Students under 21 are unhappy about being forced to live in the dorms.

The Residence Hall Coordinating Office has processed at least 400 special requests for release from dormitory living, according to Miss Moore, residence hall counselor. The requests are received for various reasons, but most students released were financially hurting or just simply desire to live elsewhere.

The next (Continued on Page 2)

COUNCIL HEADQUARTERS, CINCINNATI - A special Student Senate meeting was held on Wednesday afternoon to discuss student housing problems. The Senate was meeting to discuss the new housing regulations that were implemented this year.

The meeting was called to order by President John Schneider, who welcomed all those present. Schneider then read the new housing regulations that were implemented this year.

Miss Moore, residence hall counselor, informed the Senate that the Residence Hall Coordinating Office has received 400 special requests for release from dormitory living. Most students requesting release were financially hurting or simply desire to live elsewhere.

The Senate was then informed that the University's Housing Office has released 400 students from dormitory living. The releases were due to various reasons, but most students released were financially hurting or simply desire to live elsewhere.

The Senate was then informed that the University's Housing Office has released 400 students from dormitory living. The releases were due to various reasons, but most students released were financially hurting or simply desire to live elsewhere.

The Free University

Variety and Knowledge in Courses Offered

by Judy Piket
Ar. Staff Reporter

The Free University, UC's student initiated series of courses, is offering five credit hours in six courses. The fall semester is scheduled to begin the second week of October.

The Free University is a branch of the Undergraduate Program Committee. Barbara Williams, (A&S Senior) Chairwoman of the Free University Committee, announced the list and description of courses to be offered fall Sem.

A seminar entitled "World and Peace" will be offered on Tuesday afternoons. Practical thinking regarding the environment is the objective of the course. The Afro-American Woman's Liberation Group will conduct a series on the Women's Liberation Movement. Subjects such as women's roles and women's positions in the world today will be discussed.

Another class entitled "Special Frontier," will study to find a working definition of human assembly. A Sciency offering, it will be one, is a class in scientific cooking, which will include lectures as well as actual preparation.

A motorcycle repair workshop rounds out the curriculum.

Information concerning the exact time and place of classes will be published in the Free University pamphlet, available next week in the University Center.

Courses are open to anyone in the community. No organization is required prior to class attendance.

The Free University Committee would like to offer more courses and also see more people attending the courses.

Said Min Williams, "We usually have only about 10 people participating in the program." The reason, she believes, is that people aren't aware of what the Free University is.

Some who would like a specific course offered or who would like to teach one, she said (candidates need to specific qualifications) should contact her.

The program originated 2 years ago by a group of students who suggested scheduling a class on draft information.

Chimes Repaired; TUC Clock Rings On

The clock on top of TUC has been repaired, permitting the time into the classroom since 1972. The bell squad must stop every quarter hour, give five minutes before the bells of Saint Joseph's Church and Union College, Miss Virginia Woodburn, physical plant/employee, claims the University clock is correct.

Every day, at noon and 3 p.m., the university's Alma Mater is chimes. During the holiday season, the Clifton community is treated to a chimed. Twice daily, at noon and 6 p.m., the university's Alma Mater is chimes. The chimes are recorded and operate electrically, but may still be played manually with a keyboard that exists in one of the janitor's closets in the Clifton building.

Maintenance men make periodic trips to the tower to make sure there is functioning properly. As taught by Maharishi Mahesh Yogi

Transcendental meditation is a natural spontaneous technique which allows one to transcend the conscious mind and improve all aspects of the introductory lecture Tuesday, October 5th

Go Greek!

The biggest single event this week was undoubtedly the sorority recruitment. Although the largest in the country, the Greek system is but one aspect of college life. It is a complex web of overlapping organizations, each with its own degree of sophistication. It is a world of its own, a world where one can look for a place where he or she can best fit in. The sorority recruitment process can be quite daunting for some, but for others, it can be a positive experience. The key is to find what works best for you and to make the most of your college experience.

