by a Mummies commissioneer, Marcia Lewis. Lieutenant Brannigan will be played by Fred Bittler, his Julio by Bill Staufrecht.

Aside, the old Shakespearean actor and gentleman of the Salvai
ta
tory, is Fred Riceover.

Besides these leads, there will be a dancing chorus of Adelaide's Hot Box girls, a gamblers dancing chorus and many others.

This musical may prove to be one of the most enjoyable ever. Some of the time remembered songs from it are "Lucky be a Lady," "Bushel and a Peck," "I'll Know," and "I've Never Been in Love Before."

More information concerning tickets will be available soon.
Union Shows 'Hamlet Today'  
"Hamlet" will be shown by the Union today and this evening in the Faculty Dining Room. The great Shakespearean play is medium. Lawrence Olivier's production is only rivaled on film by his own version of "Henry the Fifth" and "Richard the Third." 

The characteristics are superb: Lawrence Olivier as Hamlet, Jean Simmons does well as Ophelia, Felix Aylmer as Polonius, Eileen Herlie as Queen Gertrude, and Norman Wooland as Horatio also do excellent jobs in their parts. The film will be shown at 3:30 and 7:30 in the Faculty Dining Room of the Union.

32 Elected To Phi Beta Kappa  
Thirty-two university students, most of them McMillen College of Arts and Sciences seniors, have been elected to membership in Phi Beta Kappa, national scholastic academic honor society. The announcement was made by Mrs. Audrey Gomes, UC instructor in the social sciences, who is secretary of the campus Ohio Delta chapter of the society.

Two are now College of Medicine seniors after majoring in zoology; John Paul Morgan, and Albert Frederick Muhlemman Jr. Grouped by major departments, the others, all arts and sciences seniors, are:

Political science—Judith Klemm; Neil R. Berte, history and French; Robert H. Kelly; physics—Peggy Ann Heisel; bacteriology—Toby M. Kabakoff. 

Chemistry—Miss Margaret Blath; Julian Pahk Him Lowry; Myra Lynn North; philosophy—Howard Bluth; Jack Warren Cotrell. 

Zoology—Barbara Ann Bowling; Hal J. Bouch; C. Larry Deck; economics—Richard J. Chris-

ty; Robert W. Crandall; Hendrik J. R. G. Hartong Jr. 

Sociology—Ann Fry; Carolyn Neller Winget; English—Mark Norman Goodman; Mary L. Winslow; and Jan Leonard Wolf. 

Psychology—Nina J. Grumley; Victor Margolis; Maria A. Prout; French—Clare Hoch; Judith A. Theile; Gordon E. Walters. 

Classics—Susan Lapiego; Nancy Sutker Seltzer; Russian Studies—Lynda Jones.

Is this the only reason for using Mennen Skin Bracer?  
Skin Bracer’s rugged, long-lasting aroma is an obvious attribute. But there’s everything else.

After all, Menthol-laced Skin Bracer is the after-shave lotion that cools rather than burns. It helps heal shaving nicks and scrapes. Helps prevent blemishes. Conditions your skin. 

 Aren’t these the scientific virtues more important than the psychological effect Skin Bracer has on women? In that case, buy a bottle. And—have fun.
Cancer Society Awards Research Grant To UC

The American Cancer Society has awarded the University of Cincinnati a research grant of $18,787. It was announced by William J. McCluskey, president of the Cincinnati Hamilton County Unit of the Society. This is the largest grant ever awarded by the national Cancer Society to a local institution, Mr. McCluskey reported.

The funds will be used over an 18-month period for studies on cancer using the new techniques of nuclear and electron magnetic resonance techniques. The work will be carried out by a team of biochemists and biologists, with the assistance of the College of Medicine.

Recently, the University installed a $25,000 high resolution nuclear magnetic resonance apparatus. In this, a study of the molecular structure of proteins is obtained for chemists. In this, a study of the nuclei of proteins is obtained for chemists. In this, a study of the nuclei of proteins is obtained for chemists. This apparatus is expected to be a major tool in the study of proteins.

The grant will be used to purchase equipment and to support research activity. The funds will be used over a two-year period for studies on cancer using the new techniques of nuclear and electron magnetic resonance techniques. The work will be carried out by a team of biochemists and biologists, with the assistance of the College of Medicine.

Red Cross Volunteer Drive Begins In Cincinnati Chapter

Spurred by the mounting demands of the national preparedness program, the Cincinnati Area Chapter, American Red Cross has launched its 1962 volunteer recruitment campaign.

