**Senate reprimands director of parking**

By Byrd Parkinson  
"Student Senate last Wednesday reprimanded Ronald McFarland, director of parking, for his handling of parking issues and for not giving answers to questions asked by Student Senate members during meetings. "I am not going to get involved in your operations," said McFarland, who said he had not had enough time to study the parking problem.

The reprimand was presented to McFarland by Student Senate President Dan Armstrong, who said that McFarland had not been responsive to questions asked by the Senate. "We have been trying to get answers from him for weeks, and he has not been giving us the information we need," said Armstrong.

McFarland, who has been in charge of parking for three years, said that he had been trying to improve the parking situation on campus. "We have been working on this problem for a long time, and I am not going to give up," said McFarland.

The Senate voted unanimously to reprimand McFarland, and Armstrong said that the Senate would continue to monitor the parking situation on campus. "We will not tolerate any more delays in getting answers to our questions," said Armstrong.

**Student Senate censures Center Board**

By Michael X. Ramey

Student Senate last Wednesday night censured the Center Board for its handling of parking issues. "I feel that the Center Board has not been responsive to our concerns," said Student Senate President Dan Armstrong.

The Center Board was ordered to present a plan for improving parking on campus within three weeks. "We need to see action on this issue," said Armstrong.

The Center Board has been criticized for not being responsive to student concerns about parking. "We have been trying to get answers from them for weeks, and we have not been able to get any," said Armstrong.

The Senate voted unanimously to censure the Center Board, and Armstrong said that the Senate would continue to monitor the parking situation on campus. "We will not tolerate any more delays in getting answers to our questions," said Armstrong.

**The Case Against College**

Four years and a degree—with what?

By Bebe Ramee

"Let's get people thinking about the value of a degree," said Carol Bird. "It's fine to be able to point at a degree, but what good is it if you can't get a job with it?

Since the end of World War II, the four-year college degree has been seen as the first step on the road to success. People have been told that their children will have a good education, but with so many colleges—social science, curriculum changes, fewer jobs for graduates—Americans are beginning to rethink the issues of what college is and what it is for.

Bird, a representative of the traditional approach to college, said that the degree is not everything. "People need to learn how to think, not just what to think," she said. "They need to learn how to live, not just how to make a living."

Puritain work ethic is a loser

A checklist for you to help in your job search

Fax us... we particularly invite those you are interested in a specific department.

Admissions... Your college degree could qualify you for a specific type of job... or may not... so you might as well see the opportunity for responsibilities in your major.

Education... You pay to get a college degree to qualify you and command a specific salary. You don't go through school to get a job.

Consultative... Our clothing allowance can mean big savings. You can find a job with a certain amount of a housing allowance. You'll have to be more flexible with your first year, as it may be a Year 2 or Year 3. You can also negotiate a package with us. The prices are reasonable, so it's a great buy for the young.

Medical... Medical and dental care is provided completely for free. The medical care is provided for the employee.

Travel... You may be able to get a package for your first year in some places throughout the world.

Where to begin... Our employment plans are in progress for more than 20 years. Our employment plans are in progress until you reach your goal.

Benefits... If you are a recent graduate, you can get a job with a monthly retirement income. If you have a job for a specific period of time, you can work with our retirement fund.

Two... Even if you are not a current employee, you can still get a job in that location. If you get offers, you can always check back with us to see if you can get a better offer.

Four... If you are a recent graduate, you can still get a job in that location. You can always check back with us to see if you can get a better offer.

Four... If you are a recent graduate, you can still get a job in that location. You can always check back with us to see if you can get a better offer.

Four... If you are a recent graduate, you can still get a job in that location. You can always check back with us to see if you can get a better offer.

Four... If you are a recent graduate, you can still get a job in that location. You can always check back with us to see if you can get a better offer.

Four... If you are a recent graduate, you can still get a job in that location. You can always check back with us to see if you can get a better offer.

Four... If you are a recent graduate, you can still get a job in that location. You can always check back with us to see if you can get a better offer.

