Honor Societies Add Members

Sigma Sigma Delta Chooses Men At Saturday’s Miami Game

Six new members were tapped for Sigma Sigma Delta at the Miami game last Saturday. They were Ken Cunningham, Forest Heis, Ned Lautenbach, John Leane, Bill Moning and Erge Owens.

Ken Cunningham is a member of the UC basketball team and baseball team. He is also Vice-president of the CClub, a member of Kappa Delta Pi, an educational honorary, and Phi Epsilon Kappa. His average for three years is 3.1.

Forest Heis is presently the President of the Junior Class, Beta Theta Pi pledge leader, and was tapped for ODK. Some other groups he has participated in are Cincinnati, Men’s Advisory, Sophos, Student Council, and Phi Eta Sigma; he has a 3.52 average.

Ned Lautenbach, President of SAE, has held other key offices in the fraternity as well as being a member of Sophos, ODK, Men’s Advisory, and Phi Eta Sigma. He has a 3.44 average.

Hans Morgenthau To Speak Dec. 2

Hans J. Morgenthau, distinguished political scientist from the University of Chicago and director of the Center for Study of American Foreign and Military Policy, will deliver a free public lecture on “The Crisis of Communism” at 4 p.m. Dec. 2 in Room 127, McNichol Hall.

A native of Germany, he has served as a consultant to the United States Department of State in 1949 and 1951. Member of the Chicago faculty since 1945, he has been a visiting professor at the University of California, Harvard, Northwestern, Colorado and Yale Universities.

ODK Taps Eight Students, Honors Profs. Funk, Paris

Molly To March With UC’s Band Posies In Hand

OMISSIONS Delta Kappa, national upperclassmen’s honor society, tapped eight UC students and two faculty members, Tuesday, Nov. 17, in the Student Union.

The faculty members selected by the society were Col. Myron Funk, Professor of Military Science, and Dr. Norman Paris, Associate Professor of Psychology.

Four UC seniors and four junior naval reservists were chosen. The seniors were Jim Lars, Larry Shuman, David Weiner, and Ken Wolf.

Forest Heis is a junior in the College of Business Administration and has a 3.02 cumulative grade average.

He is a member of Phi Kappa Phi and Mortar Board, officer in his social fraternity, officer of Cincinnati, and a member of Budget Board. He is president of the Junior Class.

John Jennings is a member of Kappa Delta, Beta Theta Pi in the College of Business Administration and has a 3.02 cumulative grade average. He is a member of Phi Kappa Phi and Mortar Board, officer in his social fraternity, officer of Cincinnati, and a member of Budget Board. He is president of the Junior Class.

John Jennings has been a member of student council for two years where he is now currently chairman of the committee on elections. He was in-town rush chairman for his social fraternity this fall, has been active in the YMCA, and was chairman of the men’s advisory in the College this fall. He is a junior in the College of Arts and Sciences with a 3.22 cumulative grade average.

Scott Johnson is also a junior in the College of Arts and Sciences with a 3.37 cumulative grade average. He was rush chairman of his social fraternity this fall, active in Sophos, and was a member of the YMCA Conference. He was recently elected president of his social fraternity. He is a junior in the College of Arts and Sciences with a 3.44 cumulative grade average.

Jim Mann is a leader in his College Tribal. He has held many offices in his social fraternity, and is leader in the Inter-fraternity Council; is Circulation Manager of the NEWS RECORD and an officer on the Student Union Board.

He is a senior in the College of Arts and Sciences with a 3.72 grade average.

Larry Shuman is a member of numerous men’s advisory groups; he is a member of the committee on convocations and special events, and is a member of student council. He is Editor in Chief of the NEWS RECORD; is a member of the College of Engineering with an accumulative grade average of 3.72.

David Weiner is a member of Metro, is President of his College Tribal, and is president of his social fraternity. He is a senior in the College of Business Administration with a 3.90 accumulative grade average.

The last undergraduate new member is Ken Wolf, a senior in the College of Arts and Sciences with a 3.72 accumulative grade average. He has been a member of the Committee on Men’s Advisory, a member of the Debate Team, Secretary and Pledge Master of his social fraternity, a member of Union Board and is the Student Representative to the UC Representative to President Johnson’s White House Reception. He is also President of the UC Student Body.

