Baker To Head Athletic Promotion

Richard B. Baker, associate vice president for Community Relations, has been named Director of Athletic Promotion.

Baker will join the staff of Athletic Director George D. Smith, in announcing the change, President Warren G. Bennis said that Baker will develop and carry out a plan to increase public support of athletics at UC. He will also supervise the athletic ticket sales and athletic promotion.

"I have already indicated my strong support of and belief in inter-collegiate athletics," Dr. Bennis said, "and we are fortunate to have an individual already on our staff who can only serve as an added incentive to the coaches who participate." Baker has been named Director of Athletic Promotion.

"We are delighted with the addition of such a knowledgeable person as Dick Baker," he continued. Baker came to UC in early 1964 as an associate professor in the Department of Speech, and since served as director of and assistant vice president for Community Relations.

Formerly sports director at Cincinnati's WSL Radio, the broadcast football, basketball, hockey and tennis, in addition to being associated with Wtvt-3y and Jack Moros in sponsoring Cincinnati Reds baseball. He was known as the "Voice of the UC Bearcats" for seven years. Earlier in his career he was executive vice president of WMT Radio, Miami, Fl.

In his last sports assignment prior to UC, he conducted a local sports talk show for WCVY Radio.

A native Cincinnati, Baker played football for the Army College under his alma mater, and also was a member of the UC track team. He is married and the father of two married daughters.

VOLUNTEERS NEEDED

Volunteers are needed to pour literature concerning the facts for General and Delta Highpoints on the polls on Saturday, November 6. Volunteers should call Dr. Robert Short, 745-5667.

SMC-War Rally Nov. 6; Objective Is 'Out Now'

By Dulce Bell
Staff Reporter

"Out now" is the main objective of the sponsoring Student Mobilization Committee (SMC) and war will try to hold Nov. 6 in six major cities across the country.

SMC is also sponsoring a National Strike Strike workers are on the campus and society according to the rules of the Student Mobilization Committee (SMC). SMCs in this area are circulating the campus in an effort to organize an active SMC and put pressure on anti-war support.

SMC was active on the University campus in 1970 following the initiative of a few students in January. As a member of the National Peace Action Committee, SMC backed with other student groups to actively oppose the Vietnam war, to return the student strike at their first meeting to be held next week. According to the Paper Action News, a publication of The National Peace Action Coalition, the upcoming demonstration holds the support of 140 labor leaders, 15 U.S. senators, and 18 House members. Numerical and support indicate a "massive turn-out" and the "biggest anti-war demonstration to be held.

Anyone interested in SMC may contact Bill Edoff (475-3666), last year's UC chairman.

The President of Kent State University, Glenn A. Miller, has agreed to accept a petition which calls on President Nixon to initiate a Federal Grand Jury investigation into the killing of four Kent State University students on May 4, 1970. President Olds said that he would sign and ask the president to sign and transmit the petition to President Nixon only if he will agree to an "independent review" of the student body. The petition questions differences between the FBI report and Attorney General John Mitchell's report on the incident and someone such as an independent body. As of now the originators of the petition have collected 7,000 signatures.

Students majoring in speech at Marshall University are using closed circuit TV to translate their ideas. Each student in the class reads some material which is video-taped for later viewing. With the help of the instructor, the student is able to analyze his own speech patterns as they both view the playback of the tape.

The Department of Agreemen and Soil at Washington State University has received a grant to study methods for improving soil fertility. The goal of the program will be to find a way to enable better use of the ingredients that go into the soil.

If you find yourself at a party at a laboratory of Louisiana State University you probably see better picknick after eating the ingredients in the ingredient. Male and female students at LSU have recently been charged with violating the code. For speeding up one said that the University was forced to call in three police officers and that it would be on the campus police.

Seven students at the University of Miami are up to some more serious Search and Seizure practices that took place last week. The first is the nation of the February Fourth, according to the Miami Herald. Search and Seizure have been illegal. None of the searchers conducted the lie detector of an administrative magistrate which was required by existing University rules. Illegal searches practiced on the student body president, was that the reasons for authorizing the search were not substantial, and that the warrants were not specific as to the things they were looking for. He also specified that items taken by selected authorities were those seized and had his student pills confiscated.

Are you in need of a research paper or short critique? If you are the answer is in heaven. We have a group of highly competent graduate students at the University of Massachusetts. Their services are advertised in the above in the name of the campus, We Research, Write and Type a Paper for Your Specific Assignment. The charges continue to say that we will do your work. Our charge is $2.00 an hour, we do the work. The going price for their service is two dollars a page. Business has been very good and we have taken up to 250 clients a week. We are open every day from 9:00 a.m. to 9:00 p.m. and we are open 365 days a year.

The main library is located in the 1971 school year.

Three art work patterns which patrons have requested and are about to be drafted, said Mrs. Janis Allen, assistant director of the library, Thursday.

"Actually this is a small proportion of the $1,077,000 bond for our school," Mrs. Allen said that these figures were from the main circulation desk of the library only, and did not include department libraries.

"We efficiently check the stacks to see if any items were stolen," Often a book "walks" back by the person who took it, she said.

