Women at UC are joining together to fight for equal opportunities for women. The Campus Women's Liberation Organization held their first meeting this year. They will sponsor a film series and hold workshops and discussions on women's issues. The films shown are produced and edited by women. For more information, see "The American Trauma" and "Half of the Earth." There are plans to host the University Center and are open to all students. Also there may be showings by the women's resident halls.

"Women's Week" will take place from the first time during spring quarter. Events and activities for the week are planned by the women's activity. One great event of the week is the "Women's Week" series. Women students are welcome to attend. Activities will be held at the UC Center and all activities will be open to all students. Also included in the week are a poetry reading, a women's rock group, the Chicago Women's Liberation theatre company named "It's All Right, It's All Right," and a screening of the film "A New Hope." A graduate student in psychology

A strong desire for the continuation of the space program, Armstrong stated.

Engineering graduates can only expect one or two job offers rather than a normal six or seven. Also, the National Science Foundation and the National Aeronautics and Space Administration will not be giving many engineering students interviews.

"It's not as tough for them as for other majors.

In the past few years so many more students have been entering college, it is hard for employers to find the right kind of employees. Students who are interested in getting a job after graduation are being trained in their specific field of study to prepare for an interview. They are given opportunities to present their work to others, and they may be given the ability to travel to other regions to present their work. This helps them gain experience in their specific field of study.

The authors say that many students are misinformed about the importance of the mathematics they should develop. They do not believe that the mathematics they should be developing is important for their major.

Many engineering students are concerned about the lack of jobs this year. They feel that they have been trained in a field that is not as competitive as in the past, and they feel that they may not be able to find a job after graduation.

Students who are interested in getting a job after graduation are being trained in their specific field of study to prepare for an interview. They are given opportunities to present their work to others, and they may be given the ability to travel to other regions to present their work. This helps给他们 the necessary exposure to the employers. They also have an advantage in that they are offered a wide range of job opportunities. This is because they have been trained in a field that is not as competitive as in the past, and they are more likely to find a job after graduation.
The Forum Committee of the Jewish Community Center, 1500 Summit Road, has announced the name and dates of its "Forum Better" of speakers. The 8:30 p.m. series will begin Tues., Nov. 30, with "Remarks" by UC's president, Dr. Warren L. Berro. President Berro is an internationally recognized scholar in the field of organizational behavior. Before becoming UC's eighteenth president, Berro was Vice-President for Academic Affairs at State University of New York at Buffalo. He began his professional career in 1953 as a professor in agricultural economics and has held faculty positions at Harvard and Boston University. Born in 1922, he received his Doctor of Philosophy degree at the University of Chicago. Before becoming UC's eighteenth president, Dr. Berro was chairman of the Advisory Board of the Student Struggle for Soviet Jewry, and the Board of Directors of the Religious Education Association.

Novel Mark, many of many international and national commissions dealing with unusual justice and crime rehabilitation, will speak Feb. 9, on "Policy and Practice of Socialism," 1972.

James Greenfield, foreign editor of The New York Times, will speak Wed., Feb. 23, on "The Meaning of the Pentagon Papers." Last June, The New York Times printed a confidential Pentagon report made in 1967 by the United States Defense Department-Making Plans on Vietnam Policy," bringing about a confrontation between the government and the press. The dispute ended in a 5-3 Supreme Court decision in favor of the Times. Following the decision and summer period of each semester, the Forum Committee extends an invitation to all listeners to examine with the good lecture at a reception to be held to discuss the question: What are the chances the community to recognize and benefit from the government's top priority list is a "total, or "the leading college and university solution," the report to the leading illusionist, Kale, who has performed in the 50 states, Canada, and 50 other countries, will be given special performances before presidents, ambassadors, and other civic and government officials. In one year, he spoke to more than 50 million persons through personal and television appearances. By his 125th birthday, Kale had entertained in more than a dozen states, in Canada and in Central America, and was billed in "the world's premier magic magazine." Since the beginning of his professional career, Kale has developed his own illusions. In one year, he invented more than 4,000 magical effects and ideas. For a number of years, he had his own company which built and sold some of his inventions to manufacturers throughout the world. By the time, he was 25, Kale was designing between 20 to 30 shows each month and directed a number of enterprises in show business. For the past ten years, Kale, through his tours are made with Campus Crusade for Christ International. Tickets for tomorrow night's performance may be purchased at the door for $2.00.