AWS Petitions

Petitions for AWS offices are available in the Office of the Dean of Women (Room 206) and in the Dean of Women’s office. Present freshmen and sophomores are eligible. The petitions will be due at the beginning of the second quarter.

News Bancroft
New ROTC Program To Attract Recruits

Army and Air Force ROTC programs offer a more appealing program to UC students as a unit of a Vitalization Act of Congress, enacted this summer.

A new two-year ROTC program is now in effect. The idea is to attract students missing the first two years of ROTC instruction. They can qualify for the two-year Advanced Course in the junior or senior years by successfully completing a summer training program.

The principal targets are students transferred from junior colleges or some other college not having ROTC program.

A mammoth scholarship program has also been initiated, though not in operation until 1965. Those in the four-year program are eligible to apply for a scholarship covering tuition, laboratory fees, and books plus $50 per month in cash. A national competition for these $5,500 scholarships will most likely be held each year.

Cedars will also get a boost in retention pay from $87 monthly to $140.

Payments to ROTC students in summer training will be increased from $78 to more than $110.

In addition, ROTC graduates will receive a $300 allowance for uniforms when they become commissioned as regular officers.

Homeward Bound—Books an' All—

Dr. Muljono Heads Council

Dr. Raden Muljono, a doctor of veterinary medicine from Indonesia, has arrived at UC for study of the UC Tanners Council Laboratory toward the development of the non-food animal products industry in his country.

Dr. Muljono was sent to UC for 18 months of study on leather and wool technology by the Kentucky Research Foundation of the University of Kentucky, Lexington. The foundation advises the U.S. for international development (AID) program in Indonesia.

UC is the only U.C. institution offering a suitable program in this field.

"The utilization of non-food animal products is of great importance to Indonesia's growth and development," the foundation said, "and Dr. Muljono will have the responsibility upon his return to develop this industry and (related research)."

Dr. Muljono received his doctor's degree from the University of Indonesia College of Veterinary Medicine in 1962 and since then has been in charge of non-food technology on the college's faculty of animal husbandry.

---

good news for the people

Dr. Muljono received his doctor's degree from the University of Indonesia College of Veterinary Medicine in 1962 and since then has been in charge of non-food technology on the college's faculty of animal husbandry.

ALPHA PHI ALPHALPHA

Alpha Alpha chapter of Al-pha Phi Alpha Fraternity will present a literary and musical tribute to the progress of the Negro. This program will portray the contributions of the Negro to the American heritage. It will be held at 6 p.m. Sunday, Nov. 29, at St. James R. & M. E. Zion, 34th Wilson Ave. All UC students and faculty are cordially invited.

Ring Debate Highlights Council Resolution Condemns Situation

by Mike Friedman

The key issue in Student Council's last meeting of the quarter was the ring situation.

The debate centered on the start of UC rings which may be purchased by anyone. Council felt that such rings were easily confused with the official UC Senior Class rings, and as such, the latter tended to lose its significance.

This situation was further clouded by the fact that twice during the past six months the officially designated manufacturer of Senior Class rings was changed. It was noted that all such changes are to be handled through a standing committee of the administration and students, but that this committee was not consulted concerning the recent changes.

As a result of these events, Council passed a resolution condemning "the decision to change companies without consultation with any student organization." Further, Council resolved "that we condemn unequivocally the production and sale of any ring which resembles the official UC Senior Class ring."

Dr. Vogel Speaks On 'Last Chance'

Professor C. William Vogel, history professor at UC spoke at the first of a series of "Last Chance" discussions, held Wednesday evening, Nov. 10, in the French Hall lounge.

These discussions will be conducted by different professors who are presented with the question, "If this was your last chance to speak to students, what would you say?"

In his talk, Professor Vogel, a member of the UC history department since 1955, told Churchill's story to students. Churchill was one of the great products of the 20th century.

Using Churchill as his example, Professor Vogel explained the traits that make a great man and leader. He stated that these qualities are present in every man, but for the most part remain dormant. "Man has a great chance to shape his own destiny. He should attempt to achieve the maximum of his capacities."