Four... If you are a recent graduate, you can still get a job in that location. You can always check back with us to see if you can get a better offer.

Four... If you are a recent graduate, you can still get a job in that location. You can always check back with us to see if you can get a better offer.

Four... If you are a recent graduate, you can still get a job in that location. You can always check back with us to see if you can get a better offer.
It was Saturday afternoon, and it was Derby Day. There were no
horses; however, because it was a
different kind of derby, more like the
bet than any horse race.

The Sigma Chi Derby Day took
place on the green slopes in front of
the UC Fieldhouse and there was
plenty of sunshine, music, cheers,
and laughter. And it was all for fun.

All of it.

Each year UC sororities compete on
Derby Day to win awards. There are
two categories: "spirit" and "overall" spirit of
any one sorority. The women com-
pete against one another, sorority
against sorority, and the competition
is real.

The sorority members played
ice buckets was a second event. The ice buckets were filled
with beer.

Another game was the "chicken
eights." There were no real chickens
but plenty of eggs. Each sorority
representative dug through a sub-
white, flour attempting to find a
half-dollar. It was a race against
time.

The sorority members enjoyed
themself. It was Saturday and the
sun was shining and mid-terms were
over and it was all for fun.

It marked the second day of Greek
Week on campus. Greek Week ends
Friday. There will be events
throughout the remainder of the
week. But last Saturday was Derby
Day and the west side of campus was
brimming with laughter and voices
chanting and cheering and it was all
for fun.

been set to the music of the Sunday
serenade.
Enracing gloom!

Opinion & Comment

Midnight Writings

Sandor W. Stermburg

It seems that when someone goes to college, they pay a great deal of money to be left alone, so that the college can profit from your education and work out whatever deals and dripéd ideas into our heads to make us think that the college has done a good job.

Just what does a college diploma mean nowadays? Is it any different from the one worn by your parents or grandparents? It's the same college diploma. But now it is sold for a lot more money, and we wonder why.

Many people think that a college diploma is worth a lot of money. But why? Is it worth more than a high school diploma? Is it worth more than a GED? Is it worth more than a two-year degree? Is it worth more than a trade school diploma?

But what about the people who are not able to go to college? They are the ones who really need a college diploma. They are the ones who are working hard to get a good job.

So what is the point of this college diploma? Why do we need it? Why do we pay so much money for it? Is it really worth it?

The case against dogs

Dean Feldmeyer

I hate dogs, especially those silly little poos who have capes little spots on their coats and little eyes in the front and like to chase their tails. They sin off a dog while sitting on the fire hydrant trying to get a fire? The answer escapes me.

The Physical Plant cutbacks are just another case of poor financial planning on the part of the University. In its haste to get the budget approved by the Board of Trustees, in its haste to approve the budget and consequently watch the budget publicaly fronting from the "misunderstanding," haphazardly slashed the budget.

When the sun is shining and the temperature is over 80 and people are actually coming out of the dorms to have a little fun, it seems to me that it is a perfect time to slay this dog. Why should we have to cut back in this area? It is a perfect time to have a little fun and enjoy the outdoors.

The lady in the apartment below mine has one. I have one. I am not a dog lover. I am a dog hater. I believe that dogs are a nuisance and should be eliminated. If you don't believe me, just try to live with one for a while.

Dogs are not only a nuisance, they are also dangerous. They can be a threat to children and adults. They can be a threat to the environment and the community.

We must do something about dogs. We must make them go away. We must find a way to get rid of them.

Dogs are a problem. They are a nuisance. They are a danger. They are a threat. We must do something about them.

Humphrey's wailing Nicholson of Hoffman

Washington, D.C. — Whether Humphrey, the liberal, or Humphrey, the conservative, is in charge, the dog is going to die. But don't be too hard on Senator Humphrey.

If Humphrey has been a conservative, he has long been a liberal. If he has been a liberal, he has long been a conservative. The only way to deal with a liberal is to hold on to a liberal. The only way to deal with a conservative is to hold on to a conservative.

The best way to deal with a liberal is to hold on to a conservative. The best way to deal with a conservative is to hold on to a liberal. The only way to deal with a liberal is to hold on to a conservative.

The only way to deal with a conservative is to hold on to a liberal. The only way to deal with a liberal is to hold on to a conservative.

The best way to deal with a liberal is to hold on to a conservative. The best way to deal with a conservative is to hold on to a liberal. The only way to deal with a liberal is to hold on to a conservative.

The only way to deal with a conservative is to hold on to a liberal. The only way to deal with a liberal is to hold on to a conservative.

The best way to deal with a liberal is to hold on to a conservative. The best way to deal with a conservative is to hold on to a liberal. The only way to deal with a liberal is to hold on to a conservative.

The only way to deal with a conservative is to hold on to a liberal. The only way to deal with a liberal is to hold on to a conservative.

The best way to deal with a liberal is to hold on to a conservative. The best way to deal with a conservative is to hold on to a liberal. The only way to deal with a liberal is to hold on to a conservative.

The only way to deal with a conservative is to hold on to a liberal. The only way to deal with a liberal is to hold on to a conservative.
"We crashed the gate down '98..."

Two UC Engineering students test their multi-terrain vehicles in hopes of qualifying for tomorrow's 'mini-baja' in Columbia, S.C.

GLR editors

The GSA is now taking applications for the position of editor and co-editor of the Graduate Student Relations Committee's newsletter. Both positions offer a full stipend and tuition remission.

Correction

The NewsRecord incorrectly identified Harry R. Mark, Jr., professor of chemistry at UC and recently appointed head of the Department of Chemistry here. Both he and David Frank Rich, appointed department head at UC, are wrong, as noted in the May 5 issue of the NewsRecord.

Students from ALL colleges welcome!

UC students geared for 'mini-Baja'

By Peter Hall

"We call it the 'Silver Bullet'--exactly 100 miles per gallon, designed for the spindly silver off-road vehicle used on the Quadcross. Last Thursday, the single-seat three-horse stung up considerable interest among possessors, and Schon's two case studies answered numerous questions.

The 'Silver Bullet' was one of four UC vehicles built for entry to a "mini-Baja" for student-designed, off-road vehicles to be held May 10-14 in Columbia, S.C.

The three most promising vehicles of the four built at UC will be entered in the competition. Those three will be selected by a member of faculty. The chances that the 'Silver Bullet' might make the trip seemed pretty good. One of the other vehicles had already broken in rear axle during testing and another had yet to get its task style steering sorted out. The two cars were damaged but usable.

The crew of the 'Silver Bullet' was not overconfident, though. They were concerned with the welded aluminum frame -- would it hold up under stress conditions?

The concerns were justified. During preliminary trial runs of the 'Silver Bullet' hit a bump, cracking the car's frame and making it unsuitable for competition.

One of the most promising concepts is the "Bouquet Special." Instead of a steering wheel this car utilizes a skid control system similar to a "solar track," or a task.

Art thrives despite destructive attempts

The Exorcist runs!

By Rick Kleinschmidt

UC's Rick Lice takes the late throw as an SIU runner slides safely into third base.

The Exorcist, directed by William Friedkin, was released on June 24, 1973. It was one of the most controversial films of its time and is now considered a classic. The film follows a young girl who is possessed by demonic entities and the efforts of two priests to exorcise the demons from her.

The film was a financial success, grossing over $100 million at the box office, and it received critical acclaim for its direction, performances, and special effects. It was nominated for several Academy Awards, including Best Picture, and it remains a popular and influential film in the horror genre.

The Exorcist was a significant cultural event, sparking debates about religion and the supernatural, and it helped to establish the horror genre as a major force in American cinema.

The film is now widely considered a masterpiece of horror cinema and a landmark in the history of American filmmaking.
ANNOUNCEMENTS

Golfers finish 12th by Gary Burke
The UC women's golf team fell seven places in the final round of the Spanish International at East Lansing, Michigan to finish 12th out of twenty teams with a 783, over the weekend.