The Greek system is a unique and important part of college life. It provides a sense of belonging and community, as well as opportunities for personal and social growth. However, it is important to remember that the Greek system is not for everyone, and that there are other ways to find a sense of belonging in college. Ultimately, it is up to each individual to decide what works best for them.

Racism in America 2

The Seeds of Inequality

Jeff Isselby

The seeds of inequality in America run deep, and they are woven into the fabric of our society. The roots of this inequality can be traced back to the earliest days of our nation, when the principles of equality and liberty were enshrined in the Constitution. However, these principles have not always been applied equally to all Americans, and the legacy of inequality persists to this day.

The first step in addressing this inequality is to acknowledge its existence. It is important to recognize that the system of racism that persists in America today is not the result of individual hatred or prejudice, but rather a systemic issue that has been shaped by centuries of social, political, and economic factors. By acknowledging the existence of inequality, we can begin to work towards creating a more just and equitable society.

The second step is to educate ourselves about the history of inequality in America. This includes understanding the ways in which racial and ethnic minorities have been marginalized and oppressed, as well as the ways in which they have fought against these injustices. By learning about the past, we can better understand the present and work towards a more just future.

The third step is to take concrete action to address inequality. This can include supporting policies that promote equity and inclusion, such as affirmative action, as well as working to support the communities that have been most adversely affected by inequality. By taking action, we can help to build a more just and equitable society for all Americans.

The fight against inequality is not easy, but it is essential. It requires a commitment to education, a commitment to action, and a commitment to each other. Only through collective effort can we hope to overcome the legacy of inequality in America and create a future that is truly just and equitable for all.

After the Smoke Clears...

The Private i

William Rubin

The Private i—admitted—one had to be enlightened, or at least familiar with jargon, to understand the content. Perhaps it's the idea that something so seemingly harmless could strike such a chord. How do you explain the idea of a private i to someone who has never heard of it before? Perhaps it's the idea that something so seemingly insignificant could have such a profound impact on someone's life.

Perhaps the most intriguing aspect of the Private i is the idea that something so seemingly innocent could have such a profound impact on someone's life. It's a reminder of the power of the human spirit and the resilience of the human soul. It's a reminder that, even in the darkest of times, there is always hope for a better tomorrow.

The Private i is a story of hope and resilience, of the power of the human spirit, and of the resilience of the human soul. It's a story that reminds us that, even in the darkest of times, there is always hope for a better tomorrow.

The Sound of Musals

Charlie Brown

Theater Review

By BILL ANTHONY

Charlie Schutz's world of misfits and malcontents is brought to life so simply but one which is half plausible, and also so deeply immersed in the over-sophistication. It is a world where life is lived at a snail's pace, and the characters are forever seeking to escape the tedium of their everyday lives. As the famous line goes, 'Life is a game of wait and see.'

As always, the performances by John Leonard, Malcolm Rose, and the ensemble cast are masterfully executed. The actors bring a sense of humanity and heart to the characters they portray, and their work is a testament to the power of theater.

The Sound of Musals is a world of dreams and illusions, a world where the boundaries of reality are blurred. It is a world where the characters are forever seeking to escape the tedium of their everyday lives. As the famous line goes, 'Life is a game of wait and see.'

Concert Review

A new era in the first part of the concert was the introduction of some of the most exciting and atmospheric moments. The audience was left in awe as the lights dimmed and the stage was filled with a mix of captivating visual and aural effects. The concert was a true masterpiece, from the beginning to the end.

For those who missed the concert, or for those who were unable to attend, we hope this review has captured the essence of what was presented. We encourage you to watch the concert if you have the opportunity, and to experience the magic of music and performance for yourself.
SALESMAN-Male or Female

Manufacturer of Men's and Women's Sportswear is presently seeking a salesman to sell, on campus, a complete line of Freshtime Sportswear products. Prefer student in his second or third year. Excellent opportunity, good earnings. Contact:
