Forum Demands Own Member To Replace Collins on Board

Thursday, about forty students marched on to the Administrative Building to present a demand asking the master of the ceremonies, Vice-President, Bob Collins from the Board of Directors and demanding that a replacement be elected by the Student Forum. The students were part of the over one hundred attending last Thursday's CRC Forum which voted to elect a representative to the Board of Directors. The proposal was in reaction to the appointments of student body President, Glen Weissenberger along with Collins to the Board by UC President Walter Langsam. Student representation on the Board of Directors was one of the four initial proposals of CRC last month.

An Answer Within A Week Langsam told the group that he would have an answer within a week and before the next forum to the student's demands. There were no further incidents.

Thursday afternoon, Bob Collins accompanied A&S student James Finger announcing the formation of a "High Committee" which will expand the CRC's fourteen point platform for the betterment of campus life. The committee will attempt to construct a formal agreement for members of the Faculty, the Administration and the student body to implement them.

The committee is to be composed of Finger, other members of CRC forum, Weissenberger, other members of the Senate, as well as faculty/administrative personal.

The forum also heard discussion concerning the "apathy" of the student body and its "inability to organize" as compared to the Greek system. Student Rolfe, between that for volunteers to "educate and organize the dorms in the field of student rights and student self-government.

"The main objective is that the students decide for themselves on all issues including, housing, finances, and finance," stated Weissenberger.

After passing the initial resolution of electing a representative to the Board, it was proposed that if Langsam didn't react satisfactorily then there would be student sit-in at the next Board of Directors meeting. This issue passed by a narrow margin.

Stu's Delayed.

But before this bill was even "dry," another recommendation was brought to the floor and passed overwhelmingly to "suspend any action till they have an answer from President Langsam."

It was announced that election of the "High Committee" will be held this coming Thursday at the next CRC Forum. The meeting then adjourned to prepare anything to the administration building.

Israel Speaker Presented By Hillel; Talks On War, Land And Settlement

David R. Rosner

Last Thursday and Friday, the Hillel House presented Mr. Gavrush Nechushtan, an Israeli, who is currently the resident intellectual at Oberlin College, where he is an advisor in Sociology and Hebrew. He was the main speaker in the Israeli Program Day.

Gavrush was born in Israel and has spent most of his life on the Kibbutz Yezreel. A kibbutz is a communal farming settlement. Gavrush's kibbutz was settled before the War of Independence in 1948. It is located in an area which until the War was only a few hundred meters from the Israeli-Arab border. The kibbutz is in the Valley of Jezreel, Gavrush is 20 years old and married. He is a member of the Israeli infantry and is the former director of UL Pan, which is the intensive Hebrew training program for immigrants.

"Our generation was brought to Cincinnati by Mr. Paul Fingerman, who is the campus representative for the American Zionist Youth Foundation. Paul related to the NR that Mr. Nechushtan had quite a trip before arriving in America. Gavrush was on the El Al flight 513 which was attacked by Arab terrorists in the Athens, Greece airport. The Israeli's recalled for this by bombing the Ben Gurion International Airport. The flight had to land in Athens and the Athens passengers got off. Others got on, and the engines were starting. We were just ready to take off, (taxi) when I heard a thump, and then a quiet boom. (two grenades were thrown into the plane engines) I looked down at the ground through the window, and saw the Greek engineers jump to the ground. The people in the plane were hiding their heads.

Inside Story

Two "hippies", and a Deputy Sheriff discussed for an hour the problem that has been a thorn on both sides for the past few years.

David Ernst, representing the hip philosophy, and Don Howlett, representing himself as a nonconformist, accompanied by Deputy Sheriff Willis from Hamilton County about the gap between the policemen and the hip community before an audience of over one hundred people.

Ernst cited the lack of communication as the basic problem between the two parties. The absence of the Cincinnati Police, especially those from District 5, illustrated his point, stated Ernst. The Cincinnati department, and their policemen asked to participate on the panel did not "want to get involved in the middle of anything."

Three experts in the audience from the police training program at the Convocation in Wilson; told the NR that the police has Calhoun Street and that the slim file was actually filled with minor cases. Ernst replied, "This lack of communication has been helped by men like Shotletkoie and Wexler who have overblown the whole thing. The media has done a job of playing up the administration building.

All - University Convocation

The furnishing of the Gamooren lounge area was completed shortly before the beginning of second quarter for the refurbishing of the area.

In an interview Friday, Richard J. Towne, Assistant Director of the Tangeman University Center told the NR that the park bench on Calhoun Street had not been placed in the Gamooren lounge "to frighten anyone." The benches had been part of a planned decoration scheme that would have turned the Gamooren lounge area into an outdoor park.

Mr. Towner, who is in his first year at the University Center post, said that he has been aware that the area was used as a meeting place by blacks. He mentioned that at the time the decision was made to remove the benches the gamooren was made, so blacks were on the Space Allocation Committee.

The benches were furnished by the University by the Cincinnati Park Board. It was not known if the benches were in such bad condition until they had actually arrived at the school. Mr. Towner's committee was informed by the UBA that the blacks were disturbed by the benches.

Mr. Towne is then invited two members of the UBA to join the Committee. The committee then had the benches removed from the lounge.

A Fifth-year design student was appointed by the Committee to draw up new plans for the lounge area. The proposed plan calls for a basic motif of red and black incorporated into a sports theme. Also included will be a display case for trophies from the Academic Department. The furniture is intended to be as functional as it is decorative.

Mr. Towne said lack of funds had held up the redecorating of the area. He said that there was not enough money at the end of last year to complete the work at that point. The old furniture was placed in the old lobby after being recovered, Mr. Towner thought it less costly to replace the furniture from the area than to have to constantly renovate it.

The furniture was bought by bid from Ramsey's Furniture on January 1, 1969. Delivery was promised in sixty days. Being delay, it should arrive by the first week in March.

TALKS DEADLOCKED
Rosemary Haddad

Backstage Talks in Paris

Paris: Reliable sources report secret sessions being held between the United States and North Vietnam during the apparently deadlock Paris Peace Conferences. Both delegations have been known to shun the public eye and restore meetings, UPI reports.

The current deadlock at the Paris talks centers around whether priority should be given to political or military matters. The Allies want to settle military matters first; the Communists are insisting that the delegations talk political first.

Work on ABM System Halted

Washington: A partial halt has been put on the development of the Sentinel Anti-Ballistic system. Cost factors and the possibility of using other means to defend the country in the event of enemy missile attack are given as reasons for the deferral.

West Europe Bloc

Luxembourg: United Press International reports the possibility of the formation of a political bloc composed of Britain, West Germany, Italy, Belgium and Luxembourg. At a meeting last week the foreign ministers of these countries decided to coordinate their political policies.

NIXON TO EUROPE

Washington: In order to "strengthen and revitalize" U.S. relations with its NATO counterparts, President Richard Nixon will leave February 21 for a five-nation tour to Europe. The White House reported that the President plans to meet with the U.S. negotiators at the Paris talks. He also wants to have face to face talks with the heads of each of the governments of the NATO countries.

LABOR ACT CHANGES NOT PROBABLE

Washington: Changes are that the Taft-Hartley Act will not be amended in order to deal more effectively with national labor problems. The principal cause of any changes, the unions that once one change is implemented, there would be no stop to new legislation unadvantageous to labor.

Non-violent Middle-East Settlement Possible With Aid From Big Four

(Continued From Page 7) (ducking) and I stretched to see out the other side.

Pa:,t: Where were you sitting? I was sitting near the back of the plane, on the other side from the attack, so I couldn't see anything there. Then I heard sub-machine gun fire and then it stopped. Two men ran out from the plane, and as they ran they got into the Greek army and got on the plane. It happened so quickly I couldn't react, or feel afraid... .

"We waited about eleven hours till the next (B 11) plane came. It was a Lufthansai New York flight that had been changed to stop in Athens. It was mostly full of investigators and engineers, who got off there. We got on the plane and came to New York."

On Thursday evening, Mr. Nechushtan was interviewed by this NR reporter. He made it clear that the answers he was to give were his own opinion. The interview went like this:

NR: What part did you play in the 1967 Israeli-Arab War? The attack, so I couldn't see.

Gavrus:...As I said before, peace agreement can be achieved only by compromises which are give and take. We were forced into the last War which put us in the position of where we found ourselves conquering Arab territory. For myself, I would like to see most of it being returned or given to Palestinians, who are the real citizens of this land. No doubt that Israel should argue for the land that has been taken.

NR: What should be done with the land that has been taken?

Gavrus: I was sitting near the back of the plane away, because in case of attack we had to be the reserve army and defend Israel.

NR: Is the settlement in the Middle-East possible?

Gavrus: Yes, definitely without violence.

NR: What are the possibilities?

Gavrus: I am speaking for myself and many other Israelis that any solution which was given until today by any of the partners in the Middle-East or Outsiders contains with them very basically almost 'what the peace in the Middle-East needs to have—more so, I believe that the entire population in the Middle-East except for a limited number of people wish to find themselves in a good neighborhood with real peace. After meeting and talking personally with several Arabs stationed on the West Bank, I know that there is no difficulty to change policy and to convince the whole population that Israel and the neighboring countries can live in the area by real cooperation and establish a very successful and beautiful neighborhood.

It was brought out that the police haven't covered more than they have on Calhoun. The hip community only objects to certain laws "that are absurd, and as those on marijuana."

Another problem which causes trouble on Calhoun is "the straight people causing disturbances and the pseudo-hips. When a girl from the audience at the forum began shouting about a disturbance on Calhoun Street it was generally felt that because of the absence of the Cincinnati Police, the hip community only objects to certain laws "that are absurd, and as those on marijuana."

Why does a perfect size 7 look perfect only 21 days every month?

It has nothing to do with calories. It's a special female weight gain... caused by temporary water-weight build-up. Oh, you know... that uncomfortable full feeling that sneaks up on you the week before your menstrual period. This fluid retention not only plays havoc with your looks but how you feel as well. (It puts pressure on delicate nerves and tissues, which can lead to pre-menstrual depression and headaches, leaves emotions on edge.)

That's why so many women take PAMPB. It gently relieves water-weight gain to help prevent pre-menstrual puffiness, tension, and pressure-caused cramps. PAMPB makes sure a perfect size 7 never looks less than perfect. Nor feels less than perfect, either.

Setting Things Straight

By now most of us who are at all interested and concerned have a pretty good idea of what happened during and after last Thursday evening’s Forum. Those who read the regular and special proceedings, that the positions of Student Body President and Vice-President necessarily result, because of the closeness with which the two positions must function in a limited number of persons and students-alike — and work almost exclusively in certain well-defined channels, it felt that differences between the candidates might not be given adequate voice. Although the election of these two officers is, in theory at least, by the student body as a whole, the tendency at election time to receive the view of at least one of their candidate’s positions. The Forum was a success in that the desire for peace was not isolated to the participants in the March. If only everyone would give of themselves and become actively involved in the discussion and criticizing, we would see the movement grow.

MISINTERPRETATION

Sir: Just as Mr. Hewan found it necessary to misinterpret Buckley’s speech,(NR Jan 31) I feel that we must state my misinterpretation of the speaker’s remarks.

Mr. Hewan stated, “In response to a question involving students helpline, Mr. Buckley, in my opinion, misinterpreted the future. To me this sounds like a conspiracy which has occurred in the March. The students who will be representing the student body must be willing to think of the country’s needs first. It seems that the possibility of something of which Mr. Hewan seems improbable.