Ambition, honesty, integrity and legality were cited by Professor Vogel as the basic qualities a man should attempt to acquire in order to better himself.

In other action, student apathy towards the Council was discussed. Often it seems as if the students are not aware of what the Student Council does for them. Similarly, the Council is often unclear about the desires of the students. In an attempt to improve this situation, questionnaires will be distributed to the students asking what the Council can do for them. At the same time, they will be informed of past actions taken by the Council on behalf of the students. It is hoped that this exchange of information will help to make the Student Council a more useful body by making it more closely attuned to the wishes of the student body.

It was announced that basketball cards are now available, upon presentation of an I.D. card, in the Fieldhouse from 9 to 5 daily. Last year's policy as pertains to tickets will be continued for the coming season.

Captain Forrest Hois, of the Student Council All-Stars, expressed his sorrow over the cancellation of the Student Council News Record football game. Council was not able to raise enough men to compete against the Agile News Record outfit. The game has been rescheduled for December 3, at 12:30 p.m. in the Engineering Quadrangle. All are welcome to witness this battle of the physical mights.

A spirited debate over the effect of the Athletic Department's planning on the student body was presented by Ron Allan, the而且, former Student Body President. Allan presented his viewpoint that the Athletic Department's planning, i.e., the approval of banners, could have an effect on the student body elections. He argued that the department could influence student voting behavior, potentially favoring candidates who support the department's policies. Allan's argument was that the department could create a perception among students that supporting the department is the best way to ensure victory in the elections.

On the other hand, Ken Wolf, the current Student Body President, refuted Allan's claims. Wolf suggested that the department's role in planning is neutral and should not be seen as influencing the election outcomes. He emphasized the importance of gaining the support of the student body through credible and authentic campaigning.

The debate highlights the tension between the need for an organized and efficient sticker program and the desire for a level playing field in student body elections. The question of how much influence the planning process can have on student decisions remains a pertinent one, especially as student body elections approach.

REBUTTAL

To the Editor,

I want to respond to Ron Allan's article about his views on the role of the Athletic Department in the planning of signs, and whether it influences student body elections. Allan argued that the department's actions could create a perception that supporting the department is necessary for victory. He suggested that the department could be using its influence to promote their candidates, which could negatively impact the elections.

I believe that Allan's argument lacks evidence and generalizes the situation. The department has its own constraints and limits, and its planning is not so strong that it can directly influence election outcomes. I see no reason to think that the department is aiming to favor candidates who support their views, especially when it comes to planning signs. The department's planning is neutral and should not be seen as influencing the election outcomes.

I want to thank the department for their planning, and I assure you that their planning will not influence the elections. As the current Student Body President, I assure you that I will represent the best interests of the students and that the elections will be fair.

Sincerely,
Ken Wolf
Student Body President
Northwestern Abolishes Traditional Ed. Courses

In one of the first major revisions in teacher education in the United States in several decades, Northwestern University will soon abolish its traditional education courses for prospective teachers. Beginning in the fall of 1965 it will offer instead a new program emphasizing the teaching of theory, methods, and problems of education in seminars, tutorials, and practice teaching. The development of the new program will be sponsored by a $125,000 grant announced today by Carnegie Corporation of New York.

Northwestern University began to plan major changes in its teacher training program two years ago. Some of the main features of the revised program coincide with the recommendations of James B. Conant for improving teacher education.

The key change at Northwestern, and one of Mr. Conant's principal recommendations, is to place responsibility for the quality of teacher graduates in the hands of the school of education, a responsibility that is usually left to the department of education at Northwestern, reports that under the new plan the subject-matter departments of the University will certify teacher candidates' competence in their areas and the president of the University will attest to the total competence of each teacher graduate.

Every student who wants to become a teacher will be given a broad liberal education. Those who want to teach in secondary school will complete a major in a subject-matter field. Students who want to teach in elementary school will be required to complete three years' work in three academic disciplines, such as English, mathematics, and history, or four years in one of the second subject commonly taught in elementary school. These academic programs will be planned by the School of Education jointly with the appropriate academic departments of the University.