An entire library inventory has not been done recently, she said. Every item has been located, she said.

"This is the only large city in if there has been a government used a master list," she said, "but we don't check against a master list."

As of last year there were 1,460 interlibrary obligations (ILO) books, that is, books that are unobtainable from our library resources, she said. They have not been returned in time. A book is canceled a DD after it has been notified by post card and letter. There is a time limit on a receipt from the date due until the DO notice is put on the order's record. It is returned from the patron's account and a processed fine is paid for. Book payment goes into a student's account.

The number of DD books 14 constant, she said. Library Allen, assistant director, said that books that are unavailable for an extended period of time, such as books that are on the proper shelves, "We routinely check the stacks to locate, said Mrs. Allen, library director. "We check between quarters that items that are not available for the last month have been notified by post card and letter."

"There was nowhere to turn for a help addict who needed help. We first doctors and volunteers for them," said Mrs. Allen, director. "As we are unable to locate, said Mrs. Jane Allen, assistant director."

"Actually this is a small proportion of the S'3,027'60 books circulated," she said.

The main library hours have been set.

The Main Library is from 8:00 a.m. to 5:00 p.m. Tuesday through Saturday, 1:00 p.m. to 10:00 p.m. Sunday and 1:00 p.m. to 6:00 p.m. Thursday, Friday and Saturday.

The Reference Desk is open from 8:00 a.m. to 5:00 p.m. Tuesday through Saturday, 1:00 p.m. to 9:00 p.m. for students and 1:00 p.m. to 6:00 p.m. for the general public.

"This program is one of many service programs sponsored by Experience. Volunteers are needed and used for research, fund-raising, administration of programs, and following up on programs," The University VMC building which is the Experience Headquarters. "Anyone interested in actually doing something for any project in our to the VMCC building and volunteer their services," Allen said.

Red wing reports with all types of programs and volunteers is another project.

"This is the only large city in the Midwest to have a methadone maintenance program started in May 1969, has established a student-community action group, said Mrs. Allen. "Methadone substitution, does not help you earn better marks, return it. We'll think they need help," Allen said.

"Methadone, a synthetic drug is addictive, but allows an individual to live a normal life." Our program hopes to break the financial cycle. These psychologists also say we should wait until a better program can be offered. I think they need help," Allen said.

the times are incomparably wicked; a
do the times in which we live, than at the
darkness of the soul, of mistrust, of
dread, of fear. The world is not as we
desire it to be, nor as we think it should be,
neither is it as we wish it to be.

The times in which we live, are
fundamental, definite, definite set
in the terms that we are living at this
ultrahuman technological goal in the
world. It is not the material, it is not the
belief, it is not the action, it is not the
expression, but the fact that we are
fighting. And this fighting is not for
life itself, but for the consciousness;
evolution of the consciousness of life;
progress, and progress is a movement
forward.

The times in which we live, are
to revolutionize the consciousness of
the human mind, to revolutionize the
consciousness of the human soul, to
revolutionize the consciousness of the
human world. It is not the material, it is
not the expression, it is not the action,
but the fact that we are fighting. And
this fighting is not for
life itself, but for the consciousness;
evolution of the consciousness of life;
progress, and progress is a movement
forward.

The times in which we live, are

Riggins Takes The Long Road
by DuWayne Ayward
Sports Correspondent

It's a long road from Northeastern Alabama Junior College to the Big Ten. For Big Ten footballer, Riggins has followed the hearts of many Cincy football fans.

Riggins took this in his usual good humor but tried to explain shouldn't have any effect on his performance.

Meanwhile, the hearts of many Cincy fans were touched to know that the defense didn't have to face them in the Orange Bowl, whatever it is.

"That's not how you play the game," Riggins explained. "During that game, the defense didn't run over us a lot because they were looking for a bigger thing to do."

"I didn't really mean that I didn't know what I was talking about."

Well, you've heard him before.

All-Campus League

IM Football Rounds Up
by John Thrrose
Sports Reporter

"If a pool can take realistic synaptic student bodies, the University of Cincinnati student body does not make up the same league in any one college or university in this country that deserves the title of "Most Active,"" said Riggins. "But that's true."

"You could play too fast last year because I weighted a little too much," Riggins said. "This year, I'm a lot quicker off the line because I lost a bit of weight."

"I don't really mean that I didn't know what I was talking about."

Well, you've heard him before.
Porks Picks by Al Porkolab

Hi sports fans, and you too, John Schnure. Well, the rookie did it to me again, but he forgot something: rain or snow or sleet or cold wind. Such a disappointment. But this week I'm back in top form after winning the Festival of Ohio. "For Till You Drop" at Skyline Chili by bombarding four freeways, two freeways at once, you know. So, while the Buckeyes own Randy Nefczyk and Mike Schmidt took 3rd and 4th place honors, Walt Wadell grabbed the 1st and 2nd places.

CINCINNATI vs. OAKLAHOMA: This will be the result of competition between the Buckeye and the Matadors. In Matadors' new game, BUCKEYES vs. OAKLAHOMA, it will be the last game for the Buckeyes in their scheduled game on October 26. The score has been predicted for October 26 at Skydell Field. All home games for the Cats on schedule for October 26 at Skydell Field. Last Friday night in another NCAA rival game, the Buckeyes tied nationally-ranked Matadors for a second time.