Clifton Hewan

SECOND OF A TWO PART SERIES

History and fundamental, repeated itself over the centuries, ing engrossing occurrences vitally important to all of us. Even in this thought in mind, it becomes clear to us that the power of a nation. In his argument, he points out the catastrophic effect that can be felt by all of the people of America and those who are, living a little bit higher in the Jewish faith are at the crossroads. In essence, they are at the point in history at which it must be determined whether as a unified body they will withstand the efforts of those who would destroy them. They will withstand the efforts of 1. The Times Magazine, in an attempt to bring the public to the realization of what it termed the “emergency of Black anti-Semitism” published the following paragraph: “The black men have been steadfast and firm in their attitude toward the African American people and those who wish to destroy them. It is the duty of all of us to stand up for what is right and to work for the benefit of all. The Black community is strong and united.”

The Black community must be united to prevent the destruction of the black man’s struggle for true equality. Cities Need Federal Aid, States Urban Director At DAA Lecture

by Kathy Walsh

Unless the Federal Government lends a greater hand in the future to the some 5,000 cities undergoing Urban Renewal, these cities are going to die, declared Mr. Cox, executive director of Norfolk, Virginia Rebuilding and Housing Authority. "We are going to your advisor on Thursday evening in Alms 100. In the fourth of the College of Design Art and Architecture's winter-spring lectures, Mr. Cox, executive director of Norfolk, Virginia Rebuilding and Housing Authority, reviewed the success of Urban Redevelopment Programs. He also discussed Norfolk as an example.

Urban development has been a federal project since the early 1930's originally as part of the RFC as a public works program. It was not until after World War II, however, that the Federal Government realized the real plight of the American City. Through constant emphasis on the fact that the government must put more money into these programs for further growth. Growth in environment, and institutions that make this a better place to live.

GAYRUSH NECHUSHTAN gives Middle East situation.

Letters...

(Continued from page 4)

matter. Graduation is a no-no for you. Whose fault is it? Yours? Your advisor’s? Does it matter? You keep going over it and over it in your mind, “We went over my records, everything was fine, graduation was on its way, my advisor said so . . .”

A mistake is made, apologies fly back and forth and you are told that it will only take one quarter in summer school to make it up. Now that isn’t so drastic, is it? Sure it isn’t, if you’re not the one who has to keep feeding money into this University’s vast pit, if you’re not the one who has to waste time here for a damn mistake.

Why I’m trying to say is that we all should take some initiative and not let some close date to our “addending” departure from the University go to your advisor twice a week if necessary and constantly go over your records. But the most important of all pertains mainly to seniors; no matter how Federal Government may have the tendency to become swamped with notes stating the quarter and year of your graduation.

Spring is close by, seniors, and it is a time of fun. Wouldn’t it be nice if your situation was held up because just a “tiny” mistake was made? If this sounds ridiculous, ask my roommate - it happened to her.

Lack Of Serious Crime Generates Satisfaction With Campus Police

by Eva Bilski

Everyonewho has seen the man in the uniform checking parking decals, writing out tickets, and everyone has silently cursed this man as a campus cop. Everyone has been wrong. This man is a parking attendant—not part of the campus police force, whose duties encompass more than writing out citations for parking violations.

The duty of the campus police, under the supervision of retired Cincinnati police lieutenant, Mr. Paul Steuer, is "to protect lives and property so that students can do-learn." The campus police try to do this through protection and prevention rather than apprehension.

The campus policemen are a functioning police force, each man having been qualified and commissioned by Ohio law, in the same manner as the city police. Both city and campus police work under Civil Service and have the same authority. Actually, campus policemen are part of the city force.

To facilitate effective patrolling, the campus area is divided into three zones: zone 771 (west of Stadium Drive), zone 772 (central section), and 773 (dorms and Medical College). A minimum of five policemen keep these areas under constant surveillance, relay messages continuously between each other, the office, and Station X—the city communications center.

The men work in three 8-hour shifts, adding men to each shift according to need. Aside from the men on duty, there is also a supervisor for every shift and several night watchmen.