"If change of a radical nature is to come in teacher education," Mr. Chaudhry believes, "it will have to come through the efforts of a few colleges and universities that dare to initiate and evaluate programs with the aim of raising the quality of teacher education." There is evidence that some other institutions are ready to move in this direction and Northwestern has therefore invited some of these to send representatives to a meeting on Nov. 16 and 17 at the University where they will join some superintendents of public instruction, faculty from Northwestern, and Mr. Conant in a discussion of innovations and research in teacher education.

Speaking Out

from p. 4

utes we usually goof off in? Using the new clock we have three hours just for goofing off in out of every fifteen.

As you are reading this, I am utilizing some of my extra hours to redesign the calendar into one containing fifteen months and expand summer vacation and some of my favorite holidays.

By adding extra days to the beginning of Christmas, it could start the day after Thanksgiving and thereby justify the traditional custom of putting Christmas decorations up in mid-November.

But the 15-month year is still far away whereas the 15-hour clock is with us now.

Join with me, in the memory of that great American student, who stood in Nathan Hall and uttered the famous words, "I only regret that I have but one hour to give to my calculus," in instituting a time system twice as feasible and half as ridiculous as the quarter system.

Graduation was only the beginning of Jim Brown's education

Because he joined Western Electric

Jim Brown, Northwestern University, '65, came with Western Electric because he had heard about the training program for the continued development of its engineers after college graduation.

Jim has his degree in industrial engineering and is continuing to learn and grow in professional stature through Western Electric's Graduate Engineering Training Program. The objectives and educational philosophy of this Program are in the best traditions of academic institutions, designed for both experienced and new engineers.

Like other Western Electric engineers, Jim started out in this Program with a six-week course to help in the transition from the classroom to industry. Since then, Jim Brown has continued to participate in his technical course and take courses that will help him keep up with the newest engineering techniques in communications.

This training, together with formal college engineering studies, has given Jim the ability to develop his talents to the fullest extent. His present responsibilities include the solution of engineering problems in the manufacture of modulating equipment, a component used to improve the quality of voice transmission.

If you set the highest standards for yourself, enjoy a challenge, and have the qualifications we're looking for — we want to talk to you! Opportunities exist now for electrical, mechanical and industrial engineers, and for physical science, liberal arts, and business majors. For more information, get your copy of the Western Electric Corporation Opportunities booklet from your Placement Office, and be sure to arrange for an interview with the Western Electric recruiting team visiting your campus.

Brig Owens and Al Nelson—Final Home Game... Brig Owens slips out of a tackle (left and Al Nelson) and through the line (above) in the two seniors' final appearance of Nippert Stadium. For the day, Owens gained 91 yards and Nelson again went over 100 with 134 yards. The Bearcats ran over Miami, 26-14.

Photos by Ken Knapp

UC Ends Miami Jinx Blasts 'Skin's 28-14

by Dave Altman

A group of UC football players who had never seen Miami beaten in their Cincinnati careers, wrote a new chapter in a story that had been all too monotonous for the past four years.

For the third time in as many weeks, a fine running attack netted over 300 yards for the Bearcats, who threw only seven times all afternoon. One of the passes, however, was a picture 20-yard TD play from Brig Owens toE

Brady Prisby.

Bill Bailey picked up 91 and 92 yards on his two TD plays and Al Nelson again went over 100 with 134 yards. The Bearcats ran over Miami, 26-14.

Thanks to fine blocking, especially by Jim Hoos. The senior Tandler turns the trick by going eight yards around left end. Seconds later, Owens got the TD on a crisp conversion on a right end sweep.

Kellerman, almost forgotten because of Owens' quarterbacking, made his presence felt with his 48-yard run on what might have been a broken play. At this point a break in Miami's favor could have changed the complexion of the game.

Thanks to Bill Bailey, this never happened. The strong junior fullback charged 49 yards around everybody for UC's final TD.

With a fine second effort, Brig Owens converted. The score then stood 24-14.