Frank M. Grie, chairman, urges all civic minded citizens of the five-county area during March, Red Cross Month, "to consider making the contribution of only a small portion of their spare time to serve their neighbors, their community and country."

Grie said that the expansion of the armed forces has underlined the urgency for a successful campaign because it has brought greater demands for Red Cross services not only on a national but right here in the area served by this newspaper.

Almost a thousand reserves were recalled to active duty from the five-county area and the Fort Thomas Induction Center currently is processing men, enlistees and draftees, for the Army, Navy, Marines and Air Force at a rate greater than ever in recent years.

Ultimately—and sometimes concurrently with induction—this increases the need for more volunteers in a greater demand for Red Cross service. Grie pointed out also that a greater consciousness of survival techniques on the part of the civilian public is boosting considerably the enrollment and inquiries for classes in first aid, mass feeding, home care for the sick and injured and other disaster-related subjects.

"This," he said, "is superimposed on the growing local need for volunteers, makes it necessary that we make the March recruitment drive our most successful effort in years."

Continuing through the entire month, the drive will be keynoted by the slogan—"when you help—We can help."

"Normally, Grie said, "March Red Cross Month, marks an intensive drive for operating funds. Here in our area this is not the case because of the generous support given by the public to the annual five-county United Appeal, in which the Red Cross is a partner with the Community Chest.

"Rather, we will observe Red Cross Month with an effort to recruit the volunteers so sorely needed," Grie said.

"Red Cross is everybody's business," he said. "Whatever age—eight or eighty—and whatever background—housewife or attorney—there is a volunteer job for all."

Grie urged that prospective volunteers call FA 1-3865.

"Eatin' treats that can't be beat."

Salem refreshes your taste "air-softens" every puff

Take a puff...it's Springtime! A Salem cigarette brings you the taste of Springtime...so soft and refreshing. Puff after puff...puff after pack...Salem smokes fresh and flavorful every time. Smoke refreshed...smoke Salem!

Police Chief Schrotel Addresses UC Alumni

Offices Named
In Home Ec;
Meeting Set

Installed as the new officers of the Home Economics Club were president, Sue Karver; vice president, Anne Neherman; secretary, Melanie Maddox; treasurer, Carol Fendergast; publicity, Roslyn Heisler. After the installation there was a luncheon.

The first meeting of the new semester will be March 8 at 1 p.m. in Beecher Hall. It is filled with the thrill of history on UC's campus.

"To develop a police force that can be called a community police force, it is essential to know the community in which the force operates," Colonel Schrotel said at the Alumni meeting.
17 Tapped For Guidon Under Arch Of Sabers; Outstanding Women Honored For Achievement

Tapping for Guidon, honor society for outstanding Junior women, was held Tuesday evening at the individual girls' sorority houses. The following girls were tapped under an arch of sabers held by the men of Seabard and Blaine.

Nancy B. Beamer: YWCA; WAA; ADPi; delegate to Freshman Leadership Conference; WUS; Union Social Committee; Union Public Relations Committee; Sophomore Mum Sale; Cin- cinnatin Coppy editor; 1960 University Sing-Coachairman; delegate to MD-ODK conference.

Bonnie Bizzarri: Union Social Committee, Alpha Lambda Delta; Ci- centinatian; Kappa Alpha Theta; Homecoming Queen Com- mittee, Alpha Lambda Delta; Delta Delta Delta; Freshman Project Model; Junior Advisor; Freshman Spirit Banquet; Alpha Chi Omega pledge president; Junior Panhellein; Junior Advisor; Freshman Spirit Banquet; WUS; Homecoming Float Committee; Kampus King; chairman of TC Anarch of Sabers; Alpha Lambda Delta.

Joyce Oberling: (Northwestern University Freshman Year) Student Senate; Kielid; Secretary to the Student Senate Convention; Freshman Counselor; Bulletin Board Chairman; Alpha Chi Omega; Guide for Collegiate Day; Greek Week; Sophomore Class Christmas Party; Alpha Chi Omega;

Elvira (Elkie) Ringwald; Kappa Alpha Theta; YWCA; Fresh- man Project; Greek Week; Freshman Project Model; Junior Advisor; Sophomore Class Christmas Party; Kampus King Program; Sophomore Mum Sale; Alpha Chi Omega; Freshman Project Model; Junior Advisor; Freshman Spirit Banquet; Sophomore Mum Sale; Alpha Chi Omega; Delta Delta Delta; Freshman Project Model; Junior Advisor; Freshman Spirit Banquet; Sophomore Class Christmas Party; Applied Arts English Tutor; art teacher at Art Museum.

Jan Masehnnyer: YWCA; So- cial Committee of Union; Cin- cinnatin Student-Faculty Committee on Research and Studies.

Joyce Schoenberger: Alpha Chi Omega; WAA; Alpha Lambda Delta; Delta Delta Delta; Newman Club; Homecoming Committee; Mum Sale; Greek Week petition.

Bethel Seleying: Kappa Kappa Gamma; Freshman Project; Freshman Leadership Confer- ence; YWCA; Cinncinatian; So- cial Board; Horizons; Sophomore Banquet; Sophomore Mum Sale; Sophomore Christmas Party; WUS; Sophomore Spirit Banquet; OWS; Kampus King; Greek Week; Homecoming Queen Com- mittee, Sophomore Operation Telephone.

Chickie Stein: Sigma Delta Tau; pledge president; Junior Panhellein; AWS; Senior Panhellein; Junior Advisor; Union Cultural Committee; Class Com- mittee.

Carol Walanaple: Arote; AWS; College Women; Junior Advisor; Sophomore Con- ference Program Committee.

Sign up for Advanced Army ROTC...

And right away, you'll feel better about your Military Obligation...

Because you know, as an officer,
your military service will be a stimulating and rewarding experience. You will enjoy the pay, the prestige, the traditional privileges of an officer...
your military service can pay off handsomely in later life. For example, ROTC can be tremendously helpful when a man starts his climb up the civilan ladder. Success in the executive areas of business and industry comes earlier and more substantially to the man who can lead. Few are born leaders; but leadership can be learned. And Advanced ROTC is a great place to learn it...
you will be contributing to the limit of your potentialities in one of the biggest jobs we face today ... you can help keep America so strong the war the whole world dreads need never happen.

During your 2-year Advanced Army ROTC course, there will be a subsistence allowance of $535. Uniforms and military textbooks are paid for. There is a $117 allowance for your six-week summer camp training, plus travel allowance. And when you're commissioned, a $300 uniform allowance.

And then, of course, there is the warm sense of accomplishment you will feel in June 1963 when the gold bars of a Second Lieutenant are pinned on your Army uniform.
Christian Science Group Sponsors REW Films

In connection with the Religious Emphasis Week program, the Christian Science organization announced the showing of two half-hour films, "The Story of Christian Science" and "Assignment: Mankind," in the auditorium of Second Church of Christ, Scientist, Clifton and Proctor, on Saturday, March 10th. 7:45.

"Assignment: Mankind" takes us through a typical day with The Christian Science Monitor, international daily newspaper. This film was made in connection with the fiftieth anniversary of the Monitor.

Students will find in these films clear and definitive information about the Christian Science movement.

Tony Thompson, DAA '62, recently was awarded the Arthur T. Phelps Memorial Citation, signifying his winning a nationwide architectural design competition.

Over 3,000 undergraduate students throughout the country entered the competition, sponsored by the State of Ohio in conjunction with the Ohio State Society of Architects and Engineers. The award involved the design of one revalidation of the city of Cleveland, Ohio. Mr. Thompson's concepts were selected as the best entry on the basis of practicality and beauty.

Parry To Discuss Diseases In Sheep

H. B. Parry of the Nuffield Institute for Medical Research, Oxford, England, will speak on his and other studies of "Scrapie," a degenerative disease of the nervous system in sheep, at 9:30 a.m. Monday in Room 6A, Wherry Hall, adjoining the University of Cincinnati College of Medicine.

Mr. Parry is visiting this country under sponsorship of the National Foundation for Nervous and Mental Diseases. He is guest in Cincinnati of Dr. George H. Acheson, director of UC's department of pharmacology.

The Mummers Guild isn't doing "Gypsy," but we are doing "Guys and Dolls" on April 3, 4, and 7.

Editors Announce Cincinnati Theme

Editor Chris Demakes, A&S '62, and Associate Editor Anita Stith, DAA '63, have announced the theme of the 1961-62 Cincinnatian to be the progress made by the University of Cincinnati from early 1800's to the present. Included in this feature will be the plans for future development.

The use of old-time flavor, accented by old-fashioned type and wood cuts, will serve as a means to carry the theme of progress throughout the sections of the yearbook. The cover, designed in a traditional style, will be white with a gold seal and brown lettering in a likeness of wood cut letters. A tail, thin face will head the division pages, with wood cuts inserted on the section pages for subtlety and humor.

The content of the annual will be in accord with past yearbooks, with some slight variations. The staff intends to continue the idea (conceived last year) of selecting Cincinnati's beauties but will confine the number to three this year. Highlighting the photography will be four color photographs.