The campus policemen work on a basis called selective assignment, being assigned as problems occur. All violations are recorded on a spot map, classified according to type of offense and in which building on campus. If a certain offense occurs in a certain building more than once, surveillance is increased in the problem area.

A typical police report, a night shift report which began at midnight, revealed that between 12:10 a.m. and 2:00 a.m., six buildings on campus were inspected. Unlocked doors were corrected and anything unusual was looked into and noted on the report. By 4:00 a.m. the reporting policeman had finished his initial rounds and had begun them all over again. Although campus police can make arrests, there is little need, as there are no outstanding offenses or problems on campus.

Petit larceny—of books, purses, coats—seems to be about the largest problem encountered here. Assaults have been minimal recently, with only two or three occurring within the past year on campus. Unfortunately, UC gets all the publicity for Calhoun St. and bar assaults.

How would you like to break into banking?

For an entrance into the fascinating world of finance, legitimate, of course, come talk to the Detroit Bank & Trust man. He'll be on campus soon to tell you about the many career opportunities available to Business and Liberal Arts majors.
Some people are starting to delve into their personal experiences undetected during the Cassius Clay reign that boxing is in a deteriorating state in the United States. Although it is true that sequestration is the inevitable result of boxing, they are subtly diametrically opposed, are we finally becoming reviled by the deliberate mayhem committed in the ring in the past. Various newspapers argue that the very nature of the sport itself is revolting, do the federal government talking about the "American Sportswriter" is the "Sport" or those involved "sportmen" when it is preoccupied with sex life?

Although these feelings were waning about in the American psyche since October, a recent poll indicated a solitary statement. "I was his daddy," those feeling never surfaced till Clay's ring arrival. Clay's 1964 European professional wrestling. Many people were appalled at his bout with Zora Folti, where he comedic, agile fighter, a deadly array of dances, imitations, tasteless flaunting, and a vulgarity only being pug fighting in the gym's own.

Let's hope that they can shoot the ball with no blemish, we were well-equipped in both. However, are the same people who, no more than the next, the same people who was also taken attack by Jack Dempsey's trademark in the Twenty-fifth. And if so, does it require a beating to spur their emotions into nervous denouncements? One must look for consistencies in the movements; and, frankly, none can exist. One can level condemnation on a sport because Boxer A bouts his way rather than boxed his way to victory!

Interestingly, Cassius registered few knockouts, yet it was during his reign that the boxing was so booming. When Clay disassociated himself with the world of boxing by deciding to remain stationary against all odds, his words were not executed in the waging problem of a successor. The World Boxing Association decided on the elimination tournament which would achieve someone with Clay's legacy; and, hopefully, one who could at least successfully "take" the opening. They staged a tournament which, needless to say, ended in mismatch, losses, innumerable withdrawals, quitting, appeasement and refusal. Ellis, almost unheard of even by the abolitionists, with his small frame and almost insignificant appearance was not a very exact model for abolishing a boxing, and so you have boxing at the low ebb it maintains today.

Joe Frazer, recognized in a few WBA-les states as the true champion, leads his fame to the inextinct state of boxing affairs today. Looking like a man on the mountain top, yet who can see the faults in the situation? His status is questioned in most states and these divisive forces in boxing are making it more difficult for the abolitionists to push a unique solution for the democratic appeals.

Feb. 3, featured bout at the burden between George Chuvalo and Buster Mathis ended in a bloody, but still standing Chuvalo and with a triumphant Buster Mathis sharing the now-failed round of reform. WBA commissioner Abe Greene, moved by the bout, (certainly this can't be stated foot-first he's seen Chuvalo or any boxer, for that matter, bloodied in the ring), declared the bout "a victory." The Canadian fighters should be encouraged to quit. Criticism was heaped upon the ring official for allowing the fighters to go on; upon Mathis for his beastial behavior; and, finally, on the replacement official.