Commuter Forum is being sponsored by Joe Alberque, assistant dean of men and commuter affairs, and Judy Stogen (T.C. 1), representing student government's Communications and Publications Committee. The purpose of Forum is to serve as a basis in solving commuter problems such as: parking problems, (b) eating facilities, (c) commuter hotel, (d) unsupervised campuswide car pool system. Commuter Forum was organized last year to represent commuters on the campus. A complete questionnaire distributed last spring served as a basis for determining commuter problems. Members of the Forum met during the semester to discuss the questionnaire results and possible solutions to the problems. The above objectives of this new Commuter Forum emerged as major areas of concern. Joe Alberque stated that last year's Forum was very unsuccessful because of the lack of participation among the commuters. Judy Stogen commented, "Whatever happened to Commuter Forum?" Each year, the Commuter Forum members, three were, and still are, "looking for a problem to deal with." They stated their solution. The 13th issue on student government's top priority list is "establishing definite lines of action" for the goals the student government attempts to achieve, "the leading illusionist," will perform at 8 p.m. Saturday in the A-4 Auditorium. Kale, who has performed in the 50 states, Canada, and 50 other countries, will be given special performances before presidents, ambassadors, and other civic and government officials. In one year, he spoke to more than 50 million persons through personal and television appearances. Students are being fearful knuckleheads now at the green-frosted doors of our university's own white elephant, the Bodine Science Center. From behind these doors closed dozens of good and probably of the issues between professors and student, the teaching assistant.

Within that white world of walled off by the walls, where the closest look at a professor is at a distance of seventeen feet, the TA is supposed to bridge the distance which existed with the advent of the auditorium type class.

As the populations of universities have grown in the last ten years, the character of the relationship between professor and student has become increasingly impersonal. With increased student load, the teaching professional faculty seems to have taken on more of the role of a part-time professional. The TA has more as a member of the entire student body, in his or her student, and is just as a student, and is just a student.

To The Editor:

Susan Grogan

AAB ‘72

To The Editor:

With all the talk of the older dorms being undesirable, I think a point to make them more desirable should be brought into view. The most unfair treatment of students who live on campus is the cost of room and board. The average rates for room and board is presently set at $451 a quarter. This rate is not that bad unless you happen to live in one of the older dorms.

I believe the main reason that room and board rates are set is to help out the new Sander dorm. Sander dorm was needed on campus because of the increasing enrollment. There is no air conditioning. The only thermostatic control one has is to open the window because the heaters run all the time. This means one has to suffer the heat or cold without the capacity to control one’s environment.

The disadvantages of living in an older dorm are many. There is no air conditioning. The only thermostatic control one has is to open the window because the heaters run all the time. This means one has to suffer the heat or cold without the capacity to control one’s environment.

In spite of the disadvantages of the older dorms, they are brable and they are necessary to house many students. A prior adjustment in one’s attitude is necessary to make these dorms bearable.

The disadvantages of living in an older dorm are many. There is no air conditioning. The only thermostatic control one has is to open the window because the heaters run all the time. This means one has to suffer the heat or cold without the capacity to control one’s environment.

What is life without love?

Tannehill

(Continued from page 4)

It is silly to expect more of a presently apathetic campus! Or was it simply a case of insufficient publicity? Does anyone care?

To The Editor:

John Tannehill is a sophomore in the College of Arts and Sciences.

Free Clinic Aids Community

Free Clinic evolved out of the need for inexpensive medical treatment. Development of the Cincinnati Clinic involved a questionnaire, the formation of committees, and the request for the help of doctors, nurses, community leaders, and drug counselors. Residents of people took part in the planning and clean-up that brought the Free Clinic to existence. The Clinic houses a reception area, staff room, pharmacy, two doctors' offices, a repair room, waiting room, intake room, and dental facilities. The bottom floor is occupied by 424 CARE, which works closely with the clinic. The Clinic is moving ahead in the improvement of facilities and policies. It is hoping to obtain the entire building up to the corner of Vine and McMillan. With the extra space the clinic will be able to facilitate the newly-acquired '649 machine.

Reggie Harrison’s third quarter, 7yd TD run set the victory for the Bearcats at Ohio State University 23-7.

Harrison scored throughout the entire game for the Bearcats as he rushed for 160 yards and two touchdowns. Mel Robertson supplied zeros to Benton with a gain of 49 yards.

We had a lot better second effort running by everyone. Cincinnati center Roy Callahan noted: ‘‘Gators, Reggie (Harrison), Mel (Robertson), and Albert (Johnson) broke some tackles and kept scrambling for that extra yard.”

Injuries slowed the victory as three UC players were sidelined. At Benton and Bill Gary of OU’s 86 yard vicinity to the injury area in the second quarter when Marty creeker Craig Smith was carried off the field in the third quarter, the Bearcats through the final minutes as the defense stalled the ‘highly-touted’ Bobcats on the Cincy 34 where the UC trio of Ohio 43 yard line with 0:36 left in the game on the Ohio

Mid-AM Teams Top Harriers; Stapleton and Stanley to NCAA

Behind the second place finish of Ron Stapleton and Jim Stanley’s sixth place showing, the UC cross country team placed third in a field of eleven in the District 5 Federation meet Saturday at Miami University in Oxford. Stapleton, who along with Stanley will compete in the NCAA Championship Meet at Knoxville, Tennessee, turned in a time of 25:23, just three seconds behind Griffith and Stapleton the top three finishers in the meet included Ron Hartland of Howard University (25:46), Smith, and Bill Adams of Ohio U (25:46), and Greg Adams of Miami (25:46). The outstanding performer of the week starred in the Bearcats’ this season,a loss that my home. So far I’ve been getting

Cowan Now UC Legend; Eyes Choices With Pros

by John Einstein
Sports Associate

He’s strong, quick, with good hands and an inside sweep to find a gap opening that will turn the small gain into a long run. He rushed for an average of 108 yards per game last year, but the 13th place among all running backs in the country.

He holds all the rushing records there. He is the first UC player ever anyone can call the ball for now.

**CСМ Concert**

The Crooner Orchesra, one of the largest instrumental organizations of CСМ, will present its first performance of this season at Corbett on Wednesday, at 8:30 p.m. The program will include Schubert's Symphony No. 4 (Tragic), Mozart's Concerto for Clarinet, with dedicated student Peter Colatosti as soloist; von Weber's Euryanthe Overture, and Beethoven's second suite for orchestra from the ballet, "Gold and the Golden Comedians." There is no admission charge.

*Correction*

Stu Cohen did not write one of the criticisms in the "Looks at College" which appeared in Friday's News Herald.

"I dreamed I saw Joe Hill last night.

Alas you say, Joe, but you're ten years clubbed. I never did say he was a."
IF YOU THINK EUROPE WAS CHEAP THIS SUMMER, YOU SHOULD SEE IT THIS WINTER.

$190

For your next holiday you can be in London for $190. Rome $300. Or Greece $265.

These are just some of TWA's low round trip fares for youth between the ages of 12 and 25.

Who knows how much longer they'll be in effect, so for more details call TWA.

And to help you save money when you're on vacation, send for TWA's new Getaway Kit.

It's free and it will tell you where you can get...