UC had many standouts in its 1964 farewell to Nippert Stadium. On defense, Prisby, Allen, and Allen played exceptionally well. But more than just a few can be cited. Of course, Al Nelson was amazing as was Brig Owens. Both have only one game left as Bearcats but certainly few will forget their record-setting efforts. They lead their team on to Houston next week for the climax of a great season and two great collegiate careers.

The experienced and weighty Houston line is another obstacle the Bearcats defensive platoon will encounter. But the Bearcats have a forward wall of 6'3, 232-pound Gus Brovka, a two-year veteran at the left end spot.

Head Coach Bill Yeoman, who is completing his fourth season as UC mentor, takes his Bearcats to Texas for the seventh meeting of the two schools. Houston has yet to suffer a Bearcat defeat since their first game in 1957. The last UH-UC contest was held in 1963 with the 'Cats on the short end, 42-14.

The Houston battle, tagged as the toughest contest in pre-season talk, should be the answer to the winning 1964 football campaign. A balanced offensive attack and an alert defense is the needed combination for a UC victory.

Bet'a, Phi Kap Undefeated Football Playoffs Underway

by Ted Milios

The play-offs are well under way in 15 football; volleyball is in full swing and Band is bustling along.

In League I, Beta Theta Pi was the first finisher with an unmarked 6-0 slate. By virtue of a convincing 13-0 victory over Sigma Phi Epsilon, Pi Lambda Phi gained second place in a tie, record. Pi Lam moved out to an early lead by scoring the first two times it had possession of the ball. The first TD came on a pass from Sandy Schonbeck to Dave Lebanon. Schonbeck ran over the goal line for the second score.

League II saw Phi Kappa Theta finish undefeated to capture first place. Pi Kappa Alpha finished second with their only loss coming at the hands of the Phi Kappas. League III ended in a deadlock between Phi Delta Theta and Lambda Chi Alpha. In a play-off game last Saturday, to decide which team would get the first place seeding in the championship tournament, Phi Delta dealt Lambda Chi a decisive drubbing, 76-4. After a Clark Eads to Gary Herfel pass, Phi Delta held a 6-0 halftime lead. Eads connected twice in the second half, first to John Meyer and then to John Dolby. Eads finished out the scoring by running the last score over from five yards out.

The big free-for-all took place in League IV, Sigma Alpha Epsilon. Sigma Chi and Lambda Chi, at least to Phi Kappa Theta, were picked to move into the top spot in their league. These losses made double losers of both Phi Kapp and the ROTC team as they also lost to Phi Kappa and Phi Tau respectively. Theta Chi overpowered the Summit Dorm team and then posted a belated victory over Dolt in an important match for the number one position in League III.

Pi Lam, first in League IV, defeated Sawyer and then defeated Sigma Alpha Epsilon in a game which might be a factor in deciding the eventual league champion. Pi Lam finally defeated royal Sigma Alpha Mu in their opening match by indestructed wins in two straight games.

ATTENTION

Student attendance cards for the 1964-65 basketball season can now be picked up at the Athletic Ticket Office in the Fieldhouse. They will be available until December 1.

The attendance card lists the pick-up date for tickets for home basketball games and Gardencas' games. A student ID card must be presented to get the attendance card.

Tickets for the Miami game at the Garden on December 5 can be picked up on December 2, 3, and 4.
Rugged Sked For Mermen

The University of Cincinnati's 1964-65 swimming team faces what promises to be the toughest season in school history, an ditual meet slate that has been released by the Athletic Director, George Smith.

Three Big Ten powers are on the schedule, and four opponents finished among the top 12 at last year's NCAA Championships. The Western Conference foes are: champion Indiana, an outfit to be met twice this season, Michigan and Ohio State. Indiana had the most consistent and should retain his starting berth, but the other opening is a toss-up between Fritz Meyer, Bruce West, and Dave Cosby with the prime reason for postponing the game.

N.C. coach Larry Shuman and SC mentor Forest Heis are trying to reschedule the game next Thursday.

Krick Hooks One ... Ron Krick, one of the Bears' towering center, switches hands and uses that soft touch to two points. In the aggressiveness he showed at the end of the season last year, Ron should give Coach Jucker a considerable boost.
Football—An All Year Sport
by Frank Kaplan

Although it is confined to the autumn season, football, on the college level, is a year round sport. This can be seen by taking a look at UC and its grid program.

After the final game some time in November, the players are given two months to rest and regain the strength they lost during the season. Then, beginning Feb. 1, the footballers are put through daily isometric and isotonic exercise. To further condition themselves, the players take up another sport; the line man, usually handball, and the backs, basketball.

This conditioning continues until spring vacation when spring practice begins. This session is a 20 day period of rough workouts, during which the coaches get a good idea of who will be good material for next year.

Six weeks before fall practice begins the players receive a letter from Coach Studley containing exercise routines and a full conditioning program. It is up to the individual to get in shape for fall practice. This can be seen by taking a look at UC and its grid program.

Notre Dame, Iowa's, Gary Snook; Bob Timberlake take up another sport; the line man, usually handball, and the backs, basketball.

Concerning UC, it is known that representatives from the Sun Bowl and Liberty Bowl have expressed an interest in the Bearcats. The Cats present status concerning bowls is little hazy, but it is quite obvious that UC will have to look impressive against Houston this Saturday to help them regain the strength they lost during the season. See Howie Newstate in the Miami University of Cincinnati News Record for more information on the football program. It is up to the individual to get in shape for fall practice which begins Sept. 1.

During the first week of fall practice the players are required to run a mile in a certain time. This gives the coaches a good gauge as to what shape their charges are in.

It is pretty obvious that this is the year of the quarterback in college football. Tim Tharpe of Michigan, Johnny Harris of Notre Dame, Joe Namath of Alabama, Frank Fontaine of Stanford, etc., all prove this point.

The Missouri Valley Conference, not considered a football powerhouse, has more than its share of top signal callers this year.

Jerry Rhone of Tulsa is the leading passer in the nation, having broken almost every passing record in the books. Accounting for most of Tulsa's 352 points this season, Rhone leads the Hurricanes against U. of Miami.

Louisville's Tom LaFrance was the fourth leading passer in the nation prior to last weekend. Playing on a team that won only a single game this year, LaFrance completed the season with a total yardage of 1200. This broke the Louisville record for total offense set by John Unitas in 1952.

Briggs Owens of Cincinnati has led the Bearcats to a 7-3 record this year with one game remaining. The versatile quarterback has used a combination of running and passing to achieve his success.

Frank Shaut is the new wrestling coach this year at UC. Wrestling for the Bearcats last year, Coach Shaut is also a Phys. Ed. instructor.

The freshman coach has an optimistic look toward the coming season with veterans such as John Leane, Jeff Arney, Rock Fuller, Mike Title and DaveMyer returning to form a strong nucleus.

"We have a lot of freshmen this year that look real good on paper. They've had a lot of high school experience. We should be strong in our line and weight divisions this year," said Shaut.

The wrestling season opens Jan. 18 at Henry College. The stiffest competition is expected to come from Kent State, Miami, and Notre Dame. Practice begins Nov. 30.
Lieutenant Governor Kenneth Baughman, speaking of the
Future of Agriculture, discussed the economic significance of
the industry and the challenges it faces. He highlighted the
importance of innovation, education, and sustainability.

The Triad Dance Honors Founding Of Three UC Fraternities

On Friday, Nov. 27, the annual Miami Triad Dance will be
held for the members of Beta Theta Pi, Phi Delta Theta, and Sigma Chi. These three fraternities were all founded at Miami
University in Oxford.

Queen of Hearts

Last week Sigma Phi Epulon announced their candidates for
Queen of Hearts. There are 15 girls in the running from various
sororities and residence halls.

This year's candidates are:
Donna Weddell, Alpha Chi Omega; Jaye Weigel, Alpha Delta Pi;
Rosalee Cook, Alpha Gamma Delta; Nancy Van Wagen, Chi Omega;
Jo Anne Feilens, Delta Delta; Judy Thies, Delta Zeta; Patty Cole, Kappa Alpha Theta;
Nancy Everleigh, Kappa Delta; Diana Schultze, Kappa Kappa Gamma; Marna Gud, Sigma Delta Tau;
Pat Div, Theta Phi Alpha; Pat Baker, Zeta Tau Alpha;
Coady Smith, Memorial; Sherry De Rechlin, Bidwell Hall.

It has been traditional for these Greek groups to celebrate
their respective foundings to
tgether during the Thanksgiving Holidays. Each fraternity has
various members in charge of publicity, tickets, and other physical
arrangements.

Pledges, active, and alumni of these fraternities, their dates,
and their friends are invited to the
dance. The dance will be held
at the Green Hills Legion Hall from
9 p.m. until 1 a.m.
Summer And Smoke Stirring Success

by Chandey Lackman

To pitifully small audiences for a university with over 12,000, lay students the UC University of Cincinnati Mumme~s as "Summer and Smoke" last weekend. The demands of a straight' veekend. The demands of a lay students, the UC Mumme~s Alma and Johnny as children.

The set was absolutely great! one of the best I've even seen at UC. It was appealing, well-suited to the story, and well-constructed. I'm really looking forward to more of these! Just to get my hat (at least for a week) dig in at the Jack of the Mumme~s Guild is the only interest among UC students, I must close with these thoughts: theatre organization on UC's cam-
pusk. It should certainly be of interest to students because it is entertainment produced through the efforts of fellow students. If students won't support this, I be-gin to wonder what they will sup-port. Judging from the attend-
ance at "Summer and Smoke" (perhaps with the exception of Satur-day) Bob Schumacher's Apatry Club should have an over-
whelming membership!

Browning At CSO

The Symphony Concerts this Friday afternoon, November 27, and Saturday evening, November 28, at Music Hall will feature pianist John Browning playing Samuel Barber's First Piano Con-

The World Premiere with the Hosten Symphony at Lincoln Cent-
er in 1952 was described as one in the history of American music, and much of the excitement was of the most spectacular triumphs generated by the brilliant per-
formance of John Browning.

Shaping the spotlight this week end, will be poised young asso-
ci~ate conductor of the orchestra, Ronald Ondrejka, who will also present Bartok's Suite Number Two and Rachmaninoff's Sym-

Phenomenal Dances.

GILLIGAN

Congressman-Elect John Gil-

ligen will speak on campus

Tuesday, Dec. 1 at 1 p.m. in

Annie Lewis Auditorium. He

will speak on his intentions in

Congress. A question and an-
swer period will follow his

speech.

Musically-Inclined Bakers Present Mozart Concerts

Miss Mary Baker, musical di-

rector of the Baker family, an-
nounced today that this musical organism would open its 1964-

1965 season with a pair of all-

Mozart concerts.

The first will be presented at

Annie Lewis Auditorium, Uni-

versity of Cincinnati, sponsored

by the University's Student

Union Organization, at 12:30

p.m., Thursday, December 3. The

second will be presented at the

North Street Baptist Church,

sponsored by that organization,

at 7:00 p.m., Sunday evening, December 6. The public is in-

vited to both concerts.

The Baker family has been concertizing since 1952 when Dr.
Baker joined the faculty of the University of Utah. Since that time the family has pre-
sented some one-hundred con-
certs in Salt Lake City, Utah;

Detroit, Michigan, and Cincin-

nati.

Mary Baker, noted, however,

that just in the past few years

the family members have re-

ached a degree of musical so-
plication that permits them
to play the original scores of the greatest chamber music ever composed.

The Baker family presents an all-Mozart program, a string quartet, a string trio, a brass trio, brass quartet, brass quintet, and various combinations of strings and brass.

The all-Mozart concert will fea-
ture the great "Ave Verum" ar-

tanged for two choirs, string and brass. Soloist for this pair of con-

certs will be Mary, who will play the Concerto No. 4 in D Major for violin, K. 218; Carolyn will accompany her. The string quartet will play the Quartet No. 12 in G Major, K. 387, and the string trio will play Trio No. 4 in C Major for violin, trombone, and piano.
"110 In The Shade," another big surprise which David Merrick pulled out of his hat in the form of a Broadway hit, comes to the Shubert Theatre for one week only. The show opened November 30, 1963 through December 5th. "110," a musical adaptation of N. Richard Nash's "The Rainmaker," opened on Broadway October 25, 1958 and has enjoyed a popular reception ever since.

The cast coming to the Shubert features a list of talented and well-known artists, several of whom starred in the original Broadway cast: Jeanne Carson, popular for many years as a star of movies and television, costars with her real life husband, Biff McGuire. McGuire's role, it might be remembered, was played on Broadway by Robert Horton and later by Ray Danton and is in effect the title role as he portrays the "villain turned good guy," Starbuck. Also featured are Will Geer, Scooter Laing, Charles Scott, and Leslie Warren.

This is an appealing story, taking place in a drought-plagued western state, of how a moment of transient love changes an ugly and games will follow. For any of their interests, not only does the program feature campus news, but it also features UC students, WSAI in cooperation with the Radio-Television Education Department of UC is presenting this series on their station each week. During the hour, experienced WFTV students operate the entire station. The student team operate the program in three-week cycles; following this, other students are given the opportunity to participate. Preference is given to upperclassmen and teams are chosen by audition.

YAYNÉE SWINGS AT CHANUKAH
Yaynê invites you to a Chanukah Party at Hillel House, 7:30 P.M. Monday, November 30. FREE ADMISSION Is offered. Rabbi David J MEDIA will discuss THE CHANUKAH BUSH. Songs and games will follow. For any information call Bernard Fish 331-4965.

HILLEL LUNCHES AND SERVICES
There will be no lunch or services on the Friday of Chanukah Weekend. The last lunch of the quarter will be on Friday, December 4th at noon. The final Friday Evening Services of the quarter will take place at Hebrew Union College, 2015 36th at 8:15 P.M. on the 6th. All are welcome. Omer Shabbat will follow.

110 In The Shade' Opens Monday Night At Shubert

Scoccer League and Leslie Warren star in "110 In The Shade." Schmidt. The direction is ably entrusted to Joseph Anthony who directed such hits as "The Most Happy Fella," "The Dark," "The Matchmaker" and "The Merry-go-round." The settings are designed by Oliver Smith with the costuming by Morley.

"110 In The Shade" is already known as a milestone in the musical comedy theatre and is quickly on its way to giving Merrick his second sell-out in three weeks in Cincinnati. Many people were disappointed when they tried to get tickets for "Oliver" and found they were too late. All signs indicate that this will be the biggest year ever in the history of theatre in Cincinnati, and those who wish to see this show had better get their tickets soon. Performances are at 8:30 p.m. with matinees on Wednesday and Saturday at 2 p.m.

WSAI Features Students
by Bob Bingle
Each Sunday morning from 7-8 a.m. UC students can hear a program geared especially to their own interests. Not only does the program feature campus news, but it also features UC students. WSAI in cooperation with the Radio-Television Education Department of UC is presenting this series on their station each week. During the hour, experienced WFTV students operate the entire station. The student team operate the program in three-week cycles; following this, other students are given the opportunity to participate. Preference is given to upperclassmen and teams are chosen by audition.

Two-wheelers Get Designated Space
Motorcycles, motorbikes, and motor scooters may be parked in either of the two areas on the periphery of the campus.

One area is on the north side of University Avenue between Snake Road and Woodside Avenue.

The second area is on the south side of the campus in the area bounded on the east by the steps from Gym Road to Calhoun Street, on the north and west by the Gym Road sidewalk, and on the south by the Calhoun Street sidewalk.

John Stephen Mathis, A&S, '68, has been awarded the Walter H. Bucher scholarship of $300. The scholarship is presented to an incoming freshman in A&S who plans a career in geology and who has demonstrated high scholastic ability. Mathis graduated from St. Xavier High School in 1964.

Mr. Small went on to explain that the UC Fund drive is the largest telephone campaign conducted by any university in the world, and that UC is a pioneer in this method of soliciting. Because of the tremendous success of the drive in Cincinnati, telephone drives are now being organized all over the country where UC alumni clubs exist.

Almost all of the 350 people working on the drive turned in a score sheet of pledges, and after the sheets have been checked, the winners of the television sets and the clock-radio will be announced. The prizes were donated to the drive by the Knodel-Tygrett Company.