It is significant that Commissioner Greene too has been influenced by the abolitionists' recent advances on the subject of boxing. He still holds a position that even the worst of boxing is better than it was, but it is also significant that the abolitionists have been able to sell the idea that boxing is better than the abolitionists, Cleveland Amory, and Gentle Ben.

Exercising the prescribed movements under the pressure of a midway ring, and the boxers; a winner. A season's final at Northern Illinois and Ball State was the only way of the Greece; the gymnasts were sub-par in their efforts, thereby dropping both meets and evening their season record at three wins and three losses.

Coach Gary Leitgeb termed the night "a victory" for his team, "we failed to properly execute our routines." The young coach also felt that our score place in the meet,一角 although the coaches, the gymnasts, George and others, missed the match from the title in the Mo. However, another "victory" can be pointed out that with only four meets remaining the Bears are far from being mathematically eliminated from the title chase in the Mo Valley. Anyway, the Bearkittens did not expect to have the match go on; upon Mathis for his bestial behavior; and, finally, upon poor Chuvalo for his obstinacy.

"The Redskins had one secret weapon which even they probably didn't expect to have a reference. One of the UC players complained afterwards that he was fouled every time he brought the ball. Another player commented afterwards that the referees were very lenient to the Bearcats. The referees were very lenient to the Bearcats. The referees were very lenient to the Bearcats. Miami was able to play a tight defense, without the worry of being called for fouls.

Rebounding was the key to Miami's success. They outrebounded by almost two to one. They seemed to want the score, and they got it. Though their field goal percentage was lower, the Redskins were able to take considerably more shots than UC.

"The Bearkittens one bright light domination by the UC quintet in the latter part of the half, was the foul trouble that plagued such big-rich Jones.

After Roger Walk and Tom Sloane were finished picking up another four points for UC in the 100 yard freestyle, the formidable Redskin Rowsomes continued their attempt. The Redskin Rowsomes were still the most successful in the 200 yard freestyle, with more than 12,000 spectators in the stadium. As the Bearcats' victory with three bunched mermen finishes.

It was quite clear that the Bearcats were not using power from that Bearcats fans should be witnessing in the future. The Redskiness defeated Schodt to the finish and finished first in February. The winning exhibition, finished a strong third to propel the Bearcats to a 54-25 lead.

The exhibitionists continued to dominate the meet, and Tom Sloane was third in the 500yd. He was also fourth in the 200yd. The Bearcats, best of all, were fourth in the 100yd. The Bearcats best of all, were fourth in the 100yd.

The Bearcats scalped their way to a dominating win. The Bearcats scalped their way to a dominating win. The Bearcats scalped their way to a dominating win.

NTS Downs Clawing Cats 94-74 Ends Cincy Hopes For MVC Title

by Richard Katz
Sports Editor

Flying sky high last Thursday night and doing a very admirable job of hijacking the Bearcat soaring basketball machine the North Texas State Eagles lashed out and scored an impressive 94-74 win that eliminated the UC quintet from any hope of winning the MoVal crown.

Utilizing a lighting fase break and a devastating zone press the Eagles disrupted the usual Cat cool on the hardwood and outscored the Bearcats from the very beginning.

From the very outset the Eagles showed that they were not going to make things easy for the Cats who had won the first meeting between the two clubs back in January at the UC fieldhouse.

The Eagle press forced the Cats into six turnovers in the first two minutes of the contest and from that disastrous point the Cincy roundballers were never able to get any closer.

With a little over twelve minutes remaining in the initial half the Eagles had run up a 29-5 lead, one that no one including the Cats could make up -in the antiquated NTS gym.

Though they tried valiently to slice the margin Tay Baker's crew was unable to break the death grip applied by the Eagles. With their sticky defense the Eagles forced numerous turnovers that totaled 26 by games end.

The Bearcat defense itself forced 19 North Texas turnovers but it was too little too late.

However, the turnovers didn't really tell the whole story. The Eagles shot their way to victory in one of the finest shooting exhibitions ever witnessed in Texas.

Joe Hamilton, NTS's fine shooting guard hit on 12-20 from the field to lead his squad with 28 points. But it was not him alone, because the entire Texas team hit an amazing 52% from the floor.

The Cats on the other hand were led by Jim Ard's 20 points, followed by Don Ogletree with 14 points. Rick Roberson was the only other Cat in double figures as he added 11 to the losing cause.

The win for the Eagles was only the third they have mustered over a Cincy quintet in 24 games. The previous two wins were each by one point, and both came on the NTS floor (which is another story in itself). This was by far the biggest win over the Cats that the Eagles have ever registered.

DON OGLE TREE SOARS high to lay in two points.

BIG B JOCKS DAVID LEE THOMAS AND CHUCK HALLAU TAKE CARE OF BUSINESS WEEKENDS ON WFB. IF YOU DON'T BELIEVE US ASK JUDY COMER.

Rip up our instructions on self-defense.
After all, it's Valentine's Day.

Normally, we insist that every man read the instructions on self-defense that we put in every package of Hai Karate® After Shave and Cologne. But we've got a heart. So on Valentine's Day, we'd like every woman to tear our instructions to shreds. That way you can give your guy Hai Karate, with some instructions of your own.
Hai Karate—be careful how you use it.

UC Places Used In Irish Tourney; Barrett And Keller Score 3 Wins

by Lee Moones

Taking part in the Conrad Invitational Track and Field Meet at Ashland College this past Saturday afternoon, the University of Cincinnati indoor track squad experienced misfortune in the three-team invitational meet.

The Bearcats finished third in the meet but in so doing managed to break two Conrad Field House records. The Bearcats were also able to effectively test their times on a foreign track.

There were four Cincinnati winners among the competitors who registered impressive times as well as victories. The Bearcat's Chuck Roberts galloped his way to a record one minute, 10.8 second six-hundred yard run. It was an added laurel to the array

UC Thinclds Finish Third

of rewards Roberts has gathered. Roberts' impressive finish was recorded by the Bearcat relay quartet who broke the second Conrad Field House record, clocking a record 3:06.8 minutes for the 1600 yard relay team event.

Jim Callaway doused his way to first place victory in the 1000 yard run. Mike Weisenborn also captured a first in the broad jump event and teammate Bill Born finished first in the high hurdles for UC.

Disappointing as the meet was, the squad still has been recording quicker times as the season progresses. The few individual accomplishments at Ashland College could be indicative of the future and its promises.

INNTER CIRCLE

2621 Vine St. Cincinnati 281-3956

Drama Students

It is my pleasure to report to the drama students of UC that the first of a three part series on the workings of the department will appear in this Friday's N.R. Paul Edlidge and Dudley Sauve have both consented to openly discuss the department and will, I hope, "enlighten" us further. More important to the success of the series is the opportunity of the drama students themselves. Please express, in any way you can, your feelings on the value of the department to you as a student and send your feelings to the NR office at once. I would appreciate any comments your feelings might make to the department and hope to see more clearly the underlying feelings of the students. You may withhold your name if you so desire and further, you may call either the News Record office or Kockritz at the piano.

LaSalle Quartet at CCM

UC College-Conservatory's world-famed LaSalle Quartet will play Beethoven's "Five Movements," Opus 5; Mendelssohn's "Quartet E-Flat Major," Opus 12; and Schoenberg's "Quartet No. 2." In the third concert of its current series in Corbett Auditorium this Tuesday, February 11, at 8:30 p.m.

Tickets may be purchased at the door or reserved by phoning the UC Center Ticket Office, 475-4553.

VERSININ (John Seito), the dashing colonel in Anton Chekhov's "The Three Sisters," thinks pensive of his future in Russia, and his love for Masha, who returns his love although both are married. The Edgecliff Theatre production opens Feb. 13 and runs through March 8. Performances are Tuesday through Saturday at 8:15 p.m. and Sunday matinees at 2:30 p.m. For reservations call 281-5533.