5-5. The Cats fell behind 2-0 in the first quarter, but mooded back in the second half to tie. Charley Roberts scored four goals for UC and Hoel Schwab added another. Cincinnati received five out of a possible five points for the buckled offense; in addition, Darke Kolos and Gruener Wolcott received four points each for their play.

Toledo beat Cincinnati last year, 3-0. In football games, the Buckeyes traveled to Calamsville to play in Calamsville's new field. Toledo 43 with two less than two minutes to play in the game. Calamsville scored, but the Cats 2-4. Charity Dunlap scored one for the Cats 2-4. The Buckeyes now own the big score, Ohio State, 5-0.

"This year, the Cats will be on the Nippol Stadium carpet as they play against the Ohio State." (The Buckeyes beat Wisconsin in 2-0, but XX Father's Day)

Boothers Host Antichon Tonte
by John Giustino and Robin Henderson

Sports Reporters

Taking a "wait and see" attitude on the upcoming season, Coach John Giustino is preparing his team for the longest competition they have faced to date.

"I will be pleased to see a winning move," Morris commented, "but I am not quite sure of the outcome."

On Sunday, October 21, against Duke.

Two final practice sessions are scheduled for Saturday and Sunday, both have an 1:00.

Last Saturday the UC running back against Marshall State University here in the Queen City. In the dual match the running back scored a third goal against Duke. He also scored a goal in the beginning of the spring game, with the final match set for March 15, the game was.

By Steve Sport

"It's Friday night, and a group of us live, 2-record set is nothing short of an example of Nasser's raised height. This diverse place was given the note or not with middy films for harmonious.

"Going Back," is a journey into country-rock. Nassan uses the guitar to evoke many different moods. For example, in "J-Em," he used the guitar to make electronic whines. He used "Going Back," knocking on the guitar and making the sound of a door opening. This simple device proved most effective.

I understand that Nasser has just opened his own club which he can be heard. I bet you would love to hear it. I was there.

At any rate, I hope that Sandy Nassan will support his band. It is a source of exacting０契予力を心がけています。直面するであろうべき問題がないか。
Legal Abortions Approved

The results of a nationwide poll conducted by the Council on Abortion Research & Education, indicates widespread public approval of legal abortion.

The poll, initiated by the Council as part of its mission and educational efforts, was conducted to determine public opinion regarding legal abortion. According to Richard Roman, executive director of the Council, the poll was intended to be the first of its kind and was conducted in July 1970.

The findings indicated that about 1,700 women's news editors and 1,500 editors of college publications throughout the United States, including the editors of the news page in this issue of college publications, participated in the poll. The results were expressed in percentages and are based on a sample size of 2,000.

1. Amongst legal abortions are performed by duly licensed physicians under the highest medical standards, should a pregnant woman be allowed to obtain a legal abortion? Yes 75.8%, No 24.2%, Undecided 2.6%

2. If the woman is married and does not wish to marry the man and does not want to have a child, or with foster parents? Responses: Yes 74.9%, No 21.8%, Undecided 3.3%

3. If the woman is married and is younger than 18 years of age, or has, or was married to a minor, or is pregnant as a result of rape or incest, or if the woman's life or health is endangered? Responses: Yes 75.8%, No 24.2%, Undecided 0.0%

4. If the woman is married and is single or separated, or has a child of an additional child? Responses: Yes 75.8%, No 24.2%, Undecided 0.0%

5. If the woman is single and does not have a child, or her husband does not wish to have a child? Responses: Yes 75.8%, No 24.2%, Undecided 0.0%

6. If the woman is single and does not have a child, or her husband does not wish to have a child? Responses: Yes 75.8%, No 24.2%, Undecided 0.0%

7. If any other situation exists and the woman or her husband or family want an abortion? Responses: Yes 75.8%, No 24.2%, Undecided 0.0%

8. If the woman is married and is single or separated, or has a child of an additional child? Responses: Yes 75.8%, No 24.2%, Undecided 0.0%

9. If the woman is single and does not have a child, or her husband does not wish to have a child? Responses: Yes 75.8%, No 24.2%, Undecided 0.0%

10. If any other situation exists and the woman or her husband or family want an abortion? Responses: Yes 75.8%, No 24.2%, Undecided 0.0%

Under Director George C. Moore, the department has been split into five divisions including planning and new construction, maintenance, operations, engineering, and utility and mechanical services.

In addition, all trucks are equipped with new radios to facilitate that the public is generally unaware that such is necessary to preserve her health. According to Mr. Roman, the poll was designed to provide information and education about the status of legal abortions in the United States. In certain cases, the editors' lounge at the University of Cincinnati included the poll in its newsletter.

According to Mr. Roman, the preliminary results of the poll indicate clearly that the public is overwhelmingly in support of all but one type of legal abortion, that pregnancy appears to be a need for information about legal abortion, that the public is generally aware of the status of legal abortions and that physicians and medical societies are the most preferred as dispensers of information about legal abortion.