On the first round on Friday, the Bearcats shot a 331 for a 5th place finish behind Indiana and eleven strokes behind Notre Dame. William, Western Michigan, followed by Raad Baanesan 73, and Jeff Kremenepalin and Ron Flavatn both with a 77.

But on Saturday afternoon, the winds came and affected four of the six UC golfers. Hamoin's 74, and our number one man, Jeff Kremenepalin had an 11 over par round.

The medal for the tournament was Harold Payne from Marshall University with a 74-6 for an even par 142. Ohio State finished first, scoring a 74, followed by Indiana with a 77 and Western Michigan at 76.

This Friday, the Bearcat golfers will compete in the first Metro Valley golf championships in Middletown, Tennessee. "Memphis has an awful lot of talent, so we can expect a good one," said Schwarberg. "I wanted to win the Conference, but we aren't satisfied with second."

After catching the pass, John Chase (37) turns to make the acquaintance with Tim Fitzpatrick (31). While both three-for-three in the tour, leaving daily from May 16 to 24, call 475-6911.

The 12TH WARD COLLEGE Republican Club will hold its Annual Meeting on May 31 at 7:30 p.m. at the Club House, 3134 Murray St., Toledo. A social will precede the meeting at 6:30 p.m. All members are invited to attend.

LEADERSHIP WORKSHOP series. Open to Can of the 1980's who want to be identified for educational, legislative and civic roles.

Showboat revives 'Fantasticks' reality

By Boba Rudo

What a show! Fantasticks is funny, inventive, and moonlight! It's just what the show was always meant to be, and what you learn to cherish when you have a sense of story that can't be stopped.

The Fantasticks, a musical that was once regarded as a lost treasure, is now being revived by the National Opera in a production that is both fresh and exciting. The show is set in a small town where three couples are about to get married, and the song 'Over There' is being sung in the town square.

The production stars Tom Jones and Shelley Bamberger, who play the roles of the young couple. The music is composed by George and Elizabeth Hovhaness, and the lyrics are by Robert B. Sherman and Richard M. Sherman.

The Fantasticks is a musical comedy that was originally written and performed by the actors who were members of the junior high school's drama club. The show was first performed in 1960, and it has been produced many times since then.

The show's plot is simple but charming. The two couples, who are about to get married, are engaged in a friendly competition to see who can have the best wedding. The competition is shown through a series of songs and dances, and the couples' relationship is explored through their interactions.

The production is directed by John Alexander, who is known for his work on other community theater productions. He has been directing shows for over 20 years, and he is excited to bring this musical to the stage.

The Fantasticks is a delightful show that is sure to bring joy to audiences of all ages. It is a musical that is both entertaining and thought-provoking, and it is sure to be a hit with audiences everywhere.

By Paul Finow

A small group of country folk sing in a small town—Billie Jean King, singing with two concert pianists in one of the concerts in May. The Fantasticks, a musical production of Lolita, and the Sadhus of the Night, are performed in the Fantasies of the Night, at the center of the village.

The Fantasticks is a musical production that was first performed in 1960. It has been performed many times since then, and it is considered one of the most popular musicals of all time.

The production stars Tom Jones and Shelley Bamberger, who play the roles of the young couple. The music is composed by George and Elizabeth Hovhaness, and the lyrics are by Robert B. Sherman and Richard M. Sherman.

The show is set in a small town where three couples are about to get married, and the song 'Over There' is being sung in the town square.

The production stars Tom Jones and Shelley Bamberger, who play the roles of the young couple. The music is composed by George and Elizabeth Hovhaness, and the lyrics are by Robert B. Sherman and Richard M. Sherman.

The show's plot is simple but charming. The two couples, who are about to get married, are engaged in a friendly competition to see who can have the best wedding. The competition is shown through a series of songs and dances, and the couples' relationship is explored through their interactions.

The production is directed by John Alexander, who is known for his work on other community theater productions. He has been directing shows for over 20 years, and he is excited to bring this musical to the stage.

The Fantasticks is a delightful show that is sure to bring joy to audiences of all ages. It is a musical that is both entertaining and thought-provoking, and it is sure to be a hit with audiences everywhere.
